ALL INDIA SERVICES

During 1957-58, 341 officers were appointed to the Indian Administrative Service, 77 through competitive examination, 84 by promotion from State Services and 180 under the Special Recruitment Scheme.

The number of I.P.S. officers was 102, 65 through competitive examination and 37 by promotion from State Services.

Upto March 1958, 180 officers belonging to State Services were appointed to the I.A.S. under the Special Recruitment Scheme.

CENTRAL GOVERNMENT EMPLOYEES

No. drawing upto Rs. 250 per month—15,80,243.

No. drawing between Rs. 250 and Rs. 300 per month—12,035.

The figures are as on 30th June 1955.

CRIME

No. of cognizable offences in India in 1954: 5,56,912. In 1955: 5,35,236.

Dacoities fell by 11.4%, robberies by 11.7%, house-breaking by 8.1%, criminal breach of trust by 7.7%, theft by 5.3%.

Rioting cases increased by 3.7% and kidnapping and abduction by 9.3%.

The decrease was noted for Bombay, U.P., Bihar, M.P., W. Bengal, Madras, though in all these States the number of cases was more than 20,000 for each State.

Sixty police officers were killed and 1,570 injured while performing their duty.

FAMILY PLANNING

Two hundred and seventy-three family planning clinics were opened in the rural areas upto April 1958.

The total number of clinics proposed to be opened during the Second Plan period is 2,000 phased as follows: 1956-57, 100; 1957-58, 200; 1958-59, 300; 1959-60, 600; and 1960-61, 800.

During 1957-58 a total amount of Rs. 3,90,457 was sanctioned as grants-in-aid to the family planning programme in the rural areas. Of this amount Rs. 2,81,997 was sanctioned to the State Governments and Rs. 1,08,470 to voluntary organisations.

HOUSING

It is estimated that in 1951 the shortage of houses was about 2.5 million on the assumption that each house-hold should have a separate house.

The total urban population was 61.9 million, occupied houses 10.3 million and house-holds 12.8 million.

The number of houses required to be constructed during 1961-61 to meet the shortage is estimated at 8.9 million. It is also calculated that during this period only about three million dwelling units would be constructed in urban

ANGLO-INDIANS—2†

ESTIMATES COMMITTEE

B. G. Mehta (Chairman).

S. A. Dange, Jogendra Singh, Mahavir Tyagi, Satyendra Narayan Sinha, Radha Charan Sharma, Ranbir Singh Chaudhuri, Gopalrao Khedkar, Mrs. Sucheta Kripalani, R. R. Morarka, M. Thirumala Rao, J. Rameshwar Rao, C. R. Narasimhan, Amjad Ali, R. Ramanathan Chettiar, Ahmed Mohiuddin, Mrs. Renuka Ray, Uma Charan Patnaik, Raghubir Sahai, Pandit Dwarka Nath Tiwari, Govind Malaviya, R. L.

HOUSING AND MISCELLANEOUS

areas. Thus housing shortage in 1961 would be about five million.

The total provision for housing in the Second Plan is Rs. 120 crores, which is more than three times the provision in the First Plan.

In the First Plan period about 1.3 million houses were constructed (742,000 by public authorities and 600,000 by private).

During the Second Plan period it is proposed to construct 1.9 million units.

Apart from finance proposals generally made include the setting up of State Housing Boards, Housing Corporations, legislation on peg land values and facilitate land acquisition. There is also a suggestion that every employer should build at least a reasonable number of houses for his workers.

Housing schemes in operation are slum clearance, industrial housing, low-income group, middle-income group, housing for Scheduled Castes, rural housing and plantation labour housing.

The Slum Clearance Scheme came into operation in May 1956.

Upto 12th Feb. 1958, 124 projects with provision for 9,404 plots and 31,641 tenements at a total cost of Rs. 17.5 crores were received from the State Governments. Of these 49 projects were sanctioned. Amount proposed to be disbursed during the Second Plan is Rs. 11.4 crores. Amount disbursed till 12th Feb. 1958 was a little over Rs. 21 lakhs (represents loan portion only). Two-thirds of the amount is loan and one-third subsidy. The State Government has to find a matching subsidy from its own resources.

Bombay has the largest number of projects—36 with provision for 12,998 tenements. West Bengal has 4 projects with 9,296 tenements.

The total amount of money needed for slum clearance in the country is estimated at between Rs. 10,000 and 20,000 crores.

Under the Subsidised Industrial Housing Scheme 69,700 out of 91,250 authorized for construction were completed upto the end of Jan. 1958. The Scheme was introduced in Sept. 1952. Upto Jan. 1958 the total financial aid sanctioned and disbursed amounted to Rs. 25.79 crores and Rs. 17.32 crores respectively. The allocation for 1957-58 was Rs. 4 crores and the amount disbursed till Jan. 31, 1958 was Rs. 66 lakhs.

Ninety per cent is by way of loan and 10 per cent subsidy.

The total provision under the Second Plan is Rs. 45 crores. About 1,23,000 tenements are expected to be built.

The houses sanctioned and built respectively as at the end of 1957 State-wise:

Andhra: 3,819; 2,312. Assam: 314; nil. Bihar: 4,441; 4,180. Bombay: 32,028; 21,167. Delhi: 1,424; 1,434. Kerala: 200; 180. Madhya Pradesh: 6,464; 5,208. Madras: 2,088; 1,480. Mysore: 6,327; 5,983. Orissa: 1,402; 1,120. Punjab: 3,013; 1,729. Rajasthan: 2,652; 1,580. U.P.: 21,218; 18,622. West Bengal: 3,978; 1,920.

Jangde, N. C. Kadiwal, Dodda Thimmaiah, M. L. Dwivedi, A. E. T. Barrow, V. P. Nay, R. K. Khadlikar, B. K. Galkwad, Shradhdhak Supakar.

PUBLIC ACCOUNTS COMMITTEE

T. N. Singh (Chairman), Dr. Ram Subh Singh, Arun Chandra Guha, N. R. M. Swam, Pandit Jwala Prasad Jyotishi, Ramchew, Sahu, T. Sanganna, Upendranath Barmu, Prabhat Kar, N. G. Rangna, H. C. Dasgupta, Khushiwaqt Rai, N. Silva Raj, Aurobindo Ghose, Jaipal Singh, Rajkumari Amrit Kaur, Ananda Chaud, T. R. Deoghlikar, S. Venkataratnam, M. Govinda Reddy, Rohit Manushankar Datta, M. Dasavajunmalah.

The houses are built by Government employers and Co-operatives.

The Low-Income Group Housing was started in Nov. 1954. Till the end of January 1958 the amount disbursed by the Central Government to the States was Rs. 19.14 crores. The amount sanctioned for 1957-58 was Rs. 6 crores and the amount disbursed upto the end of Jan. 1958 was Rs. 55 lakhs.

The Second Plan target is 68,000 houses.

The State Governments and local bodies can now build houses themselves and either sell them outright or on hire-purchase or rent them to tenants. This has to be on a non-profit basis. Also not more than 25% of the cost can be given to State employees. Ten per cent of the funds received from the Central Government should be earmarked for high-rise dwellings.

Under the Rural Housing Programme there is a provision of Rs. 10 crores under the Second Plan. About 5,000 villages will be covered by the end of the Plan.

Each project will cover 4 to 6 villages in the C.D. or N.E.S. areas.

During the first phase of the programme U.P. will have 17 projects, Bihar 12, Bengal 10, Andhra 9, M.P. 7, Madras 7, W. Bengal 6, Mysore 5, Kerala, Orissa, Punjab and Rajasthan 4 each, Assam 3, Kashmir 1. Other States will also have one project each.

In the first phase (Oct. 1957) 500 villages will be covered, and another 1,000 will be added in 1958-59.

There is a ceiling of Rs. 1,500 on a family's house. In 1957-58 Rs. 50 lakhs were allocated.

About Plantation Labour Housing only the Kerala Government drew Rs. 1.50 lakhs upto the end of Jan. 1956 for disbursement of loans to planters. The total Central allocation for 1957-58 is Rs. 25 lakhs.

About the Middle-Income Group housing Government have accepted the Planning Commission recommendation that the Second Plan allocation of Rs. 3 crores should be diverted to other Schemes. Government are now investigating the possibility of the Life Insurance Corporation advancing loans to this group.

House-building advances to Central Government servants were started in 1956. Upto the end of Jan. 1958, 353 applications were received out of which 112 involving grant of loans totalling Rs. 14.24 lakhs were sanctioned.

NATIONAL INCOME

Figures for national income at the 1954-55 level of prices:

1954-57: Rs. 11,010 crores; 1955-58: Rs. 10,480 crores; 1954-55: Rs. 10,280 crores.

Figures for per capita income at 1954-55 level of prices:

1954-57: Rs. 294.0; 1955-58: Rs. 271.9; 1954-55: Rs. 271.9.

The estimates for 1956-57 are based on partial material and are subject to revision.

* Election void.

† Nominated by the President.

AKHIL BHARAT HINDU MAHASABHA

(Hindu Mahasabha Bhawan, Reading Road, New Delhi.)

President : N. C. Chatterjee.

Acting President : Mahant Digvijaynath.

Vice-Presidents : Debendranath Mookerjee ; Prof. Ram Singh ; Bhagirath Motha.

Acting General Secretary : Niranjan Verma.

Organising Secretary : Brij Narain Brajesh, M.P.

Treasurer : Seth Bishan Chand, M.P.

Total membership of Party : 3,00,000.

Strength in the Lok Sabha : 3.

AIMS AND OBJECTS

The aim of the Hindu Mahasabha is the protection and promotion of all that contributes to the advancement, strength and glory of Hindu Rashtra, Hindu culture and Hindu polity, and as a means to that end, to achieve Hindu Raj and re-establish the integrity of the State of Bharat by constitutional means.

Besides the establishment of 'Akhauda Hindustan' the aims and objects of the Hindu Mahasabha are defined as follows :

The establishment of a really democratic State in Hindustan, based on the culture and socialist tradition of the land ;

The organisation and consolidation of all sections of the people into one organised whole ;

The creation of a new social order in which all nationals will enjoy equal rights and opportunities and share equal responsibilities ;

The assurance to each national of the dignity of human values and full freedom of thought, expression, association and worship ;

The revival and promotion of the ancient Indian motto of plain living and high thinking, and the glorious ideals of Aryan womanhood ;

Adoption of (Sanskrit-Nishta) Hindi as the national language and Devanagari as the national script of India ;

Removal of all forms of social inequalities and disabilities .

Reclamation of all those who have left the Hindu fold and welcoming of others into the community ;

Ending of gross inequalities in the distribution of wealth, assurance of a decent standard of living to each national, and securing for workers and peasants their rightful share in the economy of the country ;

Industrialisation of the country as rapidly as possible ;

Promotion of cow protection and abolition of cow slaughter ;

Cultivation of friendly relations with other nations with a view to maintaining international peace and progress.

The present Constitution of India is borrowed from the Constitutions of America, England, France and other Western countries and is not suited to the genius of the people. The Hindu Mahasabha would undertake the task of amending the Constitution so that it may be in consonance with the tradition and culture of the land and make Bharat a truly democratic Hindu State.

The Hindu Mahasabha wants to discourage all separatist tendencies and hence would amend the Constitution so that Bharat may be a well-knit homogeneous State with a strong centre and not a loose combination of autonomous States. Bharat itself would be a State and the units would be provinces and not States.

The Hindu Mahasabha believes in the policy of formation of provinces on a linguistic basis and the readjustment of boundaries of provinces wherever necessary, with due regard to the problems of defence and security, the area, population and economic stability of the province concerned and the rehabilitation of the refugees.

The distinction between States would be removed and all parts of India would enjoy the fullest democratic rights without any distinction.

The Hindu Mahasabha proposes to come out of the Commonwealth in order to make Bharat a really free nation. It will enter into treaty relations with the United Kingdom and other countries for mutual help and co-operation.

India's foreign policy will be guided by the principle of enlightened self-interest and reciprocity.

The Hindu Mahasabha will adopt the policy of reciprocity towards Pakistan.

The Hindu Mahasabha will endeavour to build up a strong defence in the present disturbed condition of the international situation and with this object in view, will develop the country as a first rate military power in order to make its voice felt in the United Nations Organisation.

The Hindu Mahasabha will make military education compulsory for all young men between the ages of 18 and 25, who are physically fit and special attention will be paid to industries connected with war machines and materials of all types.

The Hindu Mahasabha will relax the rigours of the Arms Act and issue licences liberally to the inhabitants in border areas.

The Hindu Mahasabha recognises the sanctity of private property and guarantees its possession and inheritance to its owners.

All key industries such as electricity, railway, coal and steel mines and industries dealing with war materials and weapons will be owned and controlled by the State. The remaining industries will remain open for private enterprise. In running these industries the Mahasabha assures all investors full facilities to start new industries with State aid and partial exemption from taxation in the initial stages.

The Hindu Mahasabha is convinced that controls, without guaranteeing adequate supply of controlled commodities to the public, are only a nuisance and also often actually lead to blackmarketing and corruption.

The Hindu Mahasabha will give priority to rehabilitation of refugees and would even levy a special tax, if necessary, for the purpose. The Hindu Mahasabha guarantees compensation to all evacuees who have lost their property in Pakistan and will settle the problem of evacuees' properties at Government level speedily. The Hindu Mahasabha also declares that the refugees will become full-fledged citizens of Bharat. The Hindu Mahasabha will take effective steps to recover abducted women from Pakistan.

The Party lays special stress on the reconversion of those who had left Hinduism. It believes that the activities of non-Indian missionaries are harmful to the country. The Party, therefore, demands a ban on foreign missions and the nationalization of Christian churches.

ALL INDIA FORWARD BLOC

(Central Avenue Road, Nagpur.)

Chairman, Hemanta Kumar Basu, M.L.A.

Deputy Chairman, Muthuramalinga Thevar, M.P.

General Secretary, R. K. Haldikar

The aim of the party is to establish socialism through a revolutionary class struggle, as enunciated by Netaji Subhas Chandra Bose.

Number of members in the Rajya Sabha : Nil

Number of members in the Lok Sabha : Three.

Number of members in the State Legislatures : 20.

No. of votes polled for Lok Sabha in the general elections : about 10 lakhs.

No. of votes polled for the State Assemblies in the general elections : about 17 lakhs.

Total membership of party : about 90,000.

ALL JAMMU & KASHMIR DEMOCRATIC NATIONAL CONFERENCE

Central Office—Srinagar ; Provincial Office for Kashmir Province—Srinagar ; Provincial Office for Jammu Province—Jammu.

Chairman : G. M. Sadiq.

Executive Committee :—

Gurdhari Lal Dogra (Ex-Finance Minister), Mr. Qasim (Ex-Revenue Minister), D. P. Dhar (Ex-Deputy Home Minister), G. R. Renu (Ex-Speaker), Ram Narai Saraf, Krishen Dev Sahil, Moll Ram Begra, Syed Hussain Abdul Rehman Rahat, Ghulam Mohd. Mir, Manohar Nath Kaul, Raisada Amar Chand, Sardhari Lal Mohajan, M. L. Miral, Shri Mahasabha Nayar Saikh.

Policy and Programme :

The policy may be summed up as follows : Kashmir is an integral part of India—The accession is final and cannot be undone.

There shall be no plebiscite

Friendly relations between India and Pakistan

The autonomy of the State within the Indian Union should be preserved consistent with the States accession to India in respect of defence, foreign affairs and communications and the provisions of the Delhi Agreement.

There shall be no merger.

Foreign intrigue will be resisted.

There should be genuine democracy. The liberties and freedoms embodied in the Indian Constitution should be effective in Kashmir.

An administration free from inefficiency, corruption, red tape.

Suitable elements in the Peace Brigade to be absorbed into the police and be made amenable to police discipline.

Adjustments in the machinery of administration of State-owned industries.

No monopoly control over trade or business by any group.

Reduction in price level and an end to profiteering.

Economic programme embodied in the 'New Kashmir'—social services like health, unemployment benefit, free education, etc.

Strength of Democratic National Conference in Kashmir Legislature : Fifteen in the Assembly and six in the Council.

Total membership of party : about 3 lakhs.

ALL JAMMU & KASHMIR NATIONAL CONFERENCE

(See under article on Jammu and Kashmir.)

BHARATIYA JAN SANGH

(Ajmer Gate, Delhi.)

President, Principal Deva Prasad Ghosh.
General Secretary, Din Dayal Upadhyay.
Secretaries, Atalbehari Vajpayee, M.P.; Jagannathrao Joshi.
Office Secretary, J. P. Mathur.
Total membership of party in country, 600,000.
Strength in the Lok Sabha: 4.
Strength in Rajya Sabha: 1.
Total strength in State Legislatures: 61.
No. of votes polled in elections to Lok Sabha: Over 72 lakhs.
Has branches in all the States. The Praja Parishad of Kashmir is affiliated to it.

AIMS AND OBJECTS

The party has put forward the following programme.

Opposition to copying U.S.A. or U.S.S.R. systems.

Promotion of private enterprise with a legate checks against concentration of power. The present trends will lead to State capitalism.

Top priority to food, defence, unemployment. Country should be self-sufficient in defence equipment and producer and consumer goods.

Right to work should be a fundamental right. Unemployment benefits.

Is opposed to the mechanization of agriculture. Economic power should be decentralized.

Spheres of small-scale and large-scale industry should be clearly demarcated. Will promote small-scale industry by reserving markets, encouraging co-operative industries, giving protection to handloom industry.

Nationalisation of basic industries and defence industries. Other industries subject to supervision and regulation. Is opposed to nationalisation of banking and road transport. The present trend in the nationalisation of industry will destroy democracy.

Indianization of foreign-owned industries (e.g. tea, coffee and rubber plantations). In others, two-thirds of investment and staff should be Indian. A ceiling on the profit which can be remitted abroad.

Co-sharing and Co-partnership in industry. Adequate representation of labour on boards of

management. Encouragement of labour unions and automatic recognition. A permanent Wage Board. Periodic revision of scales of pay. Rs. 100 as the minimum wage at present. Social security legislation. Special allowance for hazardous jobs. Abolition of the employees' contribution to the Employees' State Insurance scheme. Equal pay for equal work.

Rs. 2,000 as maximum expendable income for individual—to be brought about through taxation and compulsory loans and investment.

Restriction on import of consumer goods and luxury goods. Encouragement of swadeshi. Only swadeshi goods to be used in Government offices.

Generally opposed to indirect taxation. Abolition of Sales Tax and excise duty on the necessities of life such as cloth.

Parity in price between agricultural and industrial goods. Upholds abolition of zamindari and distribution of land to the landless. Rehabilitation grants. Co-operative banks and insurance of villagers and cattle.

Compulsory military training. Establishment of defence industries. Abolition of untouchability and fighting caste feeling to bring about unity in Hindu society. Nationalise non-Hindus by inculcating Bharatiya culture. Will implement recommendations of the Niyogi Committee.

Stands for unitary rather than federal conceptions.

Part of land revenue to Panchayats.

Will abolish Legislative Councils and repeal the Preventive Detention Act and the Public Safety Acts and amend Sections 107, 108, 109 and 144 of the Criminal Procedure Code and Sections 124A and 153 of the I.P.C. to protect civil liberty.

All India services in health, forests and engineering.

Rs. 500 a month as a Minister's salary. Will separate judiciary from executive, abolish honorary magistrates and preserve the system of benches of High Courts.

Strict reciprocity towards Pakistan.

Will press for decent treatment of minorities in Pakistan.

Will press for full compensation for property left by refugees in Pakistan, and no concession in the matter of loans or canal dues.

Kashmir an integral part of India.

No plebiscite in Kashmir; and no special position to Kashmir in the Indian Union, same status as other States.

Non-involvement in foreign affairs. Friendly relations with all. Opposition to colonialism and Communist expansion.

Co-operation with U.N.O. Amendment of Charter to make U.N.O. truly representative of the people. Permanent seat for India in Security Council. Full support for people in revolt against Western Colonialism or Russian imperialism.

All steps including police action to liberate G.A.

On the question of displaced persons stands for (i) immediate payment of small claims, (ii) Revaluation of shops and houses, (iii) paying rents realised towards prices of the commodities, (iv) Realisation of values of properties, (v) easy instalments spread over thirty years, (vi) recovery of amounts up to Rs. 2,000 given as loans. Recommends demanding territory from Pakistan for resettling the refugees.

Is opposed to the extension in the fifteen year limit laid down for the replacement of English by Hindi. Will have a five-year plan for the development of Hindi and other Bharatiya languages. Stands for the inclusion of Sanskrit in the list of Bharatiya languages.

Stands for giving Hindi its rightful place in the State of Jammu and Kashmir.

Stands for (1) primary education through the mother tongue, (2) secondary and higher education through the regional language and Hindi as compulsory subject, (3) making learning of one regional language compulsory for Hindi speaking students, (4) compulsory course of Sanskrit studies, (5) recognition of graduates of Hindi and of other recognised Indian languages as on par with English, (6) autonomy of educational institutions and universities.

Free and compulsory education at the primary and secondary stages. Free education for poor but deserving students at the higher stage.

COMMUNIST PARTY OF INDIA

(7/4, Anaf Ali Road, New Delhi.)

Members of the Secretariat are:

Ajoy Ghosh (General Secretary), S. A. Dange, M. P. Vasupanniah, B. T. Hanslive, P. C. Joshi, Dr. Z. A. Ahmad, Bhupesh Gupta and A. K. Gopalan.

Membership of the Party: 229,500 at end of March, 1958.

Members in the Lok Sabha: 30 (including one independent).

Members in the Rajya Sabha: 14.
Total Number in the State Assemblies: about 210. In addition, there are 9 Independents elected with the support of the Communist Party (5 of these in Kerala).

Number of votes secured in the general elections of 1957: Lok Sabha 12,744,056 (including the votes secured by Independents supported by the Party). Assemblies 10,433,032 (including the votes for party-supported Independents).

The Party emerged as the strongest after the Congress both in terms of seats won and the votes polled.

The number of seats that the Party and its allies held in the various State Assemblies was as follows: Andhra 30; Assam 4; Bihar 7; Bombay 21; Kerala 66; Madhya Pradesh 2; Madras 4; Mysore 2; Orissa 8; Punjab 6; Rajasthan 2; U.P. 8; West Bengal 40; Tripura 15; Manipal 4.

In Kerala, the Communist Party which was the most numerous single party and also the majority party formed the Government.

The Election Manifesto issued by the Party in January 1957, stated:

"A determined effort has to be made in the coming elections to put an end to the monopoly which the Congress enjoys. This position has meant callous betrayal of pledges, defiance of popular will, stifling of political life. . .

"In those States where the democratic movement is especially strong, the Communist Party will strive to create conditions in which democratic Governments, based on a coalition of democratic parties and individuals, can be formed. . .

"In other States, the Party's endeavour will be to strengthen its own position and the position of the democratic opposition in the legislatures."

In Kerala and West Bengal, the Communist Party fought the elections on the slogan of an alternative Government.

In West Bengal, the Communist Party formed an alliance with the Praja Socialist Party, the Forward Bloc, the R.S.P. and Independents on the basis of a common programme and the formation of an alternative Government.

At its special Congress held at Amritsar in April 1954, the Communist Party made several changes in its organisational structure. Important ones among these relate to the primary and the Central Organs of the Party.

The primary unit of the Party which had hitherto, will from now on be the branch.

The Central Committee and the Polit Bureau which were the Central Organs of the Party are abolished. Instead there is a 101-man National Council, a 26-member Central Executive Committee and a Secretariat of 8 members, including the General Secretary.

AIMS AND OBJECTS

Describing its aims and objects in the Preamble to the Constitution adopted at Amritsar the Party states:

The aim of the Communist Party of India is the achievement of power by the working people, the establishment of People's Democracy led by the working class, based on the alliance of the working class and peasantry and the realisation of socialism and communism.

In furtherance of these aims and taking into account the immediate tasks confronting the country, the Communist Party of India strives to unite and lead all patriotic and democratic forces in the country in the struggle for the

defence and consolidation of national freedom, the elimination of the power of monopoly capital, the removal of the grip of foreign capital, the strengthening of national economy, an all-sided expansion of democracy and the liquidation of feudal survivals and the darker sides of the heritage of foreign rule in the economic, cultural and social spheres.

The Communist Party stands for a foreign policy based on the principles of Panch Shila. It fights for peace and peaceful co-operation between all countries and supports the anti-imperialist struggles of the colonial and dependent peoples.

While reiterating that in the struggle for its immediate as well as ultimate objectives the Communist Party of India is guided by the philosophy and principles of Marxism-Leninism, the Preamble states that the Communist Party works out its policies by applying the theory of Marxism-Leninism to the realities of the Indian situation. The Party formulates and determines its line of action in accordance with the interests and needs of the Indian people and is responsible to them for its decisions.

The Communist Party of India strives to achieve full democracy and socialism by peaceful means. It considers that by developing a powerful mass movement, by winning a majority in Parliament and by backing it with mass sanctions, the working class and its allies can overcome the resistance of the forces of reaction and ensure that Parliament becomes an instrument of people's will for effecting fundamental changes in the economic, social and State structure.

In co-operation with all forces working for socialism in the country, the Communist Party will strive to build a Socialist society which ensures rapid advance in all spheres and also guarantees the widest possible extension of individual liberty, freedom of speech, press, association and the right of political organisation to all including those in opposition to the Government, so long as they abide by the constitution of the country.

For the country's national regeneration, the Party has put forward the following minimum programme:

INDUSTRY

(1) Priority to development of heavy and basic industries, which includes iron and steel, machine-making, including fabrication of steel plants, heavy chemicals, oil, coal, minerals and power, which should be in the State sector.

(2) Protection to national industries against foreign competition.

(3) Location of industries should be so arranged that while taking into account natural advantages, balanced development of various regions is provided for. In backward States where private capital cannot be mobilised even for large-scale light industries, these should be undertaken by the State.

(4) Development of armaments, aircraft and ship-building industries by the State with a view to strengthening national independence.

(5) Pending the development of heavy and basic industries, increased consumer demands should be met, as far as possible, by maximum utilisation of existing capacities in organised industries and by encouragement of small-scale and village industries.

RESOURCES

(6) In order to augment the resources for national reconstruction, certain industries and undertakings should be nationalised. To begin with, banking, general insurance, coal-mining as a whole, aluminium industry, manganese, copper, iron and gold-mining as well as British-controlled jute mills and plantations, should be immediately nationalised.

(7) Impose a ceiling on export of profits, and take over profits in excess of the ceiling as compulsory loan.

(8) Impose a ceiling on profits of all big enterprises and commercial undertakings, and take over profits in excess as compulsory loan.

(9) These, together with the reserves of large companies to form a National Development Pool, to be invested in the State and private sectors in accordance with national needs.

(10) State monopoly of foreign trade in the principal commodities. This would give the State the profits from such trade. It also enables it to diversify our foreign trade and develop it on the basis of mutual advantage.

Further promotion of State trading in the internal market.

(11) Heavier taxation on corporation profits, tax on personal wealth and tax on capital gains. Steeply graded income-tax, and fixation of ceilings on personal and family incomes.

(12) Postponement of payment of compensation to big landlords.

(13) Cancellation of Privy Purses to Princes.

(14) Requisition of the hoarded wealth of the Princes as compulsory loans.

(15) Reduction of the salaries and allowances of highly-paid officials.

PEASANTS

(16) Immediate carrying out of urgent agrarian reforms and substantial reduction of the burden of the rents and usurious interests.

(17) Immediate fixation of ceiling on landholdings and distribution, without any payment, of the land in excess to the agricultural labour and peasants.

(18) Setting up agricultural labour and peasant committees to implement land reforms.

(19) Planned free distribution of all Government cultivable waste-land to poor peasants and agricultural labourers within a period of three years and State aid for bringing these under cultivation.

(20) Substantial scaling down of debts owed by peasants to landlords and money-lenders by cancellation of unconscionable debts. Arrangements for the liquidation of remaining debts in easy instalments spread over a number of years. Setting up of Debt Conciliation Boards for this purpose.

(21) Wide extension of co-operatives for rural credit, marketing of produce as well as for supply of agricultural machinery and implements, fertilisers, etc. The existing co-operative law to be drastically amended in a democratic direction, by drastically curtailing the powers of the bureaucratic officials of the co-operative department.

(22) Fixation of minimum wage for agricultural labour, and its enforcement by encouraging the organisations of agricultural labourers.

Cancellation of debts owed by agricultural labourers to landlords and money-lenders.

(23) Guaranteeing of a fair price to the peasants for their produce.

Only criterion of irrigation works should be the degree of benefit conferred on the peasant and not any economic return.

Cost of installation of tube-wells should be borne by Government.

Water-rates should be low enough so that they are within the capacity of the peasant to pay.

WORKING CLASS

(24) The present rationalisation drive in major industries like jute and cotton textiles, in the name of stepping up exports, should be stopped.

(25) The present policy of wage-freeze should be given up. A national minimum wage should be fixed, and workers should be assisted in securing fair wages which should be above the minimum.

(26) Pending such fixation, an immediate increase by 25 per cent to all workers' wages in view of the increased productivity of labour. The dearness allowance should be amalgamated with basic wages.

(27) Social insurance schemes to be rapidly extended to cover all industries and types of benefits and not merely confined to health. The benefit of the present health insurance scheme should be extended to the workers' family members.

(28) Provision for unemployment benefits and bonus.

EDUCATION

(29) Free and compulsory elementary education up to the age of 14 years.

(30) Adequate provision for technical and scientific education on a large scale should be made.

(31) Education at all levels including the University standards should be in the regional language or languages.

The study of Hindi should be encouraged as the language of the Union Government and for communications between Governments and people of different States.

Provision should be made to teach minorities where they are in considerable number in their mother tongue up to the end of secondary stage.

Adequate safeguards for the Urdu language and script and provision for imparting education in Urdu for Urdu-speaking population.

(32) Ensuring academic and democratic rights for students and teachers.

(33) Adequate salaries for all teachers.

(34) Adequate medical service and maternity homes both in the cities and the country-side.

(35) Arrangement for supply of drinking water to all localities.

DEMOCRACY

It is necessary to:

(36) Abolish Upper Houses in the Legislatures; introduce proportional representation in all elections, right of recall, a secret ballot even for Panchayat elections; and officials at various levels to be under the control of elected local bodies.

Union territories, as long as they continue, must have a democratic set-up and not be administered by Commissioners with nominated Advisory Councils.

(37) Ensure the right to organise, hold meetings and demonstrations and for this purpose repeal all repressive laws and measures.

(38) Drastically revise the Police Code, curtailing the powers of the police to arrest, shoot, lathi-charge and ban meetings and processions.

(39) Repeal the Dramatic Performances Act of 1926, and police censorship of plays, restrictions on routing of halls, etc.

(40) Repeal of legislation which encourages regimentation; active encouragement to trade unions to unite and form one trade union in each industry or undertaking on the basis of internal trade union democracy.

No imposition of regimented trade unions on the workers.

(41) Assure trade union rights to all workers. The National Security and Safeguarding Rules under which workers in Government undertakings and departments are arbitrarily and summarily dismissed, must be repealed. Declaration of areas like Chittaranjan and Hirakud as prohibited areas must be rescinded.

(42) Give workers and employees an effective voice in the management and direction of industrial enterprises. Committees of elected representatives of workers and employees should be recognised on an equal footing with the administration.

(43) Entrust trade unions with the management and administration of Employees' State Insurance and other social amenity schemes.

(44) Associate, with an effective voice, in rural areas the kisan sabhas and organisations of agricultural labour, in the implementation of agrarian reforms, in the execution of local development schemes.

(45) Vest the local organs of the people like Village Panchayats, Local Boards and Municipalities with powers to discharge their responsibilities. The power of Government officials should be curtailed so that they function as the servants of the elected representatives of the people in the local boards.

(46) Entrust all local developmental work, such as Community Project Scheme, NES, etc., to the Panchayats and reduce the present high administrative cost.

(47) Equal rights to women—in the matter of inheritance, right to own land, equal pay for equal work, maternity leave, benefits.

(48) Provide refugees with gainful employment.

(49) Separation of judiciary from the executive.

GANATANTRA PARISHAD (Cuttack 1, Orissa.)

President : Rajballabh Misra, M.L.A.

General Secretary : Raghunath Misra.

At the annual conference of the party in May 1958 it was decided to make the party an all-India party.

The aims and objects are :

Promoting the political, economic, social and moral well-being and advancement of the people;

Formation of homogeneous administrative units on economic, linguistic and cultural basis;

Safeguarding the civil, political and cultural rights of minorities and backward areas and classes;

Removing corruption and black-marketing, inefficiency, jobbery, nepotism, indifference and unresponsiveness from the administration;

Restoring civil liberties and faith in justice and democracy among the people;

Abolition of land revenue and the introduction of graduated progressive taxation on agricultural income with a view to achieving a ceiling on income from agricultural resources at Rs. 4,800;

Secure minimum holding to the cultivating tenants and for the purpose exempt from tax-

ation agricultural holding yielding income upto Rs. 1,600;

Increased production, adequate and proper wages to agricultural labour, soil preservation, reclamation of cultivable waste land, flood control, provision for rural credit, establishment of multipurpose co-operatives and improvement of fodder crops;

Nationalisation of the industries which have been established mostly through Government aid; nationalisation of mines to be worked in future; nationalisation of industries in which competition between the State and individuals will not be conducive to public benefit; nationalisation of industries which can be run more efficiently and produce more cheaply under Government management;

Ensure adequate market for cottage industry products, protection to cottage industries from competition from big industries; adoption of the principle of co-management and profit-sharing by capital and labour; encouraging trade unionism to ensure better wages; ensuring dignity of labour and proper conditions of work; checking monopolistic tendencies in industry; extension of industrial aid to deserving enterprises;

Safeguarding the interests of the middle class, reduction of taxation; social security services for the people; economic and social uplift of the scheduled castes and scheduled tribes; separation of the executive and the judiciary; protection of minorities; administrative reforms; free and compulsory primary education; higher pay for teachers; establishment of more polytechnic, educational and technical institutions; provision for more stipends and loans for students; abolition of the Kendu Leaf Control Order; abolition of monopolies in minor forest products and the supply of bamboo, coal and timber, etc. from the forests to the people in time of need.

Restoration of Seraikella and Kharswan to Orissa and the integration of the outlying Orissa tracts with Orissa; shifting cultivation; conversion of Bhogra land into royati; adequate compensation to the people for land acquisition, etc.

The party lays special emphasis on

The removal of regional disparity in the Five Year Plans; uniform per capita income in the constituent States; the rural and agricultural sector of the economy; greater autonomy and freedom to the constituent States.

INDIAN NATIONAL CONGRESS

(7, Jantar Mantar Road, New Delhi.)

President : U. N. Dhebar.

General Secretaries : A. Satyanarayana Raju; Vacant.

Working Committee : U. N. Dhebar, Jawaharlal Nehru, Pandit Govind Ballabh Pant, Dr. Bishan Chandra Roy, Jagjivan Ram, K. P. Madhavan Nair, Morarji Desai, Srikrishna Sinha, Kamraj, Nadar, Hafiz Md. Ibrahim, Mohindra M. Chowdhry, Indira Gandhi, Khandubhai Desai, Y. B. Chavan, A. Satyanarayana Raju, Govind Das, Sardar Partap Singh Kairon, U. S. Malliah, Sadiq Ali, Pushpalata Das.

Presidents of Provincial Congress Committees : P. Ranga Reddy (Andhra), M. M. Chaudhury (Assam), Nand Kumar Singh (Bihar), K. K. Shah (Bombay), Vacant (Delhi), Mazanbhai Shankarlal Patel (Gujarat), S. N. Ramani (Himachal Pradesh), K. A. Damodara Menon (Kerala), M. Nair Nimbalkar (Maharashtra), P. Lakshmi Narayan Das (Madhya Pradesh), P. Chenniah (Mysore), Gopikatal Kannanwar (Nagpur), Giani Gurmukh Singh Musafir (Punjab), Harial Singh (Rajasthan), Raja Ram Naidu (Tamilnad), Biren Mitra (Utkal), Chaturbhui Sharma (Uttar Pradesh), Dr. J. N. Korpé (Vidarbha), Atulva Ghosh (West Bengal), Sawanakar (Marathwadi).

Central Parliamentary Board : U. N. Dhebar, Govind Ballabh Pant, Morarji Desai, Jagjivan Ram, Indira Gandhi, Hafiz Md. Ibrahim.

Leader Congress Party, Parliament, Jawaharlal Nehru, **Deputy Leader,** Pandit Govind Ballabh Pant.

Secretaries, Ram Subhag Singh, Dr. N. G. Ranga, T. S. Pattabhiraman.

Total membership of Party in country : 88,00,000 (approx.)

Strength in Lok Sabha : 372.

Strength in Rajya Sabha : 191 (estimate).

Total strength in State Legislatures : 2,041 (Part A States) (at the end of the General Election).

Total number of votes polled in the General Election: Lok Sabha: 5,40,56,646; State Assemblies: 4,76,32,427.

The Indian National Congress includes the following bodies.

The All-India Congress Committee, the Working Committee, Pradesh Congress Committees, District Congress Committees, General Assembly of the Mandal Congress Committees, Mandal Congress Committees, Committees above or below the Mandal Committees and subordinate to the District Committee.

There are 19 Pradesh Congress Committees.

Andhra, Assam, Bihar, Bombay, Delhi, Gujarat, Himachal, Kerala, Maharashtra, Madhya Pradesh, Mysore, Nagpur, Punjab, Rajasthan, Tamilnad, Utkal, Uttar Pradesh, Vidarbha and West Bengal.

The Mandal Congress Committee, on which the organization is finally based, covers an area having a population of round about 20,000, and is made up of members elected by primary members of the Congress at the rate of one for about 2,000 members—and of co-opted members, the elected members always having a majority.

The General Assembly of the Mandal consists of the primary members enrolled within the area covered by the Mandal.

The All-India Congress Committee, at its session in Aug-Sept. 1957 approved of certain changes in the constitution of the Congress party, which then came into immediate effect.

These changes concerned mainly three points: indirect election to the higher bodies, functional representation on them for trade unionists, kisan and youth workers, and thirdly the conception of a Mandal Committee as a means of keeping in close touch with the general mass of the people.

The District and Pradesh Committees, for example, are elected by the elected members of the Mandal Committees. Also there will be on them representatives of certain organizations or institutions working in the area in accordance with certain rules.

The A.I.C.C. will also have on it representatives of allied institutions and organizations.

There are two kinds of member: **Passive** and **Active**. The latter has greater rights and obligations. For example, it is obligatory on him to do social work. And he alone can become a member of any Congress Committee, above a Mandal Committee, and of Mandal Committee, he alone can be an office-bearer or member of the executive.

AIMS AND OBJECTS

The ideology, outlook and policy may be described as follows:

The object of the Indian National Congress is the well-being and advancement of the people of India and the establishment in India of peaceful and legitimate means of a Socialist Co-operative Commonwealth based on equality of opportunity and of political, economic and social rights, aiming at world peace and brotherhood.

The provision of the basic needs of food, clothing and shelter, and of opportunity for cultural growth for all people.

With a view to achieving the above objects planning should take place with a view to the establishment of a socialistic pattern of society where the principal means of production are under social ownership or control and there is equitable distribution of national wealth.

The national aim is a welfare state and a socialist economy.

Full employment should be achieved in ten years.

The State should initiate and operate large scale schemes, providing services such as power, transport; have over-all control of resources, social purposes and trends; maintain economic controls; prevent private trusts and cartels, maintain standards of labour and production; the public sector must progressively play a greater part particularly in the establishment of basic industries; the private sector should function in terms of the national plan.

Special stress on the development of steel building of heavy machines, coal and heavy chemicals. Extensive mineral surveys.

Organization of industry, commerce and agriculture on a co-operative basis.

* At the time of writing replaced by an ad hoc committee.

Participation of workers in management of industry.

Perspective planning; flexible short-term plans in the context of a long-term plan.

Backward areas and regions should be specially helped to develop themselves.

The Congress Party's industrial policy in general is embodied in the Government of India resolution, a lengthy summary of which is given in the article dealing with industrial structure and policy.

The per capita income should be doubled in fifteen years.

Belief in a secular state; all citizens to have equal rights; removal of barriers which divide people on the basis of religion, caste, class or region.

Separatist tendencies which hinder national unity should be discouraged. Caste, communalism and provincialism should go.

Land Reform

Abolition of old and out-dated agrarian systems of tenure; security of tenure and fair rents for tenants and tillers of the soil.

Land reform should be effected quickly, agricultural prices stabilized at a reasonable level and facilities for rural credit greatly enlarged. The Government would play its part through the nationalization of the Imperial Bank.

There should be a ceiling on holdings.

Co-operative farming; the village as the unit of co-operative management.

Local administration through Panchayats.

Promotion of small-scale and cottage industries as supplier of consumer goods and source of employment; organization of cottage industries in industrial co-operatives.

Supply of adequate quantities of yarn to handloom weavers.

State trading should be undertaken whenever the balance of advantages lies in favour of such a course.

Control of distribution is essential in times of scarcity.

Time, skill, resources of the people must be organized on a voluntary basis for the economic and social betterment of the community.

Redirection of public expenditure, imposition of estate duties and of tax on wealth and spending for the removal of inequalities and the provision of resources for the Second Plan.

There should be a reasonable relationship of maximum and minimum incomes.

A certain minimum standard of living should be guaranteed to every citizen.

A measure of austerity and avoidance of waste is necessary so that the maximum use could be made of the nation's resources.

Better housing for workers.

Effective machinery to commend good work and condemn bad work in the public services.

Summary method to deal with corruption.

Education

Basic education would provide the future pattern of primary as well as secondary education. Primary schools will be converted to the Basic type in a well-planned manner within ten years.

Multi-purpose schools will be established.

Manual work as part of curriculum of higher education; no degree or diploma without manual work.

The medium of instruction at the primary stage must be the mother tongue. Where the mother tongue of a child is not identical with the regional language instruction in the mother tongue should be made available, provided there is a reasonable number of persons demanding such instruction.

At the secondary stage instruction should ordinarily be in the regional language, though other languages could be used if there is a large enough demand.

At the university stage, the regional language should be the medium, though Hindi and even English could be used as this will facilitate inter-provincial cultural intercourse.

In the teaching of scientific and technical subjects the transition from English to Hindi or the regional language should be gradual.

Hindi should be a compulsory second language at the Secondary stage.

The study of English should be taken up at the secondary school stage and continued at the university.

Progressively, examinations for the all-India services should be held in English, Hindi and the regional languages. Candidates who have chosen Hindi or a regional language should pass separately in English.

Successful non-Hindi candidates should take a test in Hindi at an early stage.

Hindi Prachar Sabhas in the headquarters of every Taluka in the south.

It is necessary for people in Hindi-speaking areas to learn at least one regional language.

Proper representation to minorities in legislatures and other public bodies.

Removal of social disabilities of women.

Social and legal disabilities hindering the progress of women should be removed and women should be placed on a footing of equality in the matter of marriage, property, inheritance and divorce through a series of Hindu law reform bills.

Provinces on a linguistic basis where there is a demand representing the agreed views of the people of the area: economic, administrative and financial considerations must be taken into account.

The Congress supports Bhoodan and Sampattidan.

The Congress gives active help to movements for communal unity, uplift of Harijans and Advais, promotion of cottage and village industries, organization of co-operatives, and in the developmental programme of the Five Year Plans.

The Congress is committed to prohibition.

Foreign Policy

Independent line in foreign policy; friendly relations with all countries.

India's relations with foreign countries will be governed by the Pancha Shil. They should also be the basis of the relations between all nations.

Regional military pacts which happen to serve specific interests of the Great Powers will not promote the cause of peace.

India will not be aligned to any power bloc, and will not take part in other people's wars.

China must be admitted to the United Nations. Membership should, in fact, be universal.

Foreign establishments on Indian soil must revert to India.

Only peaceful methods will be used for the liberation of Goa.

In general, people under colonial rule should be free.

Racialism should end.

The Kashmir dispute must be settled in accordance with the wishes of the people of Kashmir.

On the reorganization of States, specific ideas are embodied in the States Reorganization Act. Language is an important but not dominating factor. Major consideration now is economic development. Also, there are bilingual areas; any attempt to set up rigid unilingual States here is unjust.

Unilingual States may exist where this is considered desirable. But unilingualism cannot be made a fetish.

It is also desirable to encourage where feasible the formation of bilingual States with regional councils for each linguistic area. In this sense any union of two States is specially welcome.

Formation of regions within a State may be necessary for the full development of a language or culture.

On the whole, it is best not to have relatively small units.

RE-ORIENTATION

Mr. Nehru's declaration on May 3 that he wished to retire because he felt stale, tired and vaguely disturbed in mind shook the Congress Party badly. It also led to a good deal of self-criticism and stocktaking and all seemed anxious to bring about necessary reform. Exactly what reform Mr. Nehru desired was not very clear, because in a speech in which he spoke about his own doubts and fears he insisted that there was no division of opinion in the Cabinet and that there was not much that was wrong with the party. What disturbed him was rather the larger picture of India. The sense of idealism, of service and of mission which was so prominent a feature of Congress life and thought before independence now tended to give place to evils like self-interest, personal advancement, communal passion, factionalism, revival of primitive instincts.

The A.I.C.C., which met on 10th May and the Working Committee looked searching into specific defects and failure and generally into what ailed the Congress and gave the lead in the movement for reform. In the debates that followed in the A.I.C.C. much was said about Congress attitudes and policy and where the remedies lay. This was later crystallized into a series of resolutions and directives which the Congress Working Committee sent out. The minor points which might be mentioned were that a fair deal should be given to the minorities and adequate facilities for instruction in and use of Urdu as a regional language wherever prevalent.

On the major question of vitalizing and purifying the party, the Committee made a number of points: The broad ideology of the Congress is governed by the twin principles of democracy and socialism; suitable literature on the ideology and programme of the Congress must be produced and widely distributed; problems must be discussed at study circles and seminars; cadres must be trained at different levels for effective participation in the implementation of the plan; casteism must be faced boldly and overcome; each Mandal Congress Committee which is the basis of the whole structure should prepare a minimum programme for increasing agricultural production, mobilising small savings, and participation in community development work during the next six months. Targets should be laid down; each Mandal Committee should collect Rs. 1,000 through small savings, so must each M.L.A., while a Member of Parliament should collect Rs. 2,000; a sub-committee of five of the executive of the P.C.C. should meet the State Cabinet periodically to discuss development problems; these sub-committees could also deal satisfactorily with people's grievances; the presidents and secretaries of District and Provincial Committees should be experienced whole-time persons; Ministers on tour should contact the Committees; there should be special machinery with State Governments for the quick disposal of complaints; methods of eradicating corruption should be given wide publicity; in the selection of candidates for elections opinion of the constituency committees should be given adequate weight.

CONGRESS SOCIALIST FORUM

Towards the end of December, 1958 about 35 Congress Members of Parliament and others met in New Delhi and decided to constitute themselves into a sort of ginger group within the Party. Later they gave themselves the name Congress Socialist Forum. The members not only believed in socialism but would carry the party's programme down to the rank and file and the people at large.

The convention which met on Dec. 22 and 23 was presided over by the Minister for Mines and Fuel Mr. Keshav Dev Malaviya. Others present, included Mr. N. V. Gadgil, Mr. A. M. Thomas (Deputy Minister for Food), Mr. S. N. Misra (Deputy Minister of Planning), Mr. L. N. Misra (Parliamentary Secretary to the Minister of Planning), Mr. Narsingh Rao Dixit (Deputy Home Minister, Madhya Pradesh), Mr. Ram Subhag Singh (Secretary, Congress Parliamentary Party), Mr. Jogesh Chatterjee and Mr. Ansar Harvauli.

The proceedings were initiated by Mr. S. N. Misra, Deputy Minister of Planning, who introduced the subject, and gave the background to the development of a thesis, "Keep the Flame Alive", the general principles of which were subsequently adopted by the group.

The general consensus of opinion was in favour of the formation of the group. It was felt that it would strengthen the Congress Party by undertaking ideological discussions, research and training of cadres. Nothing would be done in violation of the letter or spirit of the Congress constitution.

Mr. Malaviya emphasised that the members must observe Congress discipline and must evolve a code of conduct. The group must also encourage self-education and self-criticism among its members.

It was decided that the group would raise a cadre which would be trained to do active work for social and economic reconstruction of the country and planned development on a socialist basis. This would be a body of active members for the implementation of the "ideology."

Fifty workers would be trained at each of the four regional centres to be set up in 1950.

Certain subjects were selected for study and research. Among these are: "the order of the Socialist society envisaged by the Congress", "the social standards that should be set up in keeping with the pattern of a Socialist democratic society" and "the party and the plan."

THE THESIS

The thesis notes that the remarkable strength and the hold over the masses which the Congress Party enjoyed so far has been because of its identification with the basic urges of the people. There has since been a steep fall in these attributes even though they are vitally necessary in the party's present role.

If the Congress is now to build a socialist order democratically, it must also be able to mobilise the entire nation to the effort on the one hand and effectively check any undue growth in the powers and influence of the bureaucracy and of mere experts on the other. This dual task can be discharged effectively if the party is equipped for it and has also a cadre of its own trained sufficiently in the elements of the science and ethics of socialism and in the mechanics of its implementation.

For this the party is clearly not yet organised.

Whatever thinking is being done in the Congress today is only in the Government and by the Government.

The party, as a whole, is inert and obviously indifferent. Yet, on the success of its performance hinges not merely the future of the Congress but of the entire country as well.

In respect of the First Five-Year Plan, the thesis points out that the party which should have acted as the "eyes and ears" of the Plan, remained only as a passive spectator. Its ranks neither studied nor discussed the Plan on a scale commensurate with its importance. If the Congress had taken the Plan seriously and more actively co-operated in its implementation, it would have, to some extent, perhaps, transformed itself into an effective instrument of social change.

If, unfortunately, the Second Plan fails, the Congress must be held responsible for failing to provide the necessary inspiration and lead to the people at this turning point in the career of the nation. For, the Second Plan is the first real attack on the status quo, and it represents the

minimum necessary to make a significant advance towards economic development.

On the ideological plane, although the party has accepted socialism, the inspiration for it has flowed in part, from circumstances and in part from the thinking of one man—Mr. Nehru.

Even though a new and vital ideology has now been adopted, the members of the Congress who are expected to uphold it and practise it, popularise it, are not even fully aware of the meaning of a socialist society and the implications of a planned economy. Their role continues to be one of mere spectators rather than active participants, and their outlook and pattern of thought and action continue as of old.

Increasingly the question is being asked in India and outside: "After Nehru, what?" In answering this question, however, the Congress must not engage itself in a search for another "Nehru," but make a supreme effort to improve the organisation and create the conditions which would bring out the best in every member within the party.

The central fact that stands out today is that there is a complete lack of ideological unity of outlook within the party. In such conditions, it is not surprising that the party's nexus in the organisation inevitably tends to be based on power, money and sectarian considerations like caste or language and by what may be called sheer physical sanctions. It is groups in different areas succeed in putting themselves in the saddle.

To make matters worse, there has been no inflow of fresh and young blood into the party in recent years. It has on the other hand, in touch with the thinking sections of society, as teachers, students and the professional classes.

The message and decisions of the party have reached down to the rank and file. The gap between them and the top leadership can only be filled by a trained corps of workers in the legislature and outside who are alert and dynamic.

MAHAGUJARAT JANATA PARISHAD

(Mission Road, Bhadra, Ahmedabad.)

President, Indulal K. Yagnik, M.P.

Vice-Presidents, Dr. Ganjaram Patel, M.L.A., Dinkar Mehta, Basubhai Amin, M.L.C., Maulana Habib Rehman Gazevali.

Secretaries, Harihar Khamboha, Jaswant Butaria, Dhanvant Shroff, Chhotanai Vakil.

Office Secretary, Chinanlal A. Bhagat.

Treasurer, Ishwarlal Bhavsar.

The Mahagujarat Janata Parishad was founded in the wake of the announcement of the formation of bilingual Bombay State, with the aim of "taking all possible peaceful, non-violent and democratic measures for the establishment of a separate State for Gujarati-speaking people, co-equal in status with other linguistic States".

The Constitution of the Parishad was adopted on December 30, 1950 by some 600 delegates from Gujarat, Saurashtra and Kutch.

Mr. Indulal Yagnik was elected the first President.

Under the constitution, the Parishad will be independent of other political parties, and its members will have to uphold the actions and decisions of the Parishad in cases where these are not consistent with the resolutions or principles of other parties.

251a families exist in the following Districts: Ahmedabad, Kaira, Broach, Surat, Mehwana, Sabarkantha, Ramnagar, Baroda and Panchmahals.

The party had on its rolls over 1,75,000 members during 1956-57.

In the 1957 general elections, the Parishad contested 16 of the 22 Lok Sabha seats allotted to Gujarat, Saurashtra and Kutch, and 65 of the

132 seats in the State Assembly, and extended support to nine P.S.P. nominees.

Of these the Parishad captured 5 Lok Sabha seats, 30 State Assembly seats while 10 Parishad-supported P.S.P. were returned to the Assembly.

In terms of votes cast, the Parishad secured 15,74,000 votes in Gujarat and Saurashtra in the 1957 Assembly elections, while in the Lok Sabha elections it secured 18,55,251 votes.

Subsequently the Parishad returned nominees to the Rajya Sabha.

The Election Commission has recognised the Parishad as a regional political party and accepted its election symbol: the cock.

On State-basis, the Parishad claimed 10 per cent of votes cast, in the 1957 elections in Bombay.

PEASANTS AND WORKERS PARTY OF INDIA

(Koliwadi, Farnaswady, Bombay 2.)

General Secretary : D. B. Desai.

AIMS AND OBJECTS

To establish complete independence by severing all connections with British Imperialism.

To establish a People's Democratic Government of Workers and Peasants and all other classes which are firmly opposed to Anglo-American domination and are inside the World Peace Front.

To reorganise India on a linguistic basis, fully recognising the right of nations to self-determination.

To provide constitutional protection to the language and culture of all minorities.

To abolish all vestiges of Princely rule and feudalism.

India and Pakistan to give mutual aid to each other with a view to furthering the interests of the toiling masses of both the States.

Abolish landlordism without compensation; redistribute land, abolish usury, guarantee minimum living wages to agricultural labourers.

To confiscate foreign capital invested in big industrial concerns, banks, means of communications, plantations, mines, etc.

Nationalise big monopolist industries, banks and insurance companies, to secure for workers a control in the management, to guarantee a living wage, seven hour day, old age pension, sickness benefits, etc. to workers.

Guarantee right of work to everybody.

Control profits of private enterprises.

Abolish bureaucracy; officials to be elected by the people with a right to recall.

Equal rights to women, and enforcement of the principle of 'equal pay for equal work'.

Total Membership : As a Marxist Party the membership of the Party is strictly restricted to those who are active workers and devote a major part of their time to party work. The rest are put in the class of sympathisers.

Both classes of members together number about 10,000.

Strength in Lok Sabha : 4.

Strength in Rajya Sabha : 2.

Total strength in State Legislatures : 34 (Bombay Assembly 27, Bombay Council 4, Mysore Assembly 3).

PRAJA SOCIALIST PARTY

(18, Windsor Place, New Delhi.)

Chairman : Ganga Sharan Sinha, M.P.

Deputy Chairman, Surendranath Dwivedi, M.P.

General Secretary : N. G. Goray, M.P.

Treasurer : Asoka Mohita, M.P.

Secretaries : Prem Bhasin, K. K. Menon.

National Executive : Asoka Mohita, M.P., Ganga Sharan Sinha, Dr. Pratulla Chandra Ghosh, M.L.A., Surendranath Dwivedi, M.P., P. S. Chinnai, M.L.A., H. V. Kamat, K. R. Kurant, Triloki Singh, M.L.A., Dr. K. B. Menon, M.P., Prem Bhasin, Hari-hwar Goswami, M.L.A., Pattom Thann Pillai, M.L.A., S. M. Joshi, M.L.A., Basawan Sinha, M.L.A., Mir Mushtaq Ahmed Mukut Behari Lal, Ishwarbhai Desai, Suresh Chandra Banerjee, M. S. Gurupad-samy, Nathai R. N. Reddy, Genda Singh, Shaktantala Shrivastava, Murlidhar Vyas, N. G. Goray.

There are 20 provincial branches. There are also district branches, the number of which was 338 in 1950-57. The number of organized constituency branches would be about 2,000.

The Party also functions through three different fronts: the peasants (Hind Kisan Panchayat), labour (Hind Mazdoor Sabha), youth (Samajwadi Yuvak Sabha).

The P.S.P. supports the Hind Mazdoor Sabha, which has also the affiliations of unions organized by other parties. The P.S.P. believes that a trade union should be free of all outside influence. The strength of the HMS would be about 4 lakhs. The P.S.P. also functions in a number of smaller unions which are not affiliated to any of the national unions—especially in the railways, posts and telegraphs, banks, insurance and defence industries.

The official organ of the Party is the *Janata*, an English weekly. Provincial branches have journals of their own published in the regional languages.

The central office has a publications department which brings out pamphlets, brochures, etc. on relevant subjects.

There is an International Affairs Committee of the Party which keeps liaison with socialist parties in other countries and concerns itself with international affairs.

The P.S.P. is a member of the Asian Socialist Conference. The P.S.P. maintains an observer status with the Socialist International.

Total membership of the Party, 250,000.

Strength in the Lok Sabha, 29.

Strength in the Rajya Sabha, 8.

Total strength in State Legislatures, 205.

Andhra 2, Assam 8, West Bengal 22, Bihar 35, Bombay 38, Madras 2, Mysore 18, Uttar Pradesh 45, Orissa 11, Madhya Pradesh 12, Rajasthan 1, Punjab 2, Kerala 9.

Total number of votes polled in General Elections :

Lok Sabha, 1,18,59,225.

State Assemblies, 1,18,92,500.

AIMS AND OBJECTS

The Party believes the reconstruction of the country can best be achieved on the basis of an equalitarian social order free from political and economic exploitation and ensuring personal freedom.

The yearnings of the people for clean and efficient administration and expanding and equitable economy can be realised only through decentralisation in administration and economy.

Local initiative and local control must, therefore, be the pivot of our administration and economy.

Village or a group of small villages should be the unit of both administration and economy. Inside the village there has to be full democratic functioning.

Local governments based on the elective principle will be the chief instruments of change in the rural set-up. Local bodies will be endowed with legislative and administrative power, and power over welfare and development departments. Such of these as qualify for it will also be in control of the police except special armed constabularies. After five years of Socialist rule the office of district collector and deputy commissioner will be abolished. This type of functionary would thereafter work under a panchayat. The local authority will have a share of the revenue amounting to about a fourth of the revenue of the State.

To vitalise rural economy, land must belong to the tiller of the soil. It must be redistributed in economic holdings.

Redistribution will be completed in a five-year period by a Socialist Government; a

family of five persons will be left with a maximum of three times the unit of land that a family can cultivate without employing hired labour or mechanical tools.

The Party will foster and encourage co-operative farming and distribution.

There will be co-operatives of various kinds and degrees, operated primarily through the village panchayat.

To bring undeveloped land under cultivation a food army of a million persons will be raised. It will be clothed and housed by the State and a modest salary will also be permitted. After two years when the reclamation is over the food army will have turned into farmers of model villages. There will be an additional production of four million tons of food, and a trained technical personnel of over 10,000 persons.

About irrigation, the main emphasis will be on minor irrigation, particularly earth works. These will be constructed by the voluntary labour of almost the entire adult population who will give an hour's free work.

The Socialist Government will try and implement a policy of parity between agricultural and industrial prices.

The Government will also make efforts to replace land revenue whenever possible by a graded income-tax.

Economic development should be effected mainly with the help of local resources in men, material and skill.

To this end the Party advocates decentralisation of industry.

It also envisages the development of a new technology based on small machines operated by power, capable of distribution in small units.

A new type of machine will have to be devised, and a scientific and technical research department will be put on the job of discovering suitable types.

Such a technology not only harmonises with the economic and social conditions in our country, but would create circumstances which would eliminate bureaucratic control.

As regards key industries, foreign trade and the sectors of economy where capital tends to accumulate and power concentrate the policy of the Party will be one of nationalisation.

To enable democratic checks and participation, nationalisation will generally be worked out through autonomous corporations in whose control and conduct the workers, technicians, consumers and other allied interests are represented.

The Party stands for a free trade union movement, that is, trade unionism free from the control of government, employers and political parties.

All incomes must be subject to a ceiling : This will be imposed at Rs. 2,000 at the present level of prices. Other incomes will be adjusted. This may be brought about either through taxation or straight-forward fixation.

Fulllest realisation of civil liberties is one of the major objectives of the Party.

The law relating to evidence and criminal procedure will be so altered as to make the processes of justice quicker and cheaper.

The office of Governor will be abolished. The distinction between Parts A, B and C States will also be removed. The second chambers in States will also go. Territorial

adjustments are to be on a basis of language, economic viability and good administration.

The spirit of austerity and of swadeshi, so far as goods manufactured by decentralised industries are concerned, will be fostered.

The principle of swadeshi can be extended to centralised private enterprise on the basis of fair prices and standard of goods. Both public finance and foreign trade will be so reorganised as to work out the above policy.

Economic equality and social mobility with democratic functioning are the ultimate guiding principles.

In foreign policy, the party favours a policy of neutrality and non-involvement and co-operation with like-minded forces in other countries.

In defence the policy will be one of maintaining minimum armed forces and building up of a popular militia.

In the matter of food, it is necessary to have an integrated plan of production of cereals, pulses, tubers, vegetables, milk, fish, eggs, meat and fruit.

The tiller of the soil should be the owner of the land and there should be intensity cultivation, parity of price between industry and agriculture, minimum wages for agricultural labour.

In the immediate future there is need for democratic socialist movement of all elements animated by a common purpose, as the Congress party is in a process of decline and disintegration. The emergence of a vacuum can be a source of great danger.

Two unilingual States—Maharashtra with Bombay city and Gujarat—should be created in the place of the present bilingual Bombay.

On Kashmir, the policy should be one of firmness combined with friendliness toward Pakistan. Kashmir being an integral part of India there is no question of a plebiscite. On the canal waters, the World Bank award is accepted. But there is a time-limit for Pakistan acceptance, beyond which India cannot postpone her development programme. On all the questions like border firing, minorities, human rights must be fully protected.

THE REPUBLICAN PARTY OF INDIA

(Gandhi Road, Chanda, Vidarbha.)

President, R. B. N. Shivaraj, M.P.

Vice-President, H. D. Avde, M.L.C.

General Secretary, B. D. Khoharazade, M.P.

The Constitution of the Party is still under consideration. Hence, until the Constitution is adopted by the provisional General Council, it is not possible to state the exact aims and objects of the Party. However, in general the aims and objects can be stated as—

To establish by democratic and peaceful means a casteless, classless society, free from any

sort of economic, political or social exploitation, and based on the principles of justice, liberty, equality and fraternity.

To organise the down-trodden masses of India viz. The Scheduled Castes, Scheduled Tribes, Buddhists and other Backward Classes; to educate and to strive for their well-being, and political, social and economic advancement.

To engage in organising the peasantry, the landless labourers, the workers in factories and other wage earners.

The party recently started a month-long enrolment campaign. The enrolment would be completed in July.

Strength in Lok Sabha : 9.

Strength in Rajya Sabha : 1.

Total strength in State Legislatures : 12.

Total no. of votes polled for the Lok Sabha during the general elections of 1957 : 25,00,000.

Total for State Assemblies : 18,08,742.

REVOLUTIONARY SOCIALIST PARTY

(780, Ballimaran, Delhi 6.)

General Secretary, Tridib Kumar Chandhuri, M.P.

Secretaries, N. Shreekanan Nair, Sushil Bhattacharya, Pratul Chaudhuri.

Aims and Objects : To abolish exploitation of man by man, of class by class and to abolish all classes and establish a socialist organization on

the basis of the dictatorship of the proletariat. The immediate political objective is the establishment of a union of Socialist Republics in India.

The party is a Marxist Leninist Party and relies on mass and class action. It is organized on the principle of democratic centralism.

Members in the Lok Sabha : One.

Total number of members in the State Assemblies : four.

Total membership of party : 23,193.

The party has branches in Assam, West Bengal, Bihar, Uttar Pradesh, Delhi, Rajasthan, Bombay, Madras and Kerala.

SAMYUKTA MAHARASHTRA SAMITI

(54, Budhwar Peth, Kaka Kuwa Mansion, Laxmi Road, Poona-2.)

General Secretary : S. M. Joshi.

Joint Secretaries : Shivaji Patil, Mrs. Kamal Bhagwat, Hari Bhaskar Bhile.

Chairman of the Parliamentary Board : S. A. Dange.

Treasurers : R. K. Khadilkar, Datta Deshmukh.

AIMS AND OBJECTS :

To establish a unilingual State of all contiguous Marathi speaking areas as a constituent of the Indian Union on the basis of the principle of the linguistic reorganisation of States.

To establish a democratic and Socialist Maharashtra in a Socialist India and to implement the programme sponsored by the Samiti.

To reorganise the economic, cultural and social life of Maharashtra on the co-operative basis.

NUMBER OF REPRESENTATIVES OF THE SAMITI IN :

Rajya Sabha	3
Lok Sabha	24
Vidhan Sabha	190
Vidhan Parishad	21

TOTAL NUMBER OF VOTES SECURED BY THE SAMITI IN THE GENERAL ELECTIONS (1957) FOR :

Lok Sabha	50,65,078
				(more than 50 %)
Vidhan Sabha	53,23,158

The Samiti has secured an absolute majority in the Municipal Corporations of Bombay, Poona and in the municipalities of Kolhapur, Malegaon and Thana.

Five Members from Belgaum and Marathawada are elected to the Mysore Assembly on the Samiti ticket.

Two members from Burhanpur are elected to the Madhya Pradesh State Assembly on the Samiti ticket.

THE SIKHS

Broadly speaking there are three groups among the Sikhs. One group forming the main body of the Shiromani Akali Dal is led by Master Tara Singh who is also its President. It is in favour of maintaining the separate identity of the Sikh community.

The Akali president, Master Tara Singh is also president of the Shiromani Gurdwara Prabandhak Committee.

At a meeting in Amritsar on 24th Nov. 1956, the Akali Dal adopted by an overwhelming majority four amendments to its constitution by which members were enabled to join the Congress and exclude politics from the Dal's domain.

On account of the general settlement there is now no difference between the Akali Sikhs and the Congress Sikhs.

In between these two is the Chief Khalsa Diwan with Sardar Mangal Singh Mann as President. It is older than either of the two mentioned above, and was started by the late Sardar Sunder Singh Majithia.

Outside the Punjab there is a U. P. Sikh Prathidhi Board with its headquarters in Luck-

now. The President of this body is Dr. Tarlok Singh.

The Sikh point of view as such is underlined by two memoranda. The first is a four-page memorandum presented by Sikh members of the Minorities Advisory Committee of the now defunct Constituent Assembly to the sub-committee which was specifically set up to consider the Sikh case.

This memorandum can be regarded as the most authoritative statement of the demands made by the Sikhs from time to time since independence. (Quoted in earlier editions).

About the same time as Sikh members of the Constituent Assembly handed in their memorandum four Sikh scholars issued a lengthy statement discussing the question of what the Sikhs really wanted.

Among the most urgently-needed relief were the following. 1. The question of the Gurdwaras left behind in Pakistan should be taken up by the Government of India with the Pakistan Government. The Nankana Sahib Gurdwara should be created a free city like the Vatican. The other Gurdwaras in Pakistan should be admin-

istered by the Nankana Sahib authorities. An equivalent of the land attached to the Nankana Sahib and other Sikh shrines in Pakistan should be allotted to the S.G.P.C. in the Punjab thus giving the Sikhs an opportunity to re-establish their educational and social life; 2. As the worst sufferers among land-holders they should be given a generous share in the new colony areas in Hissar and Karnal Districts to make up for their losses in the colony areas of Pakistan; 3. All Sikh refugees no matter where they come from West Punjab, N.W.F.P., Bahawalpur or Sind should be accommodated in the Punjab. This will provide a homeland for Sikhs in India; 4. In their rehabilitation policy Government should make no distinction between landlords and tenants.

The Akalis and Sikhs in general have accepted the new Punjab of the States Reorganization Act (Pre-reorganization Punjab and PEPSU) and the regional formula with a zonal council for the Hindi and Punjabi speaking areas. The Sikhs are in a majority in the Punjabi-speaking zone, where the court language is Punjabi in the Gurmukhi script. It is estimated that the Sikhs form about 57 per cent of the population of the Punjabi zone.

SOCIALIST PARTY

(Central Office : 3-6-19 Himayatnagar, Hyderabad.)

Chairman : Madhu Limaye.

General Secretary : G. Murahari.

National Committee :

Shamshi Minal, Tika Ram, Natha Rawat, Khalilur Rahman, Raj Narain, Bhupendra Narain Mandal, Ram Lakhan Chandapuri, Sadashiv Bagaitkar, Baleshwar Daval, Chotela Bhardwaj, Jyotish Joardar, Duesh Das Gupta, B. Ratna Sahbapati Shambha Murti, R. M. Manakalathi, Doral Babu, Golap Barbor, Ram Kishan and Ram Peyare Sharina and Mrs. Minal Gore and Miss Saraswati.

AIMS AND OBJECTS

National : To establish a socialist society through a democratic and peaceful revolution.

International : To end inequality among the nations and establish a World Parliament and a socialist world.

The Socialist Party's planning will be directed towards raising living standards as a whole simultaneously and not sector by sector as attempted by the Congress Government.

It accepts large-scale industry wherever necessary and power driven small industry wherever possible.

The Socialist Party will take measures to narrow down existing differences of incomes aiming at a ratio of 1 : 10.

Will democratise the constitution as well as the administration in the directions both of decentralisation and people's control.

As a first step towards a four pillar State, police powers will be transferred to District and village control, and district and village councils will acquire a quarter share in all revenues and expenditures for the republic.

The police will not be allowed to open fire on the people except in the event of armed insurrection or killing by the crowd.

Believes that people's right to civil disobedience must be recognised as much as

Government's right to arrest and imprison under due processes of law.

All Government employees except the army and armed police will have unfettered political rights.

Justice must be made cheaper and of quicker despatch.

Private ownership of land about 3 times the size of the minimum holding, that is a holding which a family of five can cultivate without employing hired labour or heavy mechanisation, will be permitted. All lands in excess of these will be distributed among poor peasants and landless labourers. Common lands which have been usurped by private individuals will be returned to the village. Land tax on profitless agriculture and uneconomic holdings will be abolished.

More land will be brought under cultivation with the help of a food army.

Agricultural labourers will have a guaranteed fair wage. Ejectments will be banned.

Will nationalise all main industries like iron and steel, engineering, sugar, textiles, cement, mines, electric power and chemicals. All foreign capital invested in the country will be nationalised.

Rejects the concept of property compensation, and accepts instead the concept of rehabilitation compensation.

In the nationalised sector workers will have adequate and effective representation in the State Corporations. In the private sector too representation will be provided in the management, but this would not in any way affect the right to strike or other rights inherent in collective bargaining.

Will fight for a "Fair day's wage for a fair day's work".

Will meet the challenge of unemployment adequately, and until then the Party will agitate for payment of reasonable unemployment relief to the unemployed.

Believes that education upto middle standard should be free and compulsory, and is opposed to the continuance of expensive educational

institutions like the ones at Dehra Dun, Lucknow, Delhi, Ooty and other places.

Will bring all primary schools under the control of municipalities and district boards.

English must be eliminated forthwith from all Government and public use.

The medical profession will be progressively socialised and the Socialist Government will provide for free medical treatment to large sections of the population.

Will prohibit the plying of rickshaws.

Women will be given equal status with men in all matters, political, social and economic.

In the rural areas water pumps will be fitted to wells so that women who draw water save time.

Is committed to the principle of the equal irrelevance of capitalism and communism for promoting a new human civilisation. It wishes to build a third camp that keeps away from the Atlantic and Soviet systems and does not prefer the one to the other and would strive to create a civilisation of free men in an equal world.

Aims at India's dissociation from the Commonwealth.

Is certain that no solution to the problems of Goa, Pakistan and Indians overseas is possible without a change of the present Government.

Will enact legislation providing the right of recall.

The Socialist legislator or successful candidate pledges to wipe out illiteracy in his constituency under a phased 10 year programme.

He will equip his constituency with regularly functioning manure pits and Wardha latrines.

He will organise minor earth-works, particularly for irrigation, wherever possible and they will also help set up small-unit industry preferably run on power.

Socialist legislators will also make themselves responsible for such fulfilment of the above plans as is possible through agitation within and outside the Legislatures. If their efforts do not succeed, they will undertake civil disobedience.

SOME WOMEN'S ASSOCIATIONS

ALL-INDIA WOMEN'S CONFERENCE

Address : 6, Bhagwandas Road, New Delhi.

Office bearers (1958-59) :

President : Smt. Lakshmi N. Menon.

Vice-Presidents : Smt. Lalita Sachar, Smt. Vijayaraje Scindia, Smt. Avabai Wadia, Smt. B. Tarabai, Smt. Jayashri Rajji, Smt. Indirabai Deodhar.

Hon. Gen. Secretary : Smt. Mithan J. Lam (C/o F.P.A.I., I. Metropolitan House, Dr. D. Naorji Road, Fort, Bombay).

LATE PARTICULARS

Under this we publish articles and give notes on items which could not be included in the body of the text.

AWARDS AND PRIZES

Awards are now given by the President every year to persons who have attained distinction in art, science or literature and to those who have rendered meritorious service to the country.

These awards are Bharat Ratna, Padma Vibhushan, Padma Bhushan and Padma Shri.

They were instituted through an announcement in the Gazette of India of January 15, 1955.

The awards for the year are announced on Republic Day (26th January).

Bharat Ratna: This Award is made for exceptional work for the advancement of art, literature or science and in recognition of public service of the highest order.

The decoration takes the form of a peepal leaf, 2 5/16 inches long, 1 1/4 inches wide and 1/4 of an inch thick. It is of toned bronze. On its obverse is embossed a replica of the sun, below which the words "Bharat Ratna" are embossed in Hindi. On the reverse are the State emblem and the motto, also in Hindi. The emblem, the sun and the rim are of platinum.

Padma Vibhushan: This Award is made for exceptional and distinguished service in any field, including service rendered by Government servants.

The decoration is circular in design, with a geometrical pattern superimposed on the circle. The diameter of the circular portion is 1 1/2 inches and the thickness 1/4 of an inch. On the obverse, there is a lotus flower embossed on the circular space. The word 'Padma' is embossed in Hindi above and the word 'Vibhushan' below the lotus flower. On the reverse are the State emblem and the motto in Hindi. It is of toned bronze. The rim, the edges and all embossing on either side are of white gold, except the name of the decoration, which is of gilt silver.

Padma Bhushan: This Award is made for distinguished service of a high order in any field, including service rendered by Government servants.

It has the same design as the Padma Vibhushan with the difference that on the obverse the word 'Padma' appears above the word 'Bhushan' below the lotus flower. Further, the rim, the edges and all embossing on either side are of standard gold except the name of the decoration which is of gilt gold.

Padma Shri: This is awarded for distinguished service in any field including service rendered by Government servants.

The name of the decoration is embossed in Hindi with the word 'Padma' above the word 'Shri' below the lotus flower on the obverse. The rim, the edges and the embossing on either side are of stainless steel, except the make of the decoration, which is of gilt silver, other details of the design being the same as those of the Padma Vibhushan.

Including the 1958 awards, the number of persons who have received Bharat Ratna is 8, Padma Vibhushan 14, Padma Bhushan 79 and Padma Shri 71.

The eight persons who have received Bharat Ratna are: Mr. Jawaharlal Nehru (1954), Mr. C. Subramaniam (1954), Dr. S. Radhakrishnan (1954), Dr. C. V. Raman (1954), Dr. Bhagwan Das (1954), Mr. M. Viswesvaraya (1955),

Pandit Govind Ballabh Pant (1957) and Dr. D. K. Karve (1958).

LITERATURE

The Sahitya Akademi Awards for 1957 for outstanding books published in the Indian languages during the years 1954 to 1956 were won by:

1. *Sagar Thike Phera* (poems, Bengali) by Premendra Mitra.
2. *Buddha-Dharma-Darshan* (philosophy of Buddhism, Hindi) by Acharya Narendradeva.
3. *Chemmeen* (novel, Malayalam) by Thakasi Sivasaikara Pillai.
4. *Sri Ramakrishna Jinita Charitra* (life of Ramakrishna Paramahansa, Telugu) by Chintananda Swami.
5. *Mir Teqi Mir* (critical study of the Urdu poet Mir, Urdu) by Dr. Khwaja Ahmed Faruqi.

The awards were given in the form of a cheque for Rs. 5,000 and an attractive copper tablet in which the name of the author, the name of the book and the year of the award are inscribed. The signatures of the Akademi's President, Mr. Jawaharlal Nehru, are also inscribed on the tablet.

Books are eligible for prizes in 16 languages, viz., the fourteen major languages enumerated in the Constitution of India and Sindhi and English (as written by Indian authors).

There are two Prizes for Sanskrit, one for creative writing in Sanskrit, the other for scholarly research or exposition relating to Sanskrit, written in any language. To be eligible for award a book must have been originally published during the three years preceding the year in which the Award is announced.

Hindi

The Ministry of Education awarded in March 1955 a prize of Rs 2,000 each to the following seven books of outstanding merit in Hindi published between January 1, 1955 and December 31, 1955

In the category of the best translations into Hindi from other languages, two prizes of the value of Rs 2,000 each for poetry and fiction were awarded to *Geet Govind* by Mr Vinay Mohan Sharma of Nagpur University and *Adi Fudroh* by Mr Anurit Rai of Allahabad.

Geet Govind is a lyrical poem in Sanskrit of Jayadev, which has been rendered into Hindi verse

Adi Fudroh is a translation of the English novel *Spartacus* by the American writer Howard Fast

Under the category of best books in Hindi devoted specially to promoting inter class inter-communal and inter State understanding and appreciation of the fundamental ideals of the common Indian culture, only one prize was given to the book *Bharatya Krishi Ka K Ka* by Mr Jay Chandra Vidya sankar of New Delhi. It is an original book written in Hindi on Indian culture

In the category of original works in Hindi, four prizes of Rs 2,000 each were awarded to books in poetry, drama, fiction and to a novel by an author whose mother tongue is not Hindi.

In this category, the prize for poetry was awarded to *Parvati* by Mr Ramanand Tiwari of Maharastra College, Jaipur. It is an original book of poems in Hindi. It deals with the story of Shiva and Parvati on the pattern of Kali Dasa's *Kumar Sambhava*

In the category of drama, the prize was awarded to *Ram Jai* by Dr Ram Kumar Varma of Allahabad University. It is a collection of one-act plays written in Hindi.

For fiction, the prize was awarded to *Jehaj Ka Paschala* by Shri Ila Chandra Joshi, Producer, All-India Radio. It is considered as one of the outstanding novels published in Hindi in recent years.

The prize for the best original work in Hindi by an author whose mother tongue is not Hindi was awarded to *Bari Bari Anahar* by Shri Upendra Nath 'Ashk' of Allahabad

It is an original novel.

Under the third competition, 16 prizes of Rs. 2,000 each were announced to be awarded for different categories

Two hundred and forty-nine books were received under the Scheme, which was initiated in 1952. The object of the scheme is primarily to encourage the development of Hindi language and literature

This competition was the third held since 1952. The number of books for which awards were given till 1955 numbered 31

MUSIC, DANCE, DRAMA

The Sangeet Natak Akademi Awards are given below. The winners are selected by the General Council of the Akademi

The Award consists of a scroll signed by the President, a bracelet of gold chain and a shawl or angustream bordered with gold lace.

In 1957 the Akademi also decided to give awards for the best plays and the best production of plays. For the present only two languages are eligible—Hindi and Tamil. Other languages would be chosen for future awards

The plays for the award, under the Akademi's rules, were those which were published not later than January, 1957, and not before January 1 1956

The award for the best play was to be a cash prize of Rs 2,500, a gold "Shrinkal" (bracelet) and a shawl to the author of the play

In the case of the best production, a prize of Rs 2,500 was to be given to the "best adjudged production." The winning group was also to be paid Rs 2,500 for production expenses.

The plays and scripts had to be original

BHOODAN

The position of the Bhoodan Yagna Movement upto 31st December 1957 is shown in the table below.

According to a resolution of the Sangh the main emphasis should be shifted from Bhoodan to Gramdan. Therefore no elaborate recording of the number of land donors, of families receiving Bhoodan lands, Sampattidan donors or Jeevan dan is now made.

The headquarters of the movement are at Akhil Bharat Sarva Seva Sangh, Shram-Bharti, P.O. Khadigram, via Jamui, Dist. Monghyr, Bihar.

STATE	Land Collection (in acres)	Land Distribution (in acres)	No. of Gramdan
Assam	23,196	225	77
Andhra	2,41,950	83,090	312
Uttar	3,84,589	1,11,361	1,933
Uttar Pradesh	5,87,615	77,674	36
Kerala	29,021	2,126	450

SOME CORPORATIONS

THE INDUSTRIAL CREDIT & INVESTMENT CORPORATION OF INDIA LTD.

(Union Bank Building, Apollo Street, Fort, Bombay 1.)

The Corporation was established in 1955 with the object of assisting industrial enterprises in the private sector by providing finance in the form of long or medium-term loans or equity participations, sponsoring and underwriting new issues of shares and securities, guaranteeing loans from other private investment sources, furnishing managerial, technical and administrative advice and assisting in obtaining managerial, technical and administrative services to Indian industry.

The Authorized Capital of the Corporation is Rs. 25 crores and Paid-up Capital Rs. 5 crores in five lakhs Ordinary Shares of Rs. 100 each. Of this, Rs. 2 crores are taken up by Indian institutional investors, Directors and their friends and associates, and Rs. 1.5 crores by the Indian public, British and American subscriptions to the Share Capital amount to Rs. 1 crore and Rs. 50 lakhs respectively.

The Government of India have advanced to the Corporation a loan of Rs. 7.5 crores, free of interest, repayable in 15 equal instalments, commencing after the expiry of 15 years from the date of the advance. The World Bank has placed at the disposal of the Corporation a loan of 25 million dollars in foreign currencies.

The 1957 Annual Report for the year ending December 1957, discloses that the Corporation has received financial assistance of Rs. 944 lakhs in one form or another and loans in foreign currency of Rs. 25 million.

No. of Operations	Amount sanctioned (In Rs. lakhs)
9 Loans in Rupees	323
5 Loans in Foreign Currency (Rupee equivalent)	221
16 Underwriting of Ordinary and Preference Shares and Debentures	535
11 Direct Subscriptions to Ordinary and Preference Shares	86
	1,165

The accounts for the close of the year 1957 disclose a Net Profit of Rs. 23.07 lakhs, which together with the amount of Rs. 3.48 lakhs brought forward from the previous year, (after adjustment for additional taxation for 1956) makes a total of Rs. 26.55 lakhs. The Directors have proposed Rs. 5 lakhs for General Reserve and recommended a Dividend of 4 per cent (tax-free) absorbing Rs. 20 lakhs and leaving Rs. 1.55 lakhs to be carried forward.

Directors: Dr. Sir Arcoot Ramaswami Mudaliar, (Chairman), Ardeshr Darabhaiw Shroff, Ghanashyandas Birla, Kasturba Lalbhai, Sir Biren Mookerjee, Russell G. Smith, Dharamsey Mulraj Khatau, Sir Badridas Goenka, C.I.E., Howard Fredrick Morford, J. D. K. Brown, L. K. Jha, I.C.S. (Government Director), D. G. Moore, (Alternate Director for H. F. Morford), V. M. White (Alternate Director for R. G. Smith).

General Manager: P. S. Beale.

THE INDUSTRIAL FINANCE CORPORATION OF INDIA

(Main Office: Reserve Bank Building, Parliament Street, New Delhi; Bombay Office: Liberty Buildings, 41-42, Marine Lines; Calcutta Office:

P-11, Mission Row Extension; Madras Office: 38, Whites Road, Royapettah).
Authorized Capital: Rs. 10 crores.
Issued and Paid-up Capital: Rs. 5 crores.
Board of Directors: K. R. K. Menon (Chairman), V. P. Varde, S. V. Ramamurti, G. D. Ambekar, S. P. Virmahli, L. S. Vaidyanathan, S. C. Roy, M. C. Muthiah, S. K. Basu, B. Venkatappiah, L. K. Jha, I.C.S., R. M. Deshmukh, M.P., S. Ratnam.

General Manager: H. V. Venkatasubbiah.
Secretary: Dalip Singh.
Profit and loss account for the year ended 30th June, 1957:

Interest, Discount, Commission, etc.: Rs. 96,33,358.37.
Total expenses: Rs. 53,27,080.40.
Reserve for Doubtful Debts: Rs. 22,24,977.41.
Net profit: Rs. 12,25,000.00.

The Industrial Finance Corporation was established in 1948 under the Industrial Finance Corporation Act of 1948, with the object of providing medium and long term loans to approved industrial concerns.

Total amount of loans sanctioned by IFC up to end of June 1957 exceeds Rs. 65 crores. Amount sanctioned in 1956-57 was about Rs. 12 crores.

Interest on loans is 7 per cent less rebate of 1 per cent for prompt repayment.

THE NATIONAL INDUSTRIAL DEVELOPMENT CORPORATION LTD.

(Ministry of Commerce & Industry, King Edward Road, New Delhi).

The National Industrial Development Corporation Private Ltd., was incorporated on 20th October 1954 and was registered as a private limited company with an authorised capital

of Rs 1 00 00 000 of which 10 000 shares only of Rs 100 each have been fully subscribed by the Government of India

Chairman Morarji Desai, **Vice-Chairman** Manubhai M Shah

The Directors of the Corporation include both Government officials and non-officials and are nominated by the Government of India

Managing Director, Dr A Nagaraja Rao, **Secretary** S Gopalan

The Corporation plans and formulates projects for the setting up of new industries or developing new lines of production. It also acts as the agency of Government for the grant of special loans for the modernisation and rehabilitation of the Jute Industry and the Cotton Textile Industry

It also approved of loans amounting to Rs 1 67 lakhs for the Cotton Textile Industry and Rs 1,92 lakhs for the Jute Industry

THE NATIONAL SMALL INDUSTRIES CORPORATION (PRIVATE) LTD.

(Rani Jhansi Road, P.O. Box No 349, New Delhi)

A Government of India concern, started in February 1955

Authorised capital Rs 50 lakhs

Paid-up Rs 40 lakhs. All shares are held by the Government of India

Number of applications received upto 28th Feb 1958 for machinery on Hire Purchase involved 3,964 machines costing Rs 3 20,75,584

Chairman Syed Ashfaq Husain

Directors Ghanshyamlal (Oza) M P G L Banasi (Secretary-General Federation of Indian Chambers of Commerce and Industry), Santokh Singh (Proprietor, National Chemical Industries New Delhi), Mrs Pupal Javakar (All India Handloom Board, New Delhi), Dr P C Alexander, I.A.S. (Dy Secy to the Govt of India, Ministry of Commerce & Industry New Delhi), B G Mundkur (Dy Secy to Govt of India, Ministry of Finance, New Delhi), B D Kumar (Director of Co-ordination & Statistics, D G S & D, New Delhi), A S E Iyer (Managing Director, National Small Industries Corporation (Private) Ltd., New Delhi)

Managing Director, A S E Iyer, **Manager**, Government Purchase Division, P C Basu,

Manager, Projects, Sagar Chandra, **Additional Manager, Hire Purchase Division**, S J Rego, **Manager, Marketing Division**, Baldev Singh, **Manager, Industrial Estate Division**, V Nehra

Until Feb 28, 1958, about Rs 33 85 lakhs were received as earnest money from small industrial units wanting to take advantage of the scheme. This amount was in respect of 1 979 machines out of which orders had been placed for 1 748 valued at over Rs 1 74 crores. Nearly 882 machines valued at Rs 70 25 lakhs, have been delivered under the scheme to small-scale industries

Value of D G S & D contracts received by small scale units with the assistance of the Corporation amounted to Rs 44,48 910

The Corporation is marketing the following small industry products under its JANSEVAK trade mark —

Leather footwear, paints, cottons and woollens, hosiery, pottery, glass beads, sewing machines etc.

Wholesale Depots have been opened for most of them

The first phase of construction of Industrial Estates at Okhla (near Delhi) containing 35 factories and Naini (near Allahabad) containing 34 factories has been completed by the Corporation

THE STATE TRADING CORPORATION OF INDIA LTD.

(New Delhi)

Incorporated on the 1st May 1956

The authorised capital is Rs one crore

1,00,000 equity shares of Rs 100 each

The President of India holds all the shares excepting two held by the Managing Director and the Chairman in their official capacity

The objects of the Corporation are to export from and import into India and to deal in such goods and commodities as its Board of Directors may from time to time determine

The total value of the business contracted for exports and imports is Rs 14 51 crores and 6 99 crores respectively for the period 1 7 1967 to 31-12 1957

Export business was done in the following commodities: shoes, coffee, opium, sandalwood, oil, handloom fabrics, handicrafts, jute bags, coir products, sugar, raw wool, cotton waste, gray dull cotton yarn, salt, iron ore, manganese ore, chrome ore

The countries with which the export business was done were U S S R, Czechoslovakia, U A, Japan, E Germany, W Germany, Italy,

Hungary, U K, France, Belgium, Holland, China, Switzerland, Indonesia, Viet Nam, Rumania, Poland

Items in which business of more than a crore were transacted were iron ore (Rs 4 6 crore) and manganese ore (Rs 7 84 crores)

Countries with which business of more than a crore was transacted were Czechoslovak (Rs 2 56 crores), U S A, (Rs 4 4 crores) U K (Rs 2 14 crores)

Import business was done in the following commodities: ammonium sulphate, cement, raw silk, skimmed milk, rice, caustic soda, soya, printing machinery, tractor, earth moving machinery, zinc, aluminium, textile machinery, B T insulators, scientific instruments, machine tools, various items of machinery, raw films

The countries with which the import business was done were Japan, U A, Viet Nam, China, U S R, G D R, Rumania, Czechoslovakia

Items in which business of more than a crore was transacted were ammonium sulphate (Rs 1 01 crores), textile machinery (Rs 1 3 crores)

Countries with which business of more than one crore was transacted were U S S R (Rs 2 31 crores), G D R (Rs 1 84 crores)

Regional offices of the Corporation have been opened at Calcutta, Bombay and Madras and sub-offices at Kakinada, Masulipatnam, Vishakhapatnam, Kandla, Bhavnagar (1) and Nagpur

Board of Directors K B Lal I C S (Chairman), D Sandilya (Managing Director), Satish Chandra I C S, N Subrahmanyam, I C S, V N Rajan, I C S, Nagendra Singh, I C S, H I Singh, I C S, Ghel, I R A S, Harbans Singh I C S

Financial Adviser & Chief Accounts Officer N Kaul

General Manager (Ops) B K Kothar

Divisional Manager (Cement) A N Puri

Divisional Manager (B & T) I K K Nair

Divisional Manager (B & T) II A G B Mullik

Divisional Manager (D & S) A N Sen

Chief of R & S Div R C Dube

Director Movement C D Chatterji

Addl Divisional Manager A Nanu

Regional Managers

Regional Manager, Madras E C Bankar

Regional Manager, Bombay R N Samarth

Regional Manager, Calcutta B C Mallik

COMMUNITY DEVELOPMENT PROGRAMME

In all at the second year of the Plan this programme served 276 000 villages with a population of 150 millions. The total expenditure incurred during the period was about Rs 53 crores. In 1954-57, 495 blocks and in 1957-58, 507 blocks were brought under the national extension scheme. During these two years 440 blocks were converted from E S S into community development blocks

The plan for 1958-59 has allotted Rs. 96 crores for the programme.

According to present arrangement the entire country would be covered not by the end of the second plan but during the period of the third plan—in 1965. At the end of the Second of the plan there will remain 1,075 development blocks to be taken up.

There will be no distinction between national and Community projects. Instead every project will pass through two stages of five years each,

the outlay on the first stage being Rs 12 lakhs and on the second Rs 8 lakhs.

External assistance 14 27 million dollars for import of equipment from the Indo-American Technical Co-operation Fund (Fund 'A') for the period 1952-53 to 1957-58

Up to Dec 1957 equipment worth 11 50 million dollars received

The Ford Foundation has helped in the training of workers and the setting up of pilot projects

Achievements (upto June 30, 1957):

Agriculture: Chemical fertilisers distributed, 20,718,000 mds.; demonstrations held, 3,500,000; improved seeds distributed, 10,000,000 mds.; area brought under fruit and vegetable cultivation, 1,028,000 acres; key village centres started, 5,328; pedigree animals supplied, 25,000; pedigree birds supplied, 80,000; area reseeded, 3,328,000 acres; additional area brought under irrigation, 2,207,000 acres.

Health and Sanitation: Primary health centres set up, 2,559; maternity and child welfare centres, 1,230; rural latrines built, 230,000; new wells, 53,000; wells reconditioned, 119,000; drains, 121 lakh yards in length.

Education: New schools, 25,000; Schools converted into Basic, 10,325; adult education centres started, 70,000; adults made literate, 1,879,000

Community Organisations: Community centres, 180,000; other organisations developed, 169,000; Co-operative societies, 80,000; new members these societies, 2,112,000.

Roads: New pucca roads, 9,140 miles; new kachcha roads, 50,000 miles; existing roads improved, 52,000 miles.

Art and Crafts: Production-co-ops, 19,000; Centres, 2,378.

People's Contribution: Upto Sept 1956, each day about Rs. 45-6 crores are against Govt. expenditure of Rs. 75-8 crores (or little over 60 per cent).

EVENTS OF THE YEAR (1st June 1957—31st May 1958)

June 2: Reports come in of the occurrence of Asiatic 'flu in epidemic form in different parts of the country specially in the south.

Train accident on the harbour branch of the Bombay Suburban section of the Central Railway between Wadala and Newri—the worst in the city's history—18 killed and 66 injured.

June 13: Mr. Nehru leaves on a four-week foreign tour. He is to attend the Commonwealth Prime Ministers' Conference in London in the last week of June.

In the course of his tour he will visit Syria, Egypt, The Sudan, Norway, Sweden, Denmark, Finland and the Netherlands.

Aug. 3: Death of Mr. Devadas Gandhi.

Aug. 15: Independence Day.

Aug. 16: Centenary of the 1957 uprising against the British.

Sept. 2: Kerala State Education Bill passed.

Sept. 16: Widespread communal clashes between Thevars and Harijans in Madurai and Ramnad Districts in Madras State.

Sept. 27: Maitihon Dam on the D.V.C. opened by the Prime Minister.

Oct. 3: Mr. Nehru leaves on a tour of Japan Nov. 24: Calcutta Mail via Nagpur derailed at Igatpuri.

Nov 30: Mr. Nehru unveils the statue of Shivalaji at Pratapgarh Fort.

Dec. 1: Naga Administrative Unit comes into being.

Dec. 6: Agreement is reached between the Union Government and the Burnmah Oil Company on the formation of a Rupee Company for the exploitation of oil reserves.

Jan. 1: Accident to the Delhi-Pathankot Janata Express at Mohri six miles from Ambala on the Northern Railway: 30 persons killed and over 100 injured.

Jan. 3: In a communication to the Centre the Madras Government says that the deadline of 1965 for the change in the official language from English to Hindi has to be put off.

Jan. 6: Dr. Sukarno arrives in Calcutta.

The Indian Science Congress meets in Madras; violent demonstrations against Mr. Nehru on his arrival to address the Science Congress.

Jan. 8: The Prime Minister of the U.K., Mr. Harold Macmillan arrives in New Delhi on a four-day visit.

Sheikh Mohammad Abdullah, former Prime Minister of Kashmir released from detention.

Jan. 12: Dr. Frank Graham, U.N. Representative for India and Pakistan, arrives in New Delhi for fresh talks with the two Governments.

The Standing Committee of the National Development Council meets.

Jan. 13: Sheikh Abdullah asks in a speech in Srinagar for the termination of Kashmir's constitutional relationship with India and a plebiscite to decide the future of the State.

Jan 15: A new railway zone, the North-East Frontier Railway comes into being with headquarters in Pandu, Assam.

March 19: The Constitution Bench of the Supreme Court upholds the validity of the Working Journalists' Act except for one provision but sets aside the decisions of the Wage Board constituted under the Act.

An all-India convention of Muslim legislators presided over by the Nawab of Chhattari declares its complete agreement with the Government of India's Kashmir policy.

April 3: The report of Dr. Frank Graham, the U.N. Representative for Kashmir is published. The five proposals that he made were submitted to the Governments of India and Pakistan on Feb. 15, 1958.

Mr. Shantaram S. Mirajkar is elected first Communist Mayor of Bombay.

The Government of India announces the abolition of restrictions on travel to and from Goa and other Portuguese Possessions.

April 4: The Prime Minister announces rejection of the Graham proposals about Kashmir at a press conference.

April 5: The special Congress of the Communist Party in Amritsar announces radical changes in fundamental policy: recognition of multi-party system and change through peaceful means.

April 18: Country celebrates birth centenary of Dr. D. K. Karve, social reformer and pioneer in the education of women.

April 28: A Deputy Minister of Orissa, one M.P. from Orissa and two members of the Orissa Assembly arrested in Bhubaneswar on a charge of wrongfully confining and abducting Congress legislators.

April 29: Mr. Nehru tells the Parliamentary Congress Party in New Delhi that he desires to lay down his office as Prime Minister but the final decision will rest with the Party.

Sixty-four trainees of a Lok Saliyak Sena camp at Sasthamkottah, Quilon District, Kerala die of food poisoning.

April 30: Sheikh Abdullah is taken into custody under the Preventive Detention Act and sent to Kud sub-jail on the ground that his activities were prejudicial to public peace and security.

May 3: Mr. Nehru announces at a meeting of the Congress Parliamentary Party that he has decided not to retire from his post of Prime Minister.

May 4: The National Development Council votes to split the Second Plan of Rs. 4,800 crores into two parts—first part with an outlay of Rs. 4,500 crores justified by assessment of resources, and second part consisting of schemes costing Rs. 300 crores to be implemented to the extent that resources are available.

May 7: A new opposition party consisting of the P.-S.F., the United Progressive Group and the Ganatantra Parishad is formed in the Lok Sabha. Acharya Kripalani is leader.

May 8: The Mysore Cabinet headed by Mr. Nijalingappa resigns. The Congress Legisla-

ture party elects Mr. Basappa Danappa Jatti as leader.

The Planning Commission Report—a re-assessment of the Second Plan—suggests a scaling down of the Second Plan outlay from Rs. 4,800 crores to Rs. 4,500 crores.

May 9: The Orissa Cabinet headed by Dr. Harekrishna Mahatab resigns.

May 12: One-day token strike at the Tata steel works in Jamshedpur of workers belonging to the Jamshedpur Mazdoor Union. The strike was previously declared illegal by the Bihar Government.

May 15: A Karachi-bound Pakistan International Airways Convair crashes near Palam airport; 21 out of 38 on board are killed.

A sit-down and stay-in-strike starts at the Tata Iron and Steel Works in Jamshedpur consequent on the service of suspension orders and charge-sheets on about 40 workers, alleged to be leaders of the one-day token strike of May 12. Only essential services maintain the furnace and the coke oven plant.

May 16: Mr. Basappa Danappa Jatti is sworn in as Chief Minister of Mysore.

May 18: It is announced that two members of the Indian expedition to the 26,867-foot-high Cho Oyu reached the peak on May 15.

May 19: The Communist Government of Kerala retains the crucial Devikulom seat in the Assembly.

The Chief Minister of the Punjab, Mr. Partap Singh Kairon is exonerated by the Congress Parliamentary Board. There were a number of charges against him made by a dissident group in the Punjab Congress.

May 20: Disturbances in Jamshedpur consequent on strike. Police open fire on workers. Military stands by.

May 21: The Kirti Express on the Western Railway is derailed near Chamaraj Station about 70 miles from Rajkot in Saurashtra. Twenty-seven passengers are killed in the accident and 60 injured, 26 of them seriously.

India strongly protests to Pakistan Government about police firing on Assam border places from East Pakistan.

The British technical mission favours Ernakulam in Kerala as the site of the second ship-building yard.

Police fire twice in Jamshedpur to disperse violent crowds of striking workers. A twenty-four hour curfew is imposed on the city from midnight of 20-21 May.

May 22: The Supreme Court gives its opinion on the validity of certain articles in the Kerala Education Bill which were referred to it by the Government of India.

The Sakchi market in Jamshedpur is burnt down.

The curfew in the town now extends from 10 p.m. to 4 a.m.

The Life Insurance Corporation of India enquiry under Mr. Justice Vivian Bose begins.

May 23: Government of India's negotiations with oil companies end in agreement to reduce oil prices and devise new formula for determining oil prices. There will be an *ad hoc* reduction in the price of about 10 per cent of C.I.F. prices. This takes effect on May 20.

An Indo-Soviet air agreement for a direct air service between India and the Soviet Union is arrived at.

May 24: Situation in Jamshedpur town is normal.

Dr. Harekrishna Mahatab withdraws the resignation of his Ministry.

May 25: The annual National Conference of the Praja-Socialist Party opens in Poona.

May 29: It is reported that India has asked the U.S.A. for a loan of a million tons of steel.

The Jamshedpur Mazdoor Union officially withdraws the strike in the Tata steel works.

May 31: Pakistan decides to accept the proposals made by the World Bank in 1954 with regard to the canal waters dispute with India.

There are reports of heat waves of unusual intensity and consequent deaths from heat or sunstroke in different parts of the country.

INSURANCE

Note: The latest insurance tables were not able when this book went to press. See 1957-58 Directory for figures for 1958.

Insurance business in India is partly State owned and partly a "free enterprise".

Life insurance business is a State monopoly. The institution known as Life Insurance Corporation of India established by a special act called Life Insurance Corporation Act, 1956 and, owned wholly by the Central Government is the sole body conducting the entire life insurance business in India and in foreign lands.

It has also taken over, as from 1st September 1956, the existing business of all Indian life insurance companies, of all Provident insurance societies, the Indian business of foreign life offices registered in India and the foreign business of Indian life offices.

This Corporation is an autonomous body with an overall supervision and guidance by the Union Finance Ministry as provided for in the Act of 1956. Its affairs are in the hands of a Central Board consisting of fifteen members nominated by the Government, one of whom is a senior officer acting as its whole-time Chairman.

The State also conducts a health insurance scheme restricted at present to industrial workers, through the Employees State Insurance Corporation which again is an autonomous body established in 1948 by an Act called Employees State Insurance Act, 1948 which is administered by the Union Labour Ministry in co-operation with the Health Ministry.

A third enterprise owned by the Central Government is the Export Risks Insurance Corporation (Private) Ltd., registered under the Companies Act, and whose capital is entirely held by the Central Government. This was established late in October 1957. As the name suggests, it underwrites the risks to an exporter in India arising out of the failure to recover his dues in full from his foreign importer—risks both commercial and political which ordinary insurance companies do not and cannot underwrite.

The administration of the Companies Act having been passed from the Finance Ministry to the Commerce Ministry at the Centre, this Corporation works under the supervision of Commerce Ministry. It has its own Board of Directors consisting of seven members all nominated by the Government.

General insurance business such as Fire, Marine, Motor and Miscellaneous is carried on by joint stock companies in the private sector.

Three of these companies are subsidiaries of the Life Insurance Corporation of India, namely, the 'Oriental', in Bombay, the 'National' in Calcutta and the 'Asiatic' in Bangalore.

These three were subsidiaries of life insurance companies previously. On the nationalisation of life insurance business and the establishment of L.I.C. in September 1956, their proprietorship passed to the L.I.C. i.e. to the Government. Consequently, general insurance business in India is conducted both in the private sector and in the public sector.

All the companies carrying on general insurance business including the three subsidiaries of the L.I.C. mentioned above are governed by the Insurance Act, 1938. This Act is administered by the Finance Ministry through its Insurance Department under an officer designated Controller of Insurance.

All insurance companies Indian and foreign registered in India are members of a statutory body, the General Insurance Council. The Council has two committees—the Executive Committee and the Tariff Committee.

The Executive Committee of the General Insurance Council of the Insurance Association of India consists of 16 members eight of whom are elected every three years and the rest nominated by the Central Government, with a senior officer of the Finance Ministry as its Chairman and an officer of the Department of Insurance as its Secretary.

Its main function is to lay down rules and regulations for the proper conduct of general

insurance business and to see that members strictly observe these rules and the provisions of the Insurance Act.

The Tariff Committee consists of fourteen members all elected, every three years. Its main function is to control and regulate the rates of premiums, terms and conditions and advantages that may be offered by members in respect of general insurance business.

Exemption from the control of the Tariff Committee has been granted to a few member companies in India. These are known as Non-Tariff companies who are free to regulate their own rates of premium. There are at present only 8 such offices in India, conducting fire and motor-car insurances. Since business conditions vary in the different markets of India, the Tariff Committee is helped in its work by 4 Regional Committees, one each at Bombay, Madras, Calcutta and Delhi.

LIFE INSURANCE

The Life Insurance Corporation of India has been the only body doing life insurance business in India since September 1956.

For administrative purposes the country is divided into five zones, each zone having several divisional offices in it and each divisional office having several branches and sub-offices.

There are 33 Divisional, 190 Branch and 49 sub-branch offices.

The year 1957 was the first full working year of the Corporation.

The Corporation has completed a paid-for new business of over Rs. 276 crores assured during 1957 in India and a little less than Rs. 10 crores in foreign lands mainly in Malaya and British East Africa. Lapse ratio which used to be very heavy in pre-nationalisation days is, it is reported, showing a downward trend.

During 1957 new business accomplished was as follows (Rs. in crores):

Western zone : 64.69; Eastern Zone : 68.06; Southern Zone : 74.13; Northern Zone : 33.00; Central Zone : 35.71

Total : 276.49.

On the establishment of the Corporation, all intermediaries between the policy holder and the commission agent concerned, like the chief agent special agent, organiser, inspector etc., who were on commission basis, were removed, retaining only one class of commission agent.

At present the business procurement staff of the Corporation consists of Field Officers who are whole-time workers on salary and of Agents who are whole-time or part-time, working under these Field Officers on commission basis.

The number of field officers and agents respectively was as follows (31st Dec. 1957):

Western Zone : 754; 29,110. Eastern Zone : 2,051; 81,756. Southern Zone : 1,124; 50,919. Northern Zone : 526; 14,485. Central Zone : 766; 28,908.

Total : 5,221; 2,05,078.

Average business by a field officer (in Rs. lakhs): Northern 6.4, Central 4.7, Eastern 3.3, Southern 6.6, Western 8.6... All India 5.3.

Average business by an agent (in Rs. thousands): Northern 23.4, Central 12.4, Eastern 8.3, Southern 14.6, Western 22.2... All India 13.6.

JANATA POLICIES

In pursuance of one of the main objectives of the Corporation, viz., making available the benefits of life insurance to every family in the country, the Corporation introduced a "Janata Life Policy" Scheme, which is to bring life insurance within the reach of the industrial and rural population in the country.

The main features of the Scheme are: (1) the sum assured under a policy can be as low as Rs. 250, (2) Medical examination would not be required in most cases, (3) Requirements of proof of age are greatly simplified, and (4) Premiums payable monthly would be collected from the homes of the policyholders by authorised agents.

It was introduced first in May 1957, as a pilot scheme in important industrial centres like,

Bombay, Ahmedabad, Delhi, Kanpur, Calcutta. Gradually it was extended to other industrial centres in India. The total business secured in the about 7½ months of 1957 was Rs. 65 lakhs. The Scheme is yet to be carried to the rural parts of the country.

The number of policies and the sums assured in Rs. respectively for the period 1st Jan. 1958 to 14th April 1958 were as follows:

Western 1,900; Rs. 14,46,939. Eastern 1,223; Rs. 6,88,940. Southern 383; Rs. 1,76,440. Northern 680; Rs. 5,08,730. Central 762; Rs. 4,78,723... Total 4,948; Rs. 32,93,772.

REINSURANCE

India placed considerable surplus business in foreign reinsurance markets. With the establishment of a purely indigenous reinsurance concern, the India Reinsurance Corporation Ltd. Bombay a joint stock company of which all general insurers registered in India including foreign ones are members—an appreciable chunk of this surplus is retained in India. The Corporation finished its first full year's work in 1957 but has not yet published its annual report. It has recently opened a branch in Calcutta.

Indian general insurance companies have formed a pool for procurement and administration of insurance business secured from Central and State Governments. This pool has been working very satisfactorily for a decade. The profits were divided in agreed proportion among its members.

Since the establishment of the L.I.C. and the passing of three of the general insurance offices into its ownership there has been a change in the policy of the Government. The profits are not divided in the proportion so far in practice. A new formula has been devised. Profits pertaining to 50 per cent of the total business is to be given to the three member companies which are the L.I.C.'s subsidiaries and the other 50 per cent to be shared by the rest of the pool members. Also, with the rapid expansion of the public sector and the establishment of the three giant steel plants Government's insurance needs have rapidly grown. The result is the quantum of premium income and the net share of a private insurer member of the pool has not very much decreased by the new arrangement.

One of the most important functions of the Corporation is to invest its rapidly increasing life funds, judiciously, to earn maximum interest, commensurate with security of the investment funds.

To see to this, the Corporation has an Advisory Committee called the Investment Committee of seven members nominated by the Government.

Some of the investment made about the middle of the year 1957 in buying shares of certain companies in which a business man by name Haridas Mundhra was actively interested came in for very severe criticism in Parliament, as a result of which, a commission to investigate the deals, was formed consisting of one member the Chief Justice of Bombay, Mr. M. C. Chagla.

The Principal Secretary of the Finance Ministry the Government of India, the Chairman of the L.I.C. and the Managing Director in charge of the investments were among those who chiefly figured in the investigation.

One consequence of this was the Finance Minister resigned being the constitutional head of the Finance Ministry. At the time of writing a departmental inquiry is in progress in respect of this transaction.

The Chief Justice recommended that "the Government" should not interfere with the work of the autonomous statutory corporations (like the L.I.C.) and that civil servants appointed to executive positions should not permit themselves to be influenced by senior Government officials. Also "life insurance funds should be used only for the benefit of policy holders and not for any extraneous purpose, unlike that purpose be the larger interest of the country."

OFFICIAL LANGUAGE PROBLEM

The official language of the Union in accordance with the provisions of Article 343 of the Constitution is Hindi in the Devnagari script.

But for a period of 15 years from the commencement of the Constitution, that is, till 1965, the English language will continue to be used for all official purposes of the Union. However, the President can by order authorise the use of Hindi in addition to English.

Even after 1965 Parliament can still provide by law for the continued use of the English language.

Article 344 of the Constitution enjoins on the President the appointment of a commission five years after the commencement of the Constitution to make recommendations on the progressive use of Hindi and restriction on the use of English and also on the language to be used for communication between the Union and a State or between one State and another.

In making the recommendations the Commission will have to have due regard to the industrial, cultural and scientific advancement of India and the just claims and interests of persons belonging to non-Hindi speaking areas in regard to the public services.

When the Commission has made its recommendations a Parliamentary committee has to be appointed consisting in all of 30 members (20 from the Lok Sabha and 10 from the Rajya Sabha) who are to be chosen by election. It will be the duty of this Committee to examine the recommendations of the Commission and to report to the President.

After consideration of the report the President will issue his directions.

These, broadly speaking, are the provisions of Articles 343 and 344 which are concerned with the language of the Union.

Regional languages are generally covered by the provisions of Articles 345 to 351, while the Eighth Schedule to the Constitution mentions the fourteen languages recognized as the regional languages by the Constitution.

These are: Assamese, Bengali, Gujarati, Hindi, Kannada, Kashmiri, Malayalam, Marathi, Oriya, Punjabi, Sanskrit, Tamil, Telugu and Urdu.

The law in regard to regional languages can, broadly speaking, be summed up as follows:

The State legislature can adopt any language or languages in use in the State or Hindi as the State official language. Till then the English language will continue to be used.

If a substantial proportion of the population of a State desire that the language spoken by it should also be recognized by the State as an official language the President can direct that the language shall be so recognized either in the whole State or in a part of it or for a specific purpose.

For communication between the Union Government and a State Government or between one State Government and another English will continue to be used for the time being. If two States agree to use Hindi instead, they are free to do so.

In the matter of law and legislation, it is laid down that the language of legislative enactments in Parliament or State legislatures such as Bills, Acts, Ordinances, by-laws, rules and regulations should be English until Parliament changes the law.

Where the State language is one other than English, there has to be a translation of the enactment in English which will be regarded as the authoritative text of the Act, Bill, etc.

In Parliament, business will generally be conducted in English or Hindi. But a member can speak in his mother tongue by permission.

The business of a State legislature can be conducted in English, Hindi or a State language. But a member can also speak in his own mother tongue with the permission of the presiding authority.

Fifteen years after the commencement of the Constitution English will cease to be one of the languages so used unless the legislature enacts otherwise (Art. 210).

About court language, the proceedings in a High Court can be in a State language (other than English) but all judgements or decrees or orders passed by a High Court have to be in English.

No change in all this is permissible until the President has decided to take action consequent to the recommendations of the Official Language Commission.

Finally, it is the duty of the Union to promote the use of Hindi and develop it through the assimilation of the form, style and expressions used in Hindustani and in the other languages of India and by drawing on the vocabulary primarily of Sanskrit and secondarily of other languages.

The interests of linguistic minorities are protected by means of Articles 29 and 30 of the Constitution. Every minority has the right to conserve its own language. It has the right to conduct schools of its choice.

There is a special officer for Linguistic Minorities under the Ministry of Home Affairs with headquarters in Allahabad.

Below we give a brief summary of the action taken from time to time by the Union and State Governments under the various articles of the Constitution relating to official language.

The President has authorized the use of Hindi for warrants of appointment which he makes for example, of Governors, Judges of the High Court and Supreme Court; in administration reports; Government resolutions; legislative enactments; correspondence with State Governments which have adopted Hindi as their official language; in Treaties and Agreements; in correspondence with foreign Governments and organizations; in formal documents issued to diplomatic and consular officials.

LANGUAGE ACTS

Official Language Acts have been adopted in Bihar, Madhya Pradesh, Madras, Orissa, U.P. and Rajasthan.

The Bihar, M.P., U.P. and Rajasthan Acts provide that Hindi should be the official language in that State, while the Orissa Act makes Oriya the official language in Orissa and the Madras Act Tamil.

In Bihar, M.P., Orissa, U.P. and Rajasthan there is legislative enactment either through the Official Language Act or through a separate Act which provides that Acts, Bills, Ordinances etc. should be issued in the States official language.

U.P., M.P., Bihar and Rajasthan have an agreement for the use of Hindi for inter-State purposes.

In Madras Tamil is now used as the official language in over 1,750 Government offices.

Not all the Acts referred to above are, however, implemented as yet. The position is some what like this:

The Bihar Official Language Act, 1950—partially implemented.

The Bihar Language of Laws Act, 1955—not implemented.

Madhya Pradesh Official Language Act, 1950—partially implemented.

Orissa Official Language Act, 1954—not implemented.

Uttar Pradesh Official Language Act, 1951—implemented.

Uttar Pradesh Language (Bills and Acts) Act, 1950—implemented.

Rajasthan Official Language Act, 1952—implemented.

The Himachal Pradesh Language (Bills and Acts) Act, 1952—implemented.

Madras Official Language Act, 1956—partially implemented.

About the use of language in courts, Urdu can be used in the proceedings of the Hyderabad High Court, Hindi in the Rajasthan High Court and Malayalam in the Kerala High Court.

English is the language used in the High Courts of Andhra, Assam, Bihar, Bombay, M.P., Madras, Orissa, Punjab, U.P., W. Bengal, Kashmir and Mysore and in the Judicial Commissioners' Courts in Himachal, Manipur and Tripura.

About the language actually used in the various legislatures some calculations have been made about the proportion in which the languages are used.

The percentage in 1954 was as follows:—

Lok Sabha: English 83.2; Hindi 16.2.

Rajya Sabha: English 85.0; Hindi 13.1.

Andhra Assembly: English 10.0; Telugu 90.0.

Assam Assembly: English 89.67; Assamese 9.97.

Bihar Assembly: English 5.0; Hindi 95.0.

Bihar Council: English 27.67; Hindi 72.33.

Bombay Assembly: English 50.4; Marathi 40.0.

Bombay Council: English 89.6; Marathi 7.3.

Madras Assembly: English 52.4; Tamil 42.2.

Madras Council: English 82.2; Tamil 17.6.

Orissa Assembly: English 5.0; Oriya 95.0.

Punjab Assembly: Hindi 56.7; Punjabi 43.03.

Punjab Council: English 34.6; Hindi 35.6; Punjabi 29.8.

U.P. Assembly: Hindi 100.

U.P. Council: English 3.0; Hindi 97.0.

W. Bengal Assembly: English 50.4; Bengali 49.1.

W. Bengal Council: English 60.3; Bengali 39.0.

Kashmir Assembly: English 6.0; Urdu 94.0.

Mysore Assembly: English 45.0; Kannada 55.0.

Mysore Council: English 35.0; Kannada 65.0.

Rajasthan Assembly: English 1.3; Hindi 98.2.

Travancore-Cochin Assembly: English 10 Malayalam 78.0.

The following States have an official language for the legislature fixed by statute: Bihar (Hindi), M.P. (Hindi), Orissa (Oriya), U.P. (Hindi), Kashmir (Urdu), Rajasthan (Hindi).

OFFICIAL LANGUAGE COMMISSION

The President constituted a Commission in pursuance of the provisions contained in Article 344 of the Constitution by a Government of India notification dated 7th June 1955.

The Commission was to be called the Official Language Commission the main duty of which was to make recommendations on the progressive use of Hindi and prepare a time-schedule for gradually replacing English by Hindi as the Official language of the Union.

The Commission was to make its recommendations not later than 30th April 1956.

The Commission consisted of 20 members besides the Chairman.

The Chairman was the late Mr. B. G. Kher and the 20 members were:

Dr. B. K. Barua, Dr. S. K. Chatterji, Mr. Maganbhai Desai, Mr. D. C. Pavate, Professor P. N. Pushp, Mr. M. K. Raja, Dr. P. Subbarayan, Mr. G. P. Nene, Dr. P. K. Paria, Sardar Teja Singh, Mr. M. Satyanarayana, Dr. Babu Ram Saksena, Dr. Abid Hussain, Dr. Amarnath Jha, Dr. R. P. Tripathi, Mr. Balkrishna Sharma, Dr. Hazari Prasad Dwivedi, Mr. Jai Narain Vyas, Mr. M. Ananthasayanam Ayyangar.

Dr. Amarnath Jha died on Sept. 2, 1955 and his place was taken by Professor Ramdhari Sinha. Mr. Ayyangar resigned his membership with effect from 8th March 1956 when he became Speaker of the Lok Sabha.

As the Commission could commence its work only in July 1955 the last date for the submission of its recommendations was postponed to 31st July 1956.

The Commission signed its report on the 25th July, 1956 and submitted it to the President on 31st July 1956. It was laid on the table of Parliament by the Home Minister on Aug. 12, 1957.

The report contained two minutes of dissent—one by Dr. Subbarayan and the other by Dr. S. K. Chatterji.

Broadly speaking, the conclusions were: Hindi in the Devnagari script should be the official language. But it is neither necessary nor possible to say whether a change-over to Hindi is practicable by 1956. This will depend on the efforts made in that direction in the meantime.

The pre-requisites for a change-over are (i) preparation and standardisation of administrative terminology; (ii) translation into Hindi of manuals, hand-books and other official publications; (iii) training of administrative personnel in Hindi; and (iv) development of mechanical and service aids in Hindi. Detailed recommendations have been made on each of the above matters in the report.

It is not possible for the Commission to furnish a regular time-table by dates and stages as to how Hindi should be introduced into the business of the Union so as to accomplish the general change-over within the period fixed by the Constitution. The actual drawing up of a plan of action and setting up of a time-schedule must be left to the Government of India themselves to do after a study of the relevant factors.

Arrangements may be made for outgoing communication from the Union Government to a Hindi-speaking State being accompanied by a Hindi translation of English texts whenever such a State makes a request to this effect. The employment of Hindi before 1965 in this manner will help in establishing forms of address, expressions, etc.

The Commission has also recommended that other Indian languages should adopt the Devnagari script as this will bring the various Indian languages closer to each other. At present no restrictions should be imposed on the conduct of the administration in English.

The Commission has also recommended that, ultimately, both Parliament and the State legislatures as well as the Supreme Court should use only Hindi. The desirability of the entire statute book of the country being in the same language, namely, Hindi, is emphasised.

The lower levels of the judiciary should, however, function in the regional languages, while the High Courts will have to conduct their business on a bilingual basis.

In the field of education, the Commission suggests that instruction in Hindi may begin at the close of the primary stage and continue up to the school-leaving stage. Instruction in Hindi

should be compulsory at the secondary stage in the non-Hindi-speaking areas all over the country.

All universities should make arrangements to hold examinations with Hindi as the medium of instruction.

Meanwhile, the introduction of Hindi as an alternative medium to English for competitive examinations for the all-India services is recommended after giving due notice.

English should continue as an alternative medium as long as it may be considered necessary and its discontinuance should be effected only after sufficient notice.

In adopting new terminology, the Commission says that the primary aim should be clarity, precision and simplicity. Doctrinaire insistence on linguistic purism is deprecated.

The Commission has no recommendation to make on the use of Devnagari numerals in addition to the international form of numerals for any of the purposes by the Union between now and the time when the next official language commission is appointed in 1960.

Another recommendation of the Commission is the constitution of a national academy of languages to be set up, preferably at Hyderabad, for carrying out work relating to the development of the Union as well as the regional languages and for other purposes, including the production of text-books and books of reference.

It also recommends the development of Hindi news services and a typewriter key-board in the Devnagari script.

MINUTES OF DISSENT

Two members of the Commission Dr. Subbarayan and Dr. S. K. Chatterji have separate minutes of dissent.

They say that the target date of 1965 for change-over from English to Hindi would not be found adequate.

The question of progressive use of Hindi for the official purposes of the Union, according to both the members of the Commission, should be kept in abeyance for the time being. They add that it would finally rest with the different States using their own different regional languages to decide after Hindi has been voluntarily adopted by them and a knowledge of it has spread, to what extent Hindi can be used for communication between the Union and the State Governments and between one State Government and another.

According to Dr. S. K. Chatterjee, the choice of Hindi as a language to replace English for pan-Indian affairs has been "hasty". Public funds, he adds, from the whole of India are being diverted towards the development and propagation of Hindi and this cannot but be resented in non-Hindi States.

The retention of English will not be against the best interest of a free Indian people. He suggests the retention of English, side by side with the Indian languages great and small.

Dr. Subbarayan is of the opinion that the official language which is to be adopted eventually must be a language which has been fully developed and till such time "we must perforce continue to use English." If the country has to maintain its independence and progressively develop any steps taken to introduce an official language other than English "must take into account whether its immediate introduction will hamper the economic and industrial progress."

If the Commission's recommendations are sought to be implemented by the Union Government it will result in "immediate imposition of Hindi on non-Hindi-speaking people" leading to confusion in public life as a whole. The relegation of English to a secondary place in our education and public life will certainly not be for the good of the country.

Nothing should be done by the Centre without obtaining from the legislatures of the non-Hindi States clear indication of the wishes of the speakers of the various regional languages in the matter through their properly elected representatives, the members of the State legislative bodies.

The restrictions on the use of English for all or any of the official purposes of the Union should not be given effect to for the time being. The language, both in Parliament and State legislatures, should be English for a long time with option to use Hindi or a regional language.

The medium of instruction at the university-level should be English till such time as Hindi is equipped well enough for replacing English as the medium. However, even when Hindi ultimately becomes the medium, English should continue as the medium of instruction in scientific, technical and technological subjects, and also in subjects like politics and economics for a longer time to come.

In the case of competitive examinations for the all-India services, English should remain for many years as the sole medium of examination.

There is also a note by Mr. Maganbhai Desai.

But this note, as the Chairman points out is only a re-statement of points which already find full expression in the report at appropriate places.

However, there are two points of disagreement.

Mr. Desai says the Constitution should be amended so as to cast a definite duty on the State Governments to introduce compulsory instruction in Hindi. He also disagrees with the view in the main report relating to compelling Hindi students to learn a non-Hindi Indian language.

In a covering note, the Chairman of the Commission, regrets that there are several "inaccurate and unsubstantiated statements" in the notes of dissent as regards the contents of the main report.

In general, the Chairman observes, the impression is likely to be formed that the main report seeks to eliminate English and that it seeks to impose Hindi on sectors pertaining to the proper field of regional languages.

It will be manifest to even a casual reader of the report, says the Chairman, "that this impression is grossly unjust to the views expressed in the report."

PARLIAMENTARY COMMITTEE

As we have already mentioned the Constitution requires that the recommendations of the Language Commission have to be examined by a Parliamentary Committee consisting of 30 members (20 from the Lok Sabha and 10 from the Rajya Sabha). The President will base his final order on the report of this Committee.

The 20 members to form the Committee from the Lok Sabha were elected on Sept. 12, 1957 and the 10 members from the Rajya Sabha on 11th September.

The Committee held its first meeting on 16th Nov. 1957 at which Pandit Govind Ballabh Pant was elected chairman.

The 10 members from the Rajya Sabha were: Mr. Govind Ballabh Pant; Mr. Alfuri Satyanarayana Raju; Mr. Bhagratih Mahapatra; Mr. Budh Singh; Mr. K. P. Madhavan Nair; Mr. P. Narayana Nair; Mr. Prafulla Chandra Bhanj Deo; Mr. Purushottam Das Tandon; Dr. Kishan Vira; Dr. A. Ramaswami Mudaliar.

The 20 members from the Lok Sabha were:

Mr. Atulya Ghosh; Mr. B. Bhagwati; Mr. Bhakt Dharma; Dr. T. Y. Gobokar; Mr. Frank Anthony; Seth Govind Das; Mr. Gurmuk Singh Musafir; Mr. Harish Chandra Sharma; Mr. M. Hifzur Rahman; Mr. Hirenchandra Mukherjee; Mr. Maneklal Varma; Mr. Mathuramdas Mehta; Kamesh Maniben Vallabhbhai Patel;

Mr. B. S. Murthy; Mr. Pramathanath Banerjee; Mr. Swami Ramananda Tirtha; Mr. Shripad Amrit Dange; Mr. U. S. Mallik; Pandit Thakur Das Bhargava, and Mr. P. T. Thann Pillai.

The Committee held its first meeting on 10th Nov. 1957. Between this date and 12th May, 1958 it held seven meetings.

From the speeches and discussions at the meeting the trend of opinion seemed to be as follows:—

While Hindi should be the official language of the Union, 1955 should not be regarded as a rigid date-line for the switch-over from English.

The transition from English to Hindi at the Union level and from English to the regional language at the State level should be effected by gradual stages.

In their own areas the regional languages, which would be the medium of instruction all through, would be supreme.

Candidates from non-Hindi areas should not be at a disadvantage in the matter of recruitment to the All-India Services.

The three-language formula proposed by the Union Education Ministry for adoption in the country—the regional language, Hindi and English (or some other foreign language) in the non-Hindi areas, and Hindi a modern Indian language other than Hindi and English (or some other foreign language) in the Hindi areas—this formula was generally approved.

The recommendation of the official language Commission that the language of the High Courts should ultimately be Hindi was strongly criticized by members from non-Hindi areas. They were of the view that the regional language would be the language of the High Courts. Translations in Hindi for the benefit of High Courts in other States and of the Supreme Court could be provided.

MADRAS MEMORANDUM

The Government of Madras sent a memorandum to the Union Government outlining its views on the Official Language Commission report on 3rd January 1958.

These views can be summed up in some such way as the following.

The memorandum called for a clear declaration of the Union language policy, setting out the objectives as well as the perspective regarding the duration of the transition period and essential safeguards in respect of every aspect of the country's language problem.

It should be the aim of the declaration firmly to discountenance impractical and unreasonable expectations in the Hindi-speaking region and to provide the reassurance which public opinion in the non-Hindi regions needs and expects to secure from the Union Government and Parliament.

The Kher Commission handled the official language question *ris-a-ris* the 15-year target in a "diffident" manner and the entire report has been vitiated by such handling.

There is no well-defined plan for the change from English to Hindi. The Government of India asked the Official Language Commission to draft one; the Commission has not done it. None of the essential prerequisites for the commencement of the transition has been brought into existence so far.

The Commission had known full well that the non-Hindi speaking regions expected it to answer the question whether the time-limit was realistic and if it was not, what the remedy would be. And yet, the Commission failed to answer the question and showed that it was more anxious to avoid causing disappointment in the Hindi region than to allay the apprehensions in the non-Hindi region.

The State Government, therefore, draws the conclusion that it will be necessary to use both English and Hindi as two official languages of the Union for a long period.

The Union Government and Parliament should now announce their readiness to make statutory provision for such bilingualism through the exercise of the legislative power vested in Parliament under Article 343 (3) of the Constitution.

The other points made in the memorandum are:

(1) Language in Union Public Service Commission and departmental examinations: The State Government does not set much store by the Commission's hope that the "progress of Hindi among the non-Hindi speaking university graduates generally would have advanced sufficiently to admit of their competing on equal terms with Hindi-speaking candidates at these examinations through the medium of Hindi.

It is necessary that every regional language should be admitted as one of the alternative media for the combined all-India examinations as soon as that language has been brought into use as the medium of instruction in colleges up to graduation standard.

The resulting problem of moderation should be accepted as a necessary feature of the arrangement for recruitment to these important services. It should be satisfactorily solved by the Union Public Service Commission.

(2) Language in Parliament: The institution of arrangements for simultaneous translation from Hindi to English and *vice versa* may prove to be the best beginning for effecting the transition in Parliament.

(3) Language in Supreme Court: The Commission has not hazarded any guess as to when the time will come for the change-over. It presumes that it will not be until after the High Courts of the Hindi region have changed over completely from English to Hindi.

(4) Inter-Governmental communications: This issue is sufficiently well settled by Article 340 of the Constitution. The Commission proposes that arrangements may be made to supply a Hindi translation of the English text of communications from the Centre to Hindi-speaking States wherever such a request is made. There can be no objection to this.

(5) Language in schools: The Commission recommends a three-language formula for secondary schools in the non-Hindi region. The State Government has decided upon a three-language formula, the terms of which are in certain respects different from those recommended by the Commission.

(6) Language in colleges: The Commission's treatment of the question of the medium of instruction is very unsatisfactory. It is calculated to arouse suspicion about the imposition of Hindi on the people of the non-Hindi region. The medium should be Tamil and not Hindi, in Tamil Nad.

(7) Language in offices and institutions of State Governments: The Commission's views are accepted and there are no special comments.

(8) Language in State legislatures: The Commission is of the view that the statute book in the entire country should be in Hindi. The Government of Madras considers that it is neither necessary nor proper that the laws of the State should be in a language different from the State's official language.

(9) Language in High Courts: The official language of the State (which is the regional language) should be the language of High Courts and not Hindi as recommended by the Commission.

HINDI

Hindi being the official language has a special programme of development.

During 1955-56 Rs 5,40,000 were sanctioned by the Union Government for the propagation of Hindi though only about Rs. 3,25,000 were spent. In 1956-57 over Rs. 2,83,000 were sanctioned but only about Rs. 1,65,000 were utilized. The sum sanctioned for 1957-58 was Rs. 4,24,500.

A more recent activity is the preparation of lists of words common to Hindi and each of the other Indian languages.

Three provisional lists—Hindi-Bengali, Hindi-Tamil, Hindi-Malayalam—had been published till the end of 1957. Eight more lists were in the press—Assamese, Gujarati, Kannada, Kashmiri, Marathi, Oriya and Punjabi.

After they are finally approved a combined comparative glossary will be published.

A Hindi encyclopaedia in 10 volumes is under preparation by the Kashi Nagari Pracharini Sabha in Panaras.

The work was started in August 1956. Each volume will be about 500 pages. The estimated cost of the whole project is about Rs. 6.5 lakhs.

The first volume has already been published.

Upto the end of Dec. 1957, Rs. 85,000 were paid to the Sabha and the Sabha incurred an expenditure of Rs. 52,074-10.

Since October 1, 1955, the Union Ministry of Home Affairs has assumed the responsibility of teaching Hindi to Central Government servants in and outside Delhi during office hours.

In April 1958 there were 160 Teachers, seven Assistant Supervisors and one Supervisor.

Hindi classes, 863 in number, were being run at 49 centres.

When the scheme started there were 2,500 officers undergoing training. In April 1958 there were 22,000.

The Central Board of Secondary Education, Ajmer, conducts the examinations—Hindi Prabodh and Hindi Praveen—on behalf of the Home Ministry. In Oct. 1957 the first examinations were held at 17 centres and 1,677 officers passed. In 1958 January another examination was held at 19 centres and about 2,150 candidates appeared.

The Home Ministry originally planned to train about three lakh officers by 1961-62 upto the Pragna stage but the number is expected to exceed that figure as the Ministry has undertaken the training of civilian employees of the defence installations also.

PLACE IN EDUCATION

In the non-Hindi speaking areas the position of Hindi in the education system is broadly as follows:

In the former Andhra area Hindi is a compulsory and independent subject of study in the forms I to IV with a provision for extending it as an independent and compulsory study progressively to forms V and VI. Hindi is an optional subject of study in forms VII and VIII of all secondary schools and a provision has been made for study in the colleges.

In Bombay Hindi is a compulsory subject for standards V-XI and also for the Secondary School Certificate Examination.

Some Universities in Bombay have a provision for the teaching of Hindi during the first two years of the course.

In Madras Hindi is an optional subject in schools upto the Matriculation standard. Provision exists in the Madras University for the teaching of Hindi upto the M.A. standard.

In Orissa Hindi is a compulsory subject of study upto the High School standard.

In West Bengal Hindi is taught in Classes V and VI in all Government High and Middle schools in the State. It is also a subject of study in the higher classes upto the Matriculation class.

In Mysore Hindi is a compulsory non-examination subject in the high schools.

In the Coorg District of Mysore Hindi is an optional subject for the B.A. degree examination.

In the Travancore-Cochin area of Kerala Hindi is compulsory from forms II to VI.

In the Andamans Hindi is compulsory in all Classes from IV to X.

In Manipur Hindi is taught in middle and high schools.

In Tripura Hindi is taught in Government Middle Schools in Class VI and in Government High Schools from Class V to Class VIII.

In the matter of the medium of instruction, in the pre-university stage the mother tongue or the regional language is the accepted practice except in Anglo-Indian schools and a few so-called English medium schools.

In the intermediate stage of university education the position is a little complicated.

In the Hindi-speaking areas Hindi is the medium of instruction, with English as an optional medium in many centres.

In the non-Hindi-speaking areas practice varies.

In the overwhelming majority of the universities here English is the only medium. Gujarat, Baroda, S.N.D.T. and Visva-Bharati allow Hindi as an optional medium. Karnatak, Poona, Calcutta, and Jammu and Kashmir the regional language is an alternative medium.

English is, however, a compulsory subject of study at the intermediate courses in all universities except in Uttar Pradesh.

In the B.A. classes, at the majority of the universities English is the only medium. In the rest alternatives exist. The alternative may be either Hindi or the regional language or both.

In this latter category are the universities in the Hindi-speaking areas (except Aligarh, Saugar and Delhi), Patna, Nagpur, S.N.D.T., Osmania, Visva-Bharati and Calcutta (only for some subjects).

Gujarat, Poona and Karnatak have decided to adopt the regional language as the medium.

English is, however, compulsory almost everywhere and an independent optional subject of study.

For B.Sc. and B.Com. degrees English is the usual medium except in Banaras, Bihar, Lucknow, Patna, Saugar and Nagpur where Hindi is an optional medium and in Osmania where the alternative medium is Hindustani. At Allahabad Hindi is optional for B.Sc. and at Rajputana only for B.Com.

For post-graduate study English is the exclusive medium. The only exceptions are Agra and S.N.D.T. which allow Hindi or the mother tongue as alternatives.

POPULATION†

Below we give available population data about States which underwent re-organization in November 1956.

POPULATION GROUPS

	Population	Males	Females	Density per Sq. Mile	Hindus	Muslims	Christians	Sikhs	Tribals
Andhra	31,260,133	15,742,912	15,517,221	295	N.A.	N.A.	N.A.	N.A.	N.A.
Bihar	38,783,778	19,490,560	19,293,218	578	N.A.	N.A.	N.A.	N.A.	N.A.
Bombay	48,265,221	24,821,961	23,443,260	253	N.A.	N.A.	N.A.	N.A.	N.A.
Kerala	13,551,629	6,682,861	6,868,668	904	8,360,596	2,202,774	2,935,385	308	Nil
Madras	29,974,936	14,931,767	15,043,169	597	N.A.	N.A.	N.A.	N.A.	N.A.

POSTS AND TELEGRAPHS

Some statistics for 1957 are given below:
Total no. of persons employed (April 1, 1957): 302,000; Capital outlay: Rs. 99.81 crores.

Gross receipts (1956-57): Rs. 56.84 crores; Working expenses: Rs. 50.52 crores. The accumulated surplus on April 1, 1957: Rs. 22.08 crores.

For administration the country is divided into 13 postal circles. There are four telephone districts (Bombay, Calcutta, Delhi, Madras). The workshops are located in Bombay, Calcutta, Jabalpur.

The training centre is at Jabalpur with regional centres at Ambala, Calcutta and Madras.

No. of postal articles handled: about 326 crores (1956-57); total revenue: Rs. 32.75 crores.

No. of post offices: 58,871 (rural 52,177); no. of registered articles handled: 9.7 crores; insured articles: 40 lakhs; money orders: 6.7 crores.

No. of savings bank transactions (1956-57): 20.3 millions.

No. of telegraph offices: 10,081; no. of telegrams: about 3.5 crores (about 44 lakhs foreign); telegraph revenue: Rs. 6.5 crores (foreign telegrams: Rs. 1.47 crores).

Mileage of wire (31st March, 1957): 910,451.

No. of telephones (Jan. 26, 1957): 300,000; public call offices: 4,434 (March 31, 1957); departmental exchanges: 952 (March 31, 1957); no. of trunk calls (1956-57): 2.08 crores; telephone revenue: Rs. 16.3 crores (1956-57).

Budget estimates 1958-59: Gross receipts: Rs. 63.64 crores; working expenses: Rs. 61.30 crores; surplus: Rs. 2.34 crores.

Complaints: Total no. of complaints pending on 31st Dec., 1957: 34,484.

The total number of complaints received during the calendar year 1957 and disposed of were 466,408 and 465,628 respectively.

Hindi: Efforts to propagate Hindi continue. The Postal Guide Part I in that language is in circulation. About a dozen P. & T. forms have been translated. Facilities for booking and

transmitting telegrams in Hindi now exist in more than 1,200 offices. About 5,700 telegrams per month were booked in 1957 as against 5,600 in 1956.

Decimal System: All accounts are now kept in this system except Telephone Revenue Accounting. An entirely new set of postage stamps and postal stationery was released on 1st April 1957. The stamps belonging to the older system are sold at their redenoted values in naye paise. Under weights and measures preliminary action has been taken to gauge the requirements.

The new series of Ordinary postal stamps consists of eleven denominations ranging from one naya paise to 75 naye paise. They bear a common design—the outline map of India.

The new series of Service stamps consists of nine denominations—one naya paise to 50 naye paise. The common motif here is the lion Capital of Asoka.

The new set of postal stationery—cards, envelopes—also have the same motif except the Aerogrammes which show an aeroplane in flight.

Commemorative Stamps: Commemoration related to the 100th Anniversary of the 1957 revolt; 10th Anniversary of Independence; the XIX International Red Cross Conference in New Delhi on 28th Oct., 1957; Children's Day; The Centenary of the Universities of Bombay, Calcutta and Madras.

In 1958 the Commemoration would relate to the 50th year of the steel industry, Dr. D. K. Karve and Sir Jagdish Chandra Bose.

Postal Life Insurance: Total no. of proposals accepted between April 1957 and Nov. 1957: 5,594.

Transfer of Savings Bank Accounts: The no. and value of lists transferred by Pakistan were 23,292 and Rs. 1,13,11,522 respectively. The value of the lists transferred by India was Rs. 30,58,496 (as on 31-10-1957).

Cheque System: This system for deposit and withdrawal would first be introduced in eight cities and later extended to head and departmental sub-offices.

Mail Service: Runners were replaced by speedier service on 367 lines covering 2,906 miles.

Letter-Boxes: The total no. on 1st Dec. 1957 was 134,861 as against 126,586 on 1st Dec. 1956. No. in rural areas on 1st Dec. 1957: 100,013.

Telegraphs: In December 1957 only two District towns (both in NEFA) out of 322 in the whole country, 13 out of 482 sub-divisional towns, and 145 out of 1,369 Tehsil stations remained without telegraph facilities.

The total no. of telegraph offices* in the country was 5,638 on 31st Dec. 1957 (no. opened during 1957: 277).

As a first step towards modernization a Tape Relay Exchange was installed at Bombay. Depending on the availability of foreign exchange this would be extended to Calcutta, Delhi and Madras during the Second Plan.

1,236 teleprinters were in service on 31st Dec. 1957.

Telephones: By the end of December 1957 only 16 out of 322 District towns and 78 sub-divisional towns out of 482 remained without P.C.O.'s. 'Own Your Telephone' was introduced in Dec. 1949. The number of subscribers and applicants on 31st Dec. 1957 was 29,934, and the total amount collected was Rs. 6,75,44,500. The no. of connections provided was 29,264.

REFUGEES AND REHABILITATION

BELOW we give a few facts and figures for 1957-58.

Displaced persons from West Pakistan 47.40 lakhs; from East Pakistan 41.16 lakhs (including the post-census migration); total 88.56 lakhs.

Total amount spent on D.P.s upto end of March 1958: Rs. 304.11 crores. Provision for 1958-59: Rs. 31.56 crores.

Dandakaranya: Rs. 25.0 lakhs.

Total expenditure (1957-58): Rs. 27.48 crores.

The distribution of displaced persons among the various States was as follows (for the Western Zone based on the 1951 census figures and an estimated influx of about 20,000 after census, for the Eastern Zone on estimates in December 1957):

Andamans 4,000; Andhra 4,000; Assam 487,000; Bihar 67,000; Bombay 415,000; Delhi 501,000; Himachal Pradesh 5,000; Madhya Pradesh 210,000; Madras 9,000; Manipur 2,000; Mysore 7,000; Orissa 12,000; Punjab 2,737,000; Rajasthan 373,000; Tripura 374,000; Uttar Pradesh 486,000; West Bengal 3,163,000.

GRANTS, LOANS

The figures are in Rs. lakhs and are upto March 31, 1958:

	West Pakistan	East Pakistan	Total
Establishment ..	195.16	45.15	240.31
Grants ..	8,010.87	6,013.29	14,024.16
Loans ..	3,207.31	3,597.71	6,805.02
Housing ..	6,981.81	3,038.33	9,020.14
Miscellaneous ..	—	—	0.51
Dandakaranya ..	—	—	25.00

Loans advanced to State Governments for rehabilitation upto 31st March 1958:

Total: Rs. 6,580.73 lakhs.

Western Zone: Rs. 2,510.55 lakhs.

Eastern Zone: Rs. 3,598.34 lakhs.

For industrial purposes (total): Rs. 471.84 lakhs.

The total at the top does not include housing loans to States etc. and loans by Rehabilitation Finance Corporation.

Loans to State Governments in 1957-58: Rs. 579.59 lakhs (B.E.).

Loans to State Governments in 1958-59: Rs. 695.02 lakhs (B.E.).

EMPLOYMENT, HOUSING, COMPENSATION

Placements of displaced persons through employment exchanges upto 31st Dec., 1957:

Total: 2,53,650.

Eastern Zone: 54,484; Western Zone: 1,99,166.

No. on live register on 31st Dec., 1957: 42,575.

Eastern Zone: 35,338; Western Zone: 7,237.

Total number of residential units constructed in the eastern zone (31st Dec. 1957):

Total: 3,80,479 (by Government 3,363, by D.P.s with State assistance 3,81,116).

The total State-wise: Andamans 1,012; Assam 27,818; Bihar 4,085; Manipur 607; Orissa 2,450; Tripura 73,190; Uttar Pradesh 1,178; West Bengal 2,79,559.

Total number of residential units/shops constructed for D.P.s from W. Pakistan (31st Dec. 1957):

Total of houses/tenements: 1,66,631 (By Government 1,62,368; by D.P.s: 24,363).

Total of shops/stalls: 34,009.

The total of houses/tenements State-wise: Andhra 21; Bihar 574; Bombay 42,774; Delhi 50,329; Kashmir 1,700; Kerala 1,324; Madhya Pradesh 5,687; Madras 92; Mysore 55; Punjab 47,525; Rajasthan 3,251; U.P. 18,454. In the townships of Faridabad 5,159; Gandhidham 4,349; Hastinapur 610; Nilokeri 983; Prem Nagar 1,200; Rajpura 2,672.

Total number of displaced families from East Pakistan settled on land as in November 1957: 546,900.

The total State-wise: Andamans 1,000; Assam 69,000; Bihar 10,500; Manipur 500; Orissa 1,500; Tripura 52,500; U.P. 1,100; W. Bengal 410,800.

Total number of displaced persons from W. Pakistan settled on land: 568,000.

Total number of applications received from D.P.s from W. Pakistan as on 31st Dec., 1957: 4,60,446.

Of these the number of 1st and 2nd priority categories: 1,92,537.

Residuary number of claimants: 2,76,909.

Total number of claimants paid compensation as on 31st Jan. 1958: 2,54,368.

Total amount of compensation paid: Rs. 76,04,47,124.

Amount paid in cash: Rs. 44,02,42,115.

Amount paid by transfer of properties: Rs. 19.38 crores.

Amount paid by adjustment of outstanding dues: Rs. 12,14,20,891.

MISCELLANEOUS ITEMS

Relief:

No. of persons in receipt of gratuitous relief from Government:

Temporary liability (E. Pak. D.P.s in camps as on 30th Nov. 1957): 2.64 lakhs.

Permanent and semi-permanent liability (as on 31st Dec. 1957): Total: 82,000.

From W. Pakistan: 22,000.

From E. Pakistan: 60,000.

Maintenance allowance for D.P.s from W. Pakistan:

No. of recipients (peak figure): 17,000.

Amount released for payment of allowance (upto 31st Dec. 1957): Rs. 140 lakhs.

Industries:

Medium Industries for displaced persons from West Pakistan—

Number of schemes sanctioned upto 31st December 1957 43

Investment on the part of Government Rs. 114.25 lakhs

Number of displaced persons expected to be employed 8,000

Small/Cottage Industries for displaced persons from West Pakistan—

Number of schemes sanctioned upto December 1957 42

Expenditure involved Rs. 13.85 lakhs

Number of displaced persons expected to be employed 1,100

Medium Industries for displaced persons from East Pakistan—

Number of schemes sanctioned upto 30th November 1957 20

Investment on the part of Government Rs. 268.11 lakhs

Number of displaced persons expected to be employed 10,000

Small Cottage Industries for displaced persons from East Pakistan—

Number of Schemes sanctioned upto 31st December, 1957 26

Expenditure involved Rs. 27.98 lakhs

Number of displaced persons expected to be employed 6,000

Technical and Vocational Training—

Displaced Persons from West Pakistan:

Number trained 86,000

Number under training 7,000

Displaced persons from East Pakistan—

Number trained 32,000

Number under training 5,000

REHABILITATION FINANCE ADMINISTRATION

(Church Road, New Delhi)

Chief Administrator, B. N. Hazari.

Dy. Chief Administrator, N. L. Chatterjee.

Chief Accountant, D. L. Sondhi.

Law Officer, S. Saran Singh.

The relevant statistics are given in the table below. They show the position as at the end of December 1957:

Origin of applicants	Applications received	Applications disposed of	Applications sanctioned	Amount sanctioned	Amount paid
West Pakistan	47,298	47,298	9,878	Rs. lakhs. 797.40	Rs. lakhs. 723.74
East Pakistan (Old) ..	18,451	18,451	4,384	334.68	349.74
East Pakistan (New) ..	22,738	16,266	1,530	93.51	
Total	88,487	82,015	15,792	1,225.59	1,073.48

Amount of instalment due: Principal: Rs. 322.64 lakhs; Interest: Rs. 178.80 lakhs.

Amount of instalment received: Principal Rs. 219.84 lakhs; Interest: Rs. 117.74 lakhs.

A REVIEW

A new phase marked the progress of the rehabilitation of displaced persons during 1957. The work of rehabilitation of D.Ps. from West Pakistan was nearly completed and it was decided to wind up the activities of the Rehabilitation Ministry in the western region and to transfer its activities to the various appropriate ministries.

D. Ps. from E. Pakistan

In the eastern region, there was an abatement in the pace of migration from East Pakistan due to the regulation of migration certificates and only 11,000 displaced persons came over to India in 1957.

Efforts are being made to locate agricultural lands in the States outside the eastern zone. Sixty-five schemes for the rehabilitation of 7,834 families on 42,462 acres have already been sanctioned at a cost of Rs. 339.22 lakhs and schemes in respect of another 48,000 acres are under preparation.

About 1,529 primary schools, 22 secondary schools and 20 colleges were sanctioned. The total expenditure on the education of displaced students in the eastern region, excluding those in camps, would be about Rs. 146.90 lakhs during 1957-58.

A system of priority was introduced in October 1956 for the issue of migration certificates by the Deputy High Commissioner for India at Dacca to regulate the migration of displaced persons from East Pakistan. During 1957, 8,125 D.Ps. came to India from January to June, and 2,795 from July to December.

There were 168 camps in the eastern regions with a population of 2,64,028 persons on December 31, 1957. Of this, 2.11 lakhs were in West Bengal. It was decided not to admit any more displaced persons in camps in West Bengal as the State Government indicated that a substantial portion of their camp population could not be absorbed in the economy of the State. It requested that arrangements might be made for their rehabilitation outside the State. New camps were set up in other States for the surplus camp population in West Bengal.

In addition to the D.Ps. in camps, there were 44 homes in the region with a population of 69,870 persons.

Dandakaranya Project: The first colony in Dandakaranya, according to the present arrangement, was expected to be set up at Pharsaigan, in the Bastar District of Madhya Pradesh, before the onset of the monsoon—June 1958.

The possibilities of utilizing the area called Dandakaranya consisting of about 80,000 square miles on the borders of Andhra, Madhya Pradesh and Orissa, were examined as West Bengal, Assam and Tripura could not take any more immigrants.

A Chief Administrator (L. A. Fletcher) has been appointed.

Side by side with the setting up of a model village for 100 D.P. families at Pharsaigan, action is also being taken to open up road communications in the area by employing labour from amongst displaced persons.

The first phase of the development envisages the rehabilitation of 18,000 displaced families in 150 villages. The target is to reclaim 1.42 lakh

acres of land by a combination of mechanised units, tribal manpower and displaced persons. The manpower requirements for this purpose would be 4,000 tribals and 12,800 D.Ps. in 1958-59, going steadily up to 5,000 tribals and 12,800 D.Ps. by the end of the Plan period.

A Dandakaranya Development Corps of able-bodied displaced persons will be raised to train them not only for reclamation but also for road work and in certain building trades as thousands of them will be needed for construction of houses, villages, roads, community buildings and minor and medium irrigation.

The first phase will be confined to the development of the districts of Bastar (Madhya Pradesh), Koraput and Kalahandi (Orissa) with a combined area of over 30,000 square miles, almost equal to the area of West Bengal. The population of these areas is only just over 30 lakhs with a density of 120.

An assessment of the size of the problem had indicated that the rehabilitation of displaced persons in Manipur and Uttar Pradesh has almost been completed. In Bihar and Orissa, the work was likely to be completed by March 1959 and in Assam and Tripura, by the end of the Second Plan period.

The problem in West Bengal was, however, comparatively big and likely to take a longer time.

A five-point plan was adopted at a conference of Rehabilitation Ministers of eight States held at Darjeeling in October 1957. The five points included early liquidation of camps by either converting them into townships or by providing land or employment to camp families.

The ministers also considered the policy that should be adopted in regard to future migrants from East Pakistan having regard to the size of the existing problem, the dearth of suitable agricultural lands and the prevailing unemployment in the country.

The general view was that in the interest of the existing displaced persons, the problem should not be allowed to grow indefinitely and that a deadline should be fixed after which fresh migrants should not be entitled to receive relief or rehabilitation assistance.

D. Ps. from W. Pakistan

Work relating to displaced persons from West Pakistan has been completed; the only outstanding item being payment of compensation and negotiations with Pakistan. The activities of the Ministry in the western region are being wound up and its activities relating to health, education, vocational and technical training, homes and infirmaries, etc., are being transferred to the ministries.

Compensation: Up to the end of January, 1958, 2.40 lakhs out of the total number of 4.70 lakh claimants were paid compensation. Of this, 2.17 lakhs were paid full compensation under the final scheme, and 0.43 lakh, the first instalment of the compensation under the interim scheme.

In addition, 0.29 lakh certificates of admissibility of compensation were issued. All but a small number of priority cases were paid along with about 50 per cent of small claimants whose claims were for Rs. 10,000 or less. About 50 per

cent of bigger claimants were also paid. It was expected that the payment to small claimants and to the bulk of other claimants would be completed by the end of 1958-59.

The amount of compensation paid up to January 31, 1958 was Rs. 76.04 crores—Rs. 44.02 crores in cash, Rs. 19.88 crores by transfer of properties and Rs. 12.14 crores by adjustment of public dues.

Claimants and non-claimants in occupation of allotted Government-built and evacuee properties were allowed to become owners on payment of an initial instalment of 20 per cent of the purchase price and the balance in seven equal annual instalments.

Non-claimants in arrears with their rent and willing to purchase allotted property in their occupation, were allowed to pay 20 per cent of the arrears along with the first instalment of the cost of the property and the balance in seven annual instalments.

Most of the 61,000 priority cases and a large number of small claimants were paid in cash. Although it was decided to limit cash payments, T.B. patients and mentally affected persons, etc., among priority category claimants would continue to receive payments in cash.

Rural Rehabilitation: Evacuee lands in the Punjab were allotted on a quasi-permanent basis to 4.77 lakh families. Another 0.33 lakh families were settled as tenants-at-will. In addition, 58,000 families were given land on a temporary basis in other States. These families were generally given rural loans up to Rs. 1,102 each. By 1956-1957, rural loans amounting to Rs. 917.49 lakhs were advanced to them. The grant of rural loans was, however, discontinued with effect from 1957-1958.

Up to January 31, 1958, permanent rights were transferred to 2.50 lakh allottees in the Punjab covering an area of 18.52 lakh standard acres worth Rs. 85.36 crores. Proprietary rights in 79,353 houses allotted along with the land were also transferred up to that date.

Urban Rehabilitation: Nineteen new townships were set up in the western region for D.Ps. The four townships with which the Union Government was directly associated were proposed to be transferred to State Governments concerned.

During 1957-58, Rs. 36.58 lakhs were sanctioned for stipends, free ships, purchase of books, etc. About Rs. 35 lakhs were also sanctioned up to January 15, 1958 as grants-in-aid to disrupted educational, medical and other institutions bringing the total grants-in-aid to such institutions to Rs. 182.09 lakhs.

Negotiations with Pakistan: The major problem of immovable property continues to remain unresolved. Some progress was, however, made in the implementation of the Movable Property Agreement. Up to December 31, 1957, personal and house-hold effects valued at about Rs. 70.94 lakhs, belonging to 1,406 D.Ps. were retrieved from West Pakistan. Buried treasures of the estimated value of Rs. 68 lakhs were recovered up to December 31, 1957. In addition, 1,164 fire arms, cheques and bank drafts for Rs. 15.65 lakhs, and verified list of postal account and certificates of the value of Rs. 1,18,11,522 were received.

UNION BUDGET CHANGES

Certain changes were made in the 1958-59 budget as originally presented to Parliament.

These are given below:

Excise Duty on Mill Cloth

The following are the revised rates (excluding the additional excise duty and the handloom cess): (In nP per square yard):

Course	Revised	Before revision
Dhotis and Saris	3	3-125
Other sorts	6	9-375

Medium	Revised	Before revision
Dhotis and Saris	7	9-375
Other sorts	9	9-375
Pins	17	18-750
Superfines	22	25-000

Compulsory Deposit Scheme: The scheme is to be suspended for the financial year 1958-59.

Section 23A Companies: The rate of tax in respect of high dividends above 18 per cent by Section 23A Companies has been reduced from 30 per cent to 20 per cent.

Development Rebate: The effect of the amendments is twofold. In the first place, if the total income for any year before allowing development rebate falls short of the full amount of rebate, the rebate to be allowed for that year will be limited to such total income. The balance of the rebate will be allowed to be carried forward for being claimed in the succeeding year or years. The number of years for which it can be so carried forward will, of course, be restricted to eight, which is the number of years for which unabsorbed losses can be carried forward under the present law. Secondly, the amount to be

taken to the reserve need not exceed 75 per cent. of the amount of the rebate claimed.

GIFT TAX BILL

The Gift Tax Bill was passed by the Lok Sabha on 6th May, 1958. The Bill provides for the levy of a tax on gifts made during the previous year at the rates notified below:

On the first Rs. 50,000—4 per cent., on the next Rs. 50,000—6 per cent., on the next Rs. 50,000—8 per cent., on the next Rs. 50,000—10 per cent., on the next Rs. 1,00,000—12 per cent., on the next Rs. 2,00,000—15 per cent., on the next Rs. 5,00,000—20 per cent., on the next Rs. 10,00,000—25 per cent., on the next Rs. 10,00,000—30 per cent., on the next Rs.

20,00,000—35 per cent. and on the balance—40 per cent.

Gifts exempt from tax are:

(a) immovable property situated outside India; (b) movable property situated outside India, where the donor is not a citizen of India or where the donor, not being an individual, is a non-resident; (c) saving certificates declared gift-tax free; (d) gifts to Government or local authorities; (e) gifts to recognised charitable institutions or funds; (f) gifts for any charitable purpose up to Rs. 100 in respect of each gift; (g) gifts to female dependant members on the occasion of marriage, subject to a maximum of Rs. 10,000; (h) gifts to wife, subject to a maximum of Rs. 1,00,000; (i) gifts of policies of

insurance or annuities to wife, children or dependants subject to a maximum of Rs. 10,000 in respect of each donee; (j) gifts under a will and (k) gifts in contemplation of death.

Without prejudice to these exemptions, no person need pay gift-tax if the gifts do not exceed Rs. 10,000 in one previous year. But, if the taxable gift to any individual donee exceeds Rs. 3,000 during the year, the donor will have to pay tax in respect of all gifts above Rs. 5,000.

Gifts made before 1st April 1957 do not come within the purview of the Gift Tax Bill.

No aggregation of gifts during the preceding five years is made for the purpose of determining the rate of duty.

STATE BUDGETS

Below we give details of State budgets for 1958-59.

SOME HEADS OF REVENUE Rs. lakhs.

States	Total Revenue	Taxes	Land Revenue	State Excise	Stamps	Forest	Tax on Vehicles	Sales Tax	Other Taxes and Duties
Andhra Pradesh	6,365.88	630.00	815.32	636.10	240.00	249.17	242.44	792.77	68.96

SECOND FIVE YEAR PLAN

New Allocations

WHEN the Second Plan was launched in April 1956 it was fully realized that the success of the Plan would depend on the fulfilment of certain essential conditions. These conditions will be mentioned in detail below. The point is that the conditions were not fulfilled to the extent necessary for the Plan allocations to remain as they were originally determined.

During 1957-58 the problem of foreign exchange specially became so pressing that adjustments in the original plan became necessary.

The outlay on the Plan during the first two years (1956-1958) was Rs. 1,496 crores. For 1958-59 the outlay was estimated at Rs. 600 crores, leaving a balance of Rs. 2,344 crores over the last two years of the Plan, which is a little less than one-half of the five year total.

The resources available for the last two years were placed at Rs. 1,804 crores, thus bringing the five year total to Rs. 4,260 crores.

In the circumstances it became necessary not only to distinguish certain projects which called for substantial amounts of foreign exchange as the 'core' but also the possibility of adjusting allocations for different sectors and to examine afresh the size of the Plan.

The Panel of Economists of the Planning Commission had a general discussion in January 1957 on the problems relating to adjustments in the Plan.

On the whole the Panel was of the view that a Plan of Rs. 4,800 crores should be feasible on the basis of an external assistance of Rs. 700 crores. There is nothing basically over-ambitious in the initial targets. If the Plan has run into difficulties it is because of the inadequacy of effort, mainly organizational that has gone into its implementation. The call on domestic resources cannot be considered out of proportion to the capacity of the economy. In regard to foreign exchange expenditure it is arguable that further commitments can be accepted if deferred payment terms are available and no payments fall due in the four or five years following 1957.

It is necessary however in view of the shortage of resources to secure the maximum economy in the outlay. All postponable expenditure should be abandoned and strictly utilitarian approach adopted. It is vital to ensure the fulfilment of the core of the plan.

In the view of the Planning Commission a pruning of the Plan to the level of the available resources, that is, Rs. 4,260 crores, is not only undesirable, but it also presents very great practical difficulties. The decision to adhere to the financial ceiling of Rs. 4,800 crores in spite of the increased cost of the various projects in the Plan would necessitate some readjustment of allocations in favour of industries and minerals.

If, in view of the resources position, the Plan outlay cannot be raised above Rs. 4,260 crores, the cut on Social Services will be larger. This would be undesirable from the point of view of maintaining a reasonable balance in the structure of Plan allocations.

The Planning Commission is, therefore, of the view that, at a minimum, the level of outlay to be actually incurred must not be allowed to fall below Rs. 4,500 crores.

The National Development Council, while deciding to maintain the Second Plan outlay at Rs. 4,800 crores, suggested that projects and programmes to be undertaken within this ceiling should be divided into two parts.

Part (A) of the Plan involving a total outlay of Rs. 4,500 crores should include, besides projects and programmes directly related to increase in agricultural production, "Core Projects" and projects which have reached an advanced stage and other inescapable schemes.

The remaining schemes should be included in Part (B) of the Plan with a total outlay of Rs. 300 crores.

The broad changes proposed may be summarised as follows:

(Rs. crores)

	Original Allocations	Per cent of total	Revised allocations to accommodate the higher cost	Per cent of total	Outlays now proposed	Per cent of total
Agriculture & Community Development	568	11.8	568	11.8	510	11.8
Irrigation & Power ..	913	19.0	880	17.9	880	18.2
Village and Small Industries ..	200	4.2	200	4.2	160	3.6
Industries & Minerals ..	690	14.4	880	18.4	790	17.5
Transport and Communications ..	1,385	28.9	1,345	28.0	1,340	29.8
Social Services ..	945	19.7	863	18.0	810	18.0
Miscellaneous ..	99	2.0	84	1.7	70	1.6
Total ..	4,800	100.0	4,800	100.0	4,500	100.0

More detailed tables are given below.

The following table sums up the position about outlays for States (including Union Territory). Outlays by State where available are given on page 1277.

(Rs. crores)

	* Original allocation	Per cent	Revised allocations	Per cent	Outlays now proposed	Per cent
Agriculture and Community Development	503	22.4	503	22.8	456	22.3
Irrigation & Power ..	808	36.1	788	35.7	757	37.0

Industries and Minerals	23	1.0	23	1.0	15	0.7
Transport and Communications ..	182	8.1	164	7.4	163	8.0
Social Services ..	549	24.5	542	24.6	512	25.0
Miscellaneous ..	56	2.5	47	2.1	40	1.9
Total ..	2,241	100.0	2,207	100.0	2,048	100.0

CORE PROJECTS

As mentioned before it became necessary early in 1957 to define strict priorities among projects requiring foreign exchange so as to ensure the implementation of certain essential projects which could be regarded as constituting the 'core' of the Plan.

The projects included in the 'core' are the steel plants and the coal and lignite programmes both in the public and private sectors, the programmes of the railways and major ports, and certain selected power projects over and above those already covered by foreign aid.

'Core' projects in the public sector entail a total expenditure during the Plan period of about Rs. 1,900 crores, of which it is expected that about Rs. 1,130 crores will have been incurred during the first three years.

The total foreign exchange cost of all the 'core' projects in both the public and the private sectors is about Rs. 962 crores.

The details of this amount, the foreign exchange expenditure already incurred or committed and the further commitments still required to be made are shown in the following table:—

(Rs. crores)

Projects	Total foreign exchange cost in the second plan	Expenditure incurred or committed as on 31-3-1958	Fresh commitments necessary for completion
Steel			
(a) Public Sector			
(i) Bhilai Steel Plant ..	85.67	80.69	4.99
(ii) Bourkela Steel Plant ..	120.00	107.35	12.65
(iii) Durgapur Steel Plant ..	95.90	90.90	5.00
(iv) Ferroallic plant under the Mysore Iron & Steel expansion programme ..	0.65	0.65	..
(b) Private Sector ..	86.35	74.43	11.92
Coal			
(a) Public Sector			
(i) N. G. D. C. ..	15.0	5.83	9.17
(ii) Singareni collieries ..	8.25	1.85	1.40
(b) Private Sector ..	10.00	3.80	6.70
Washeries ..	7.80	2.50	5.00
Network Lignite Project ..	10.50	6.70	3.80
(Mining part only)			
Railways			
(Schemes requiring foreign exchange) ..	431.63*	256.00*	175.63*
Ports			
(Bombay, Calcutta, Madras and Vishakhapatnam and the Dredger Pool) ..	25.00	8.89	26.11
Power Projects ..	60.40	24.40	36.00
	951.85	655.43	296.37

* This is inclusive of Rs. 6.62 crores of P & T requirements in connection with Railway electrification.

It will be seen that of the further commitments still to be made the requirements of the Railways form by far the largest single item.

The figures in respect of Railways and the ports relate to the entire programmes as included in the Plan. These were originally treated as part of the 'core' without any curtailment, as it was believed that assistance would be forthcoming from the World Bank. But this will not be sufficient to meet in full the outstanding foreign exchange requirements.

As a result of a review it is considered that a saving of about Rs. 30-40 crores of foreign exchange might be possible by postponing some of the less essential projects. Similarly, in the case of the ports, it is hoped that the programmes already undertaken and those which are likely to be taken up with World Bank assistance will enable the tonnage capacity of 33 million tons envisaged in the plan to be achieved.

The foreign exchange requirements of other 'core' projects, amounting in all to Rs. 80.0 crores, will not admit of any reduction without serious repercussions on the projects themselves.

Projects

PUBLIC SECTOR

1. *Steel*: Rourkela Steel Plant; Bhilai Steel Plant; Durgapur Steel Plant; and Mysore Iron & Steel Works (Ferro-silicon Expansion).
2. *Coal and Lignite*:
 - (a) National Coal Development Corporation Scheme. Kathara, Korba (Open cast), Korba (Inclined), Giddi, Saunda, Korba, Existing State Collieries.
 - (b) Singareni Collieries.
 - (c) Coal Washeries.
 - (d) Neyveli Lignite Project (mining part).
3. Railway Development Programme (including the requirements of the Posts and Telegraphs Department in connection with the railway electrification programme):
4. *Ports Development Programme*: Bombay, Calcutta, Madras, Vishakhapatnam, Dredger Pool.
5. *Power Projects*: Korba Thermal Station (Madhya Pradesh).

Khaper-Kheda Akola Thermal Station Extensions (Bombay).

Hirakud Project (II stage) (Orissa).

Lakkavalli (Bhadra) Project (Mysore).

Bakra-Nangal H.E. Project (Punjab and Rajasthan).

Chambal Project (first stage) (M.P. State/Rajasthan).

Rihand Project (Uttar Pradesh).

Tungabhadra H.E. Scheme (Mysore).

Nariamangalam H.E. Scheme (Kerala).

Thermal Stations in Saurashtra region (Bombay).

Ganderbal & Mohra Power Stations (Jammu & Kashmir).

Power Transmission, distribution and extension schemes (sub-stations equipment, conductors, switchgears, underground cables, steel for supports, ground water meters, etc.).

PRIVATE SECTOR

1. *Steel*: Tata Iron & Steel Works, Indian Iron & Steel Works.
2. *Coal*.

REVISED PLAN ALLOCATIONS AND ANTICIPATED OUTLAYS

Details are as follows:

(Rs. crores)

Head of Development	Five-Year Plan Allocations (Revised)			Anticipated outlays for 1956-59			Anticipated outlays for 1956-61

APPRAISAL AND PROSPECTS OF SECOND PLAN

The Planning Commission made a re-appraisal of the Second Plan and its prospects in a memorandum which it submitted to the National Development Council before the latter met in May 1958.

The following is a summary of the Memorandum.

When the Second Plan was launched in 1956 April it was fully realized that the success of the Plan would depend on the fulfilment of certain essential conditions. These were :

- (1) a substantial increase in agricultural production ;
- (2) a steady increase in domestic savings ;
- (3) external assistance for meeting the foreign exchange gap on account of the Plan ;
- (4) maintenance of a stable price level, fair both to producers and consumers ; and
- (5) efficiency of administration and, in particular, the efficient utilisation of assets and resources created under the First and the Second Plans.

These conditions are closely inter-connected and are even more important today than they were when the Plan was drawn up.

BACK-GROUND

The strain on resources, both internal and external, has been felt continuously since the commencement of the Second Five Year Plan. Wholesale prices rose 14 per cent between April 1956 and August 1957. Since then they have come down a little. But the present level, i.e., 106-107 is still high.

The balance of payments deficit over the two years April 1956 to March 1958 was Rs. 821 crores.

These stresses and strains in the system are basically related to the development effort and are expected to continue throughout the plan period.

Outlay on the plan in the first two years was Rs. 1,496 crores ; for 1958-59 it may come to Rs. 980 crores. Thus, over the three years it aggregates to about Rs. 2,456 crores. A little under fifty per cent of the plan outlay will thus remain to be incurred in the two years 1959-61.

The plan outlay of Rs. 2,456 crores for the first three years will, on present expectations, have been financed as follows :—

	(Rs. crores)
Balance from revenues	439
Railways contribution	129
Loans from the public, small savings and other capital receipts	533
External assistance	438
Deficit financing	917
Total	2,456

The resources available for the plan have so far been below expectations. In 1957-58 the budgetary deficit was as high as Rs. 464 crores.

For 1958-59 the budget estimates postulate a considerable improvement in loans and small savings.

Deficit financing is to be reduced by Rs. 250 crores as compared to 1957-58. But this assumes a step-up in external assistance from about Rs. 100 crores in 1957-58 to Rs. 300 crores for 1958-59.

Taxation has been raised substantially since the Plan began.

The five-year yield on the tax measures so far adopted by the Centre will be about Rs. 725 crores. The probable five-year yield of the measures of taxation adopted so far in the States is about Rs. 173 crores. Altogether, additional taxation already adopted should thus bring in approximately Rs. 900 crores over the plan period.

A large part of the tax effort has, however, been absorbed by other demands : defence, non-development expenditure and development expenditure outside the plan. Despite the large tax effort at the Centre the revenue resources available for financing the Centre's plan outlays are expected to show an improvement of only Rs. 45 crores as compared to the plan estimates. In other words, only a negligible contribution has been made towards covering the original gap of Rs. 400 crores in resources.

The States have raised additional taxation which will bring in Rs. 173 crores over the plan period. They will have gained Rs. 160 crores as a result of the Finance Commission's Award plus certain amounts by way of a large share of Central taxation. In spite of this, the balance they are able to find from their revenues for financing the Plan is below the original expectations. Assuming that the States are able to reach their original tax target of Rs. 225 crores, their revenue contribution to the plan will amount probably to Rs. 350 crores as compared to the original expectation of Rs. 370 crores.

Altogether, over the first three years, the budgetary resources of the Centre and of the States will add up to Rs. 1,100 crores as compared to the five-year estimate of Rs. 2,400 crores, which, still leaves a gap of Rs. 400 crores.

DEFICIT FINANCING

The lag in resources has necessitated resort to heavy deficit financing at an early stage in the Plan. At one time the intention was to limit the total to Rs. 900 crores over the five-year period. Now it seems fairly certain that the original figure of Rs. 1,200 crores of deficit financing will have to be restored. In fact, it will be difficult to adhere even to this figure unless measures are taken (a) to raise further resources and (b) to limit plan outlays along the lines suggested below.

A certain amount of latitude in the matter of programme formulation is permissible while the country has large foreign exchange reserves. But this is no longer so.

Between April 1956 and March 1958 the foreign exchange assets of the Reserve Bank came down by Rs. 479 crores.

In addition, the I.M.F. credit of Rs. 95 crores has been used up.

External assistance authorised since the Second Plan began amounts to Rs. 679 crores. Further external assistance of the order of Rs. 600 crores is still necessary for covering the foreign exchange requirements for the rest of the plan period. Even for the core projects in the public sector further commitments of the order of Rs. 296 crores have still to be made.

The present import policy is very tight. This tightness will have to be maintained. But, beyond a point it would be unwise to invest in new construction and installations while failing to make sufficient provision for utilising fully the capacity already built up.

The cost of the Plan has gone up considerably. Nevertheless, the financial ceiling remains at Rs. 4,800 crores.

The Planning Commission has worked out revised allocations corresponding to this financial ceiling.

The acceptance of this ceiling (Rs. 4,800 crores) means a lowering of the physical targets. The problem at this stage, however, is whether the balance of resources required to complete this financial outlay of Rs. 4,800 crores can be found.

The requirements of the last two years of the Plan amount to Rs. 2,344 crores—in fact they may amount to a little more if the shortfalls in plan outlays in 1957-58 and 1958-59 turn out to be somewhat larger than have been allowed for in the estimates presented.

As against these requirements, the present estimates show an availability of not more than Rs. 4,260 crores as the table below will show. This already postulates external assistance at a level of Rs. 300 crores a year as also a better response to public loans and the small savings effort.

RESOURCES

(Rs. crores)

	Likely actuals for the first 3 years of the Plan				Estimates for 1959-60 and 1960-61	Total 1956-61
	1956-57	1957-58	1958-59	Total		
I. Domestic Budgetary Resources						
Balance from current revenues	130	150	150	430	320	759
Railways' contribution	34	45	50	129	121	250
Loans and small savings	200	127	217	544	440	984
Unfunded debt & Miscellaneous Capital receipts	(—) 14	(—) 25	28	(—) 11	40	29
Total	359	297	445	1,101	921	2,022
II. External Assistance	38	100	300	438	600	1,038
III. Deficit Financing	234	464	215	917	283	1,200
IV. Total : Resources Outlay	635	861	960	2,456	1,804	4,260

It would be desirable to ensure that Plan outlay turns out to be somewhat nearer the target of Rs. 4,800 crores. This can be done only to the extent that further resources are raised.

The Planning Commission has suggested that an effort be made along the following lines :—

(Rs. crores)

Additional taxation	100
Loans and small savings	60
Economies in expenditure and collection of arrears of taxes and loans	80
Total	240

The scope for additional taxation at the Centre is very limited. Nevertheless, the Centre should accept a target of Rs. 40 crores of further taxation in the next two years.

The original taxation target for the States was Rs. 225 crores. The measures they have adopted so far add up to Rs. 173 crores. They are thus Rs. 52 crores short of the original target.

It has been suggested to the States to agree to raise Rs. 60 crores by way of additional taxation in the next two years.

As regards public borrowings, very much depends upon the state of the market. The bulk of the additional Rs. 60 crores shown under loans and small savings has to be found by intensifying the small savings drive.

Another Rs. 80 crores will have to be raised through economies in non-Plan expenditure and through speedier collection of over-dues of taxation and loans.

The point to stress is that only if effort along these lines is possible can the Plan outlay be raised to Rs. 4,500 crores (as compared to the estimated resources of Rs. 4,260 crores).

At the same time, no commitments beyond this level of outlay can now be undertaken without resources being in sight.

Economic stability internally and viability on external account—allowing for whatever resources from abroad are forthcoming—are of vital importance at this stage. The fact that foreign exchange reserves have fallen to a low level makes it particularly necessary to limit deficit financing and therefore the total level of plan outlays in consonance with the resources position.

The Planning Commission has worked out a pattern of allocations by major heads of development on the basis that the necessary effort will be made to bring the resources at least up to Rs. 4,500 crores.

If the commitments of the Plan have to be limited as they have to be on the basis of the estimates of resources given above—to Rs. 4,500 crores, there will be a sizeable cut in State Plans, especially in respect of social services. It is only if ways could be found to raise domestic resources beyond the levels postulated that these cuts could be reduced.

Behind the inadequacy of financial resources is the insufficiency of total production and savings. It is most important in this connection to utilise fully the facilities that have already been built up for increasing food production. Success in the physical targets of the Plan is not a question merely of increased allocations; it depends to a great extent on the steps taken at each stage to utilise the new facilities immediately and fully.

EMPLOYMENT, OUTPUT

Employment opportunities do not appear to be expanding sufficiently to absorb the increases in the labour force. This is because the investment effort in the economy is still low relatively to needs.

Steps are being taken to strengthen the employment potential of the Plan at particular points e.g., the scheme recently approved for appointment of 60,000 teachers. But, total investment and employment can be increased only to the extent that more savings are forthcoming.

Referring to output and employment, the Memorandum says it is difficult at this stage to estimate the difference in output and employment that the adjustments mentioned in plan outlays will make to the initial targets, for this depends upon a variety of factors including the success of the food production drive, the levels of investment activity in the private sector, the availability of imports sufficient to sustain a rising level of production, etc.

Broadly speaking, it would appear that the industrial component of the plan—and especially the 'core'—will, it is hoped, come through fairly well. So also the programmes in the field of transport and communications.

In some respects, the development of social services will fall short of the initial expectations and there will be some slowing down on the new irrigation projects.

The development of power will be inadequate relatively to the rapidly growing needs of the economy.

As regards employment, the data available for judging past trends as well as estimating the likely trends hereafter are still far from adequate. On certain calculations made in the Planning Commission, it appears that the implementation of the plan has resulted in the creation of about two million job opportunities outside agriculture in the first two years, and about one million of the labour force should find employment, opportunities in the course of the third year.

It will be recalled that the Plan envisaged additional employment for about 7.9 million outside agriculture and about 1.6 million in agriculture itself.

With the increase in the costs of various projects it was estimated that the employment potential of an outlay of Rs. 4,800 crores in the public sector with private sector outlays more or less according to the plan would come down to about 7 million jobs outside agriculture.

The estimate of such employment opportunities corresponding to an outlay of Rs. 4,500 crores in the public sector is 6.5 million. These estimates are very rough, but they indicate that the investment effort in the economy is still not upto the mark for ensuring employment sufficient to absorb the annual additions to the labour force.

FOOD

As regards the role of food production, the memorandum refers to the various factors that lie behind the inadequacy of resources relatively to the needs of the plan.

The financing scheme accepted at the time the plan was made had a gap of Rs. 400 crores and there have been other demands on the resources both of the Centre and of the States which have added to the strain that was, in any case, expected. The level of investment in the private sector was also high in the early phase of the plan, and the acute stringency that developed in the money market reacted unfavourably on the loan operations of Government.

But, behind the inadequacy of financial resources lies the major limiting factor to developmental effort, viz., the food production. High domestic prices as well as the large import requirements are related in part to the insufficient response of food production to the pressure of demand. It is to the extent that success in this regard can be secured that the rate of investment in the economy—and hence the expansion of employment opportunities—can be stepped up.

Considerable irrigation potential has been built up in the last few years, but the utilisation of this potential has lagged behind. Considerable resources devoted to the plan are not yet bearing fruit. This cannot but limit further effort. The Planning Commission wishes to stress in this context the need for the fullest utilisation of the irrigation facilities that are already available.

ACHIEVEMENT

Over the period 1949-50 to 1956-57 the annual increase in agricultural production came to 2 to 2.5 per cent. This rate of increase was not sufficient to support a large plan of economic development. The results were varied and uneven and, in several cases, they did not reflect adequately the large outlays which had been incurred.

There was not enough concentration of effort on increasing yields per acre in irrigated areas and in areas with assured rainfall. Progress in the utilisation of the irrigation potential created in major and medium irrigation schemes was not satisfactory. Minor irrigation programmes tended to develop into departmental programmes with insufficient public participation. Even in N.E.S. and community project areas, the provisions for minor irrigation was not adequately utilised and programmes were not fully co-ordinated with the Agriculture Departments. It was also pointed out that the crux of the problem of reaching every village and every

family through the community development programme lay in the building up of village institutions—the panchayat and the co-operative—for undertaking village planning.

Following the directives of the Standing Committee of the National Development Council, Programme Administration Advisers of the Planning Commission with officers from the Ministries of Food and Agriculture and Community Development visited nine States and made recommendations relating, in particular, to the question of utilising irrigation facilities. These recommendations stress the following aspects:

- Construction of field channels and other ancillary works needed for irrigation;
- Speeding up localisation of areas to be irrigated from certain projects;
- Organisation of demonstration plots, introduction of appropriate crop patterns and guidance in irrigated cultivation;
- Introduction of legislation for making a compulsory charge on all persons whose lands are eligible for irrigation supplies;
- Arrangements for seed multiplication at the village level;
- Intensification of the campaign for green manuring; and
- Expediting the production of improved seed on farms for which land has already been obtained and speeding up the entire programme for the setting up of seed farms.

Results achieved over the first two years of the Plan fall seriously short of the targets fixed for the plan period in 1956-57 after detailed consultation with the States. Estimates of additional production potential under different categories of agricultural programmes for these two years along with the Plan targets are given in the Statement below:—

Programme	(Lakhs tons)		
	Plan target	Achievement 1956-57	Anticipated achievement 1957-58
Major irrigation	30.2	1.7	2.7
Minor irrigation	18.9	3.0	4.0
Fertilisers and manures	37.7	3.0	7.7
Improved seeds	34.0	1.7	2.0
Land development	9.4	0.9	1.7
Improved agricultural practices	24.7	2.2	5.0
	154.9	13.1	23.1

For 1958-59 it would appear that the increase in production potential may be of the order of 8 million tons.

It has been suggested to the States that they should devise means of improving upon the present estimates for 1958-59 through greater concentration of resources in areas of irrigation facilities and assured rainfall where large increases are possible. This is specially important because for 1957-58, on information at present available, there will be a reduction of over 2 million tons in the output of foodgrains compared with 1956-57.

In regard to seed farms, it is pointed out that against a Plan target of 4,185,343 were established in 1956-57 and 1,094 in 1957-58. In 1957-58 1,416 seed farms were expected to be set up but the number actually established was understood to be 1,044. Completion of the various operations on the seed farms for which land has been obtained is of the utmost importance so that they begin to provide stocks of nuclear seed with the least delay. To expedite the programme, it has been decided that the maximum amount of assistance for purchase of land may be raised from Rs. 500 per acre to Rs. 1,000 per acre.

As between different sectors in the agricultural programmes, it is proposed to allocate larger resources in favour of agricultural production and to reduce somewhat the allocations proposed

in the Plan for animal husbandry, forests and soil conservation and other heads.

The increases contemplated are for completion of distributaries where storage has been established (Rs. 30 crores) and for minor irrigation where it is a genuine people's programme and results are assured, and for agricultural production programmes (Rs. 12 crores).

In 1956-57 the outlay on agricultural production was Rs. 6.4 crores, on minor irrigation Rs. 13.6 crores and on land development Rs. 3.2 crores (total: Rs. 23.2 crores). For 1957-58 the anticipated outlay was respectively Rs. 13.0 crores, Rs. 16.2 crores, Rs. 3.7 crores (total: Rs. 31.9 crores).

IRRIGATION FACILITIES

The lag in the use of irrigation facilities was greater in areas in which existing legislation does not provide for a compulsory charge in respect of lands for which irrigation is available, whether or not the supplies are utilised. It has also been very marked in the case of tube-well irrigation and in respect of certain projects in the south and in the eastern region.

In a number of projects the failure to utilise irrigation facilities has been due to the fact that sufficient attention had not been given to

the construction of distributaries and field channels along with the provision of storage capacity and to such measures as the setting up of demonstration farms, introduction of new crop patterns and assistance to cultivators.

At the end of the First Plan, against a target of 8.5 million acres an irrigation potential of 6.3 million acres was created. The actual area irrigated was only a little over 4 million acres.

In the Second Plan as against a target of additional irrigation from major and medium schemes of 12 million acres, the present estimate is that if the requisite funds are available the additional irrigation achieved would be of the order of 10.4 million acres.

During 1956-57, the additional irrigation achieved was 6,90,000 acres (target: 2 millions) and during 1957-58, the additional irrigation anticipated is 1.11 million acres (target: 2 millions). The estimated irrigation for 1958-59 is 2.03 million acres (target: 2 millions).

It is proposed to expedite the construction of the canal systems and field channels wherever possible in order that the target for utilisation might be raised beyond the level of 10.4 million acres.

All States should organise special investigation units to locate areas requiring irrigation, assess water resources available and the needs of each region and prepare preliminary project reports. They should also determine which areas could best be served by minor irrigation schemes and which areas are best suited for contour bunding and dry farming. So far, nine States have set up investigation units, but it is not known whether programmes on these lines have got fully under way.

POWER PROGRAMME

Under the power development programme, the target of additional capacity for the Second Plan was 3.5 million kW of which 2.9 million kW were to be achieved in the public sector, 300,000 kW in the private sector and 300,000 kW in industrial plants providing for their own generating capacity.

During 1956 and 1957, there was a steadily increasing demand for additional power generation in a number of areas.

The total installed capacity likely to be added in the first three years is 770,000 kW only of which 178,000 kW were added in 1956-57 and 310,000 kW in 1957-58.

According to the present calculations, the actual realisation of benefits within the Plan period from projects in the public sector may be about 2.5 million kW, from private electricity undertakings about 175,000 kW and from industrial establishments providing for their own power 300,000 kW.

Thus, the total installed capacity during the Second Plan is expected to be nearly 3 million kW as against the original target of 3.5 million kW.

Out of a total target of 30,000 miles of transmission and distribution lines, 10,000 miles were constructed during 1956-57 and 1957-58.

The Second Plan envisages the electrification of about 10,000 villages and provided for a total outlay of Rs. 75 crores for this purpose. During the first two years of the Plan, 4,500 villages, were electrified.

Individual Projects

Projects included in core:

1. Korla Thermal station.
2. Kharperkheda - Akola extensions.
3. Hunkud Project - Stage II.
4. Lakkavalli (Bhakra) Project.
5. Transmission and distribution schemes for the proper and full utilisation of the power that may become available on the completion of the projects in progress.
6. Bhakra-Nangal Project.
7. Chambal Project.
8. Bilawal Project.
9. Tungabhadra (Left Bank) Power Station.
10. Narimanpalam H.E. Project.
11. Thermal stations in Saurashtra.
12. Gandherbal & Mohora Power House.

Power projects which are nearing completion and for which most of the foreign exchange required has been committed :

1. Machkund Project (Andhra).
2. Tungabhadra Power Project, Stage 1 (Andhra).
3. Kandla Power Station (Bombay).
4. South Gujarat grid extensions (Bombay).
5. Porlingalkuthu Project (Kerala).
6. Madras Plant extensions (Madras).
7. Periyar Project (Madras).
8. Hirakud, I Stage (Orissa).
9. Projects in Mau, Sohwal, Gorakhpur, Manipuri (U.P.).
10. Development of thermal stations (Rajasthan).
11. Allahabad thermal station (Private License) (U.P.).
12. Thermal station attached to the Coke-oven plant (West Bengal).

Power projects which have already been assured of external assistance :

1. Umtru Project (Assam).
2. Mayurakshi Project (Bengal).
3. Ramagundam Thermal Scheme (Andhra).
4. D.V.C. Projects (Maithon, Panchet Hill, Bokaro IV unit, Durgapur).
5. Koyna (Bombay).
6. Kundah (Madras).
7. Delhi Thermal extensions.
8. Tatas Trombay Thermal Station.
9. Neyveli Thermal Station (Madras).
10. Thermal Station of HISCO (W. Bengal).

VILLAGE AND SMALL INDUSTRIES

As compared to a total provision of Rs. 50 crores (inclusive of Rs. 20 crores financed from the proceeds of the Handloom Cess) in the First Plan, the Second Plan provided Rs. 200 crores for village and small industries programmes. This includes Rs. 36.5 crores for handloom, Rs. 46 crores for small scale industries, Rs. 15 crores for industrial estates, Rs. 9 crores for handicrafts and Rs. 65 crores for khadi and village industries. The aim of the programmes is to build up a stable and efficient decentralised sector of industry which would provide increasing opportunities of employment and at the same time ensure an increase in the production of consumer goods especially those in local demand.

According to the new textile targets which were fixed in June 1956, cloth production was to be raised from 6,700 million yards to 8,400 million yards. Of the additional quantity, 1,000 million yards were allocated to the handloom industry, including 300 million yards to be produced from Ambar yarn and 700 million yards to be produced from mill yarn, and 200 million yards were to be obtained through the installation of 35,000 powerlooms in the handloom sector during the two years 1956-58. The target for handloom production from Ambar yarn was later revised to 150 million yards, each year's programme being considered with reference to the results achieved.

During 1956-57, handloom production amounted to 1,600 million yards, i.e., 130 million yards above that in 1955-56. In 1957-58, the estimated production is about 1,650 million yards. The progress to date falls considerably short of what is required to achieve the target. Up to the end of 1957, the total quantity of cloth produced from Ambar yarn was only about 7.0 million yards and it does not appear that even the revised target of 150 million yards will be achieved. The production of traditional khadi has been increasing at the rate of about 5 million yards per annum above the base level of about 35 million yards. No specific target was fixed for khadi production. The achievement in regard to the installation of powerlooms has so far been insignificant.

Out of 62 sanctioned industrial estates, 11 had been completed in the first two years and another 19 are expected to be completed in 1958-59.

For providing technical and marketing advice to small industries, 4 regional Small Industries Service Institutes, 12 major Institutes, 2 branch Institutes and 27 Extension Centres had been set up by the end of 1957-58.

One more regional Institute, two major Institutes and another 33 Extension Centres will be set up during the course of 1958-59.

The total expenditure on village and small industries during the first two years of the Plan has amounted to about Rs. 59 crores and it is expected that by the end of the third year outlay in this sector will amount to Rs. 91 crores. Khadi and village industries account for about two-fifths of the expenditure, small scale industries and industrial estates for more than a quarter and handloom and powerlooms for about a fifth.

For the handloom programme substantially larger annual outlays than were provided in the first three years would be needed if a target of 700 million yards of additional production from mill yarn is to be achieved. The Reserve Bank of India would in future meet most of the requirements of the handloom industry for working capital and to that extent the outlay from the cess fund would diminish.

The programme for the installation of powerlooms in the handloom sector has made a halting start and it does not appear that the progress in the coming years will be rapid.

The provision for small scale industries is likely to be utilised almost fully. Allocations to some of the States where the administrative and technical staffs have been strengthened for implementing the small industries schemes may have to be increased in the last two years.

Commitments in respect of the industrial estates are being rapidly made by the States within the existing ceilings but the funds required for completing all the approved estates within the Second Plan period may not be available and quite a few estates may have to be carried over to the Third Plan period.

Expenditure on handicrafts and village industries will show a fairly large shortfall.

On the other hand, expenditure on traditional khadi might well exceed the allocation and the total expenditure on Ambar Khadi may more than make up for the shortfall under village industries.

Allocations for agriculture and coir are likely to be utilised to the extent of more than 80 per cent.

LARGE-SCALE INDUSTRY

The programme of industrial development in the Second Plan envisages an investment of the order of Rs. 1,064 crores in large scale industries in the public and private sectors. This is about 3½ times the investment of Rs. 293 crores realised in the First Plan. In terms of industrial production, the increase proposed in the Second Plan is about 49 per cent as compared to 38 per cent in the First Plan.

The expansion of basic industries like iron and steel, heavy engineering and machine building and heavy chemicals including nitrogenous fertilisers has been given the highest priority in the industrial programme for the Second Plan.

Thus the development of capital and producer goods industries accounts for over 80 per cent of the total investment on industries in the Second Plan.

Next in importance to the expansion of these industries is the modernisation and re-equipment of major existing industries such as cotton and jute textiles and sugar. The Plan contemplates an outlay of Rs. 150 crores on this account.

PUBLIC SECTOR

For direct investment in industrial projects in the public sector, the Plan allocated a sum of Rs. 524 crores. In addition, an allotment of Rs. 60 to 65 crores was made in favour of the National Industrial Development Corporation, of which Rs. 35 crores were to be set apart for new basic and heavy industries to be established after investigation by the Corporation. In certain cases, the provisions made were not adequate and had subsequently to be revised upwards. Thus, for the steel plants, the Plan had provided Rs. 350 crores, but the final figures for the outlay required was Rs. 510 crores. The foreign exchange required for the steel plants, which had been initially reckoned at about Rs. 229 crores, was placed at Rs. 302 crores.

During the first three years of the Plan, the total outlay on industrial projects in the public sector (including schemes relating to scientific and industrial research) is estimated to be about Rs. 430 crores, of which schemes in the States account for about Rs. 9 crores.

During the first two years of the Plan, against budget provisions amounting to about Rs. 267 crores, the expenditure incurred was about Rs. 240 crores.

By 1957-58, a number of industrial schemes begun during the First Plan had been completed. These included the DDT plant at Alwaye, expansion of the DIT plant at Delhi, expansion of Hindustan Antibiotics, the Porcelain Insulators scheme at the Government Porcelain Factory in Mysore, Government Soap Factory, Bangalore, the spin-pipe plant of the Mysore Iron & Steel Works, the Bihar Superphosphate Factory and the provision of balancing equipment in the NEPA plant.

As a consequence of the completion of these schemes, the capacity for the manufacture of DDT rose by 2,100 tons, of penicillin by 19.2 million mega units and of superphosphate by 33,000 tons. NEPA achieved its full capacity of 30,000 tons of newsprint per annum and capacity for the manufacture of 2,500 tons of insulators was established.

The total outlay on these schemes during the Second Plan was about Rs. 8 crores.

During 1958-59, the following industrial schemes are expected to be completed :—

Project	New or additional capacity
Expansion of Sindri Fertiliser Factory ..	47,000 tons of nitrogen.
First blast furnaces at Bhilai and Rourkela ..	700,000 tons per annum of pig iron forming the first phase.
Durgapur Coke-oven project of West Bengal ..	285,000 tons of hard coke.
Hindustan Machine Tools, stepping up of production of milling machines and lathes ..	400 lathes, milling and drilling machines (ultimate capacity).
Hindustan Cables Co-axial cables project ..	580 miles of cables and 300 miles of co-axial cables.

These projects entail a total cost in the Second Plan of about Rs. 21 crores and foreign exchange expenditure of over Rs. 12 crores.

This is exclusive of the investment on the blast furnaces at Bhilai and Rourkela.

The following industrial projects are expected to be fully implemented by the end of the Second Plan :—

Project	New or additional capacity
Bhilai, Rourkela and Durgapur Steel Works *	2.2 million tons of finished steel 600,000 tons of pig iron.
Nangal Fertiliser Project	70,000 tons of fixed nitrogen.
Minimax part of the lignite project	3.5 million tons of lignite.
Streptomycin Project under expansion of Hindustan Antibiotics	45,000 Kg. of Streptomycin.
Ferro-silicon expansion under Mysore Iron and Steel Works	15,000 tons of ferro-silicon.
Processin Insulators Project of Bihar	2,000 tons of insulators.
Hindustan Shipyard	Expansion of capacity to build 8 to 12 ships per year.
U.P. Government Cement Factory—expansion	231,000 tons of cement.

* A few shops, e.g. wheel tyre and axle plant expected to be completed in the middle of 1961

The total cost of these projects during the Second Plan is estimated to be about Rs. 558 crores and foreign exchange expenditure at about Rs. 324 crores.

FOREIGN EXCHANGE

Projects entailing a total cost of Rs. 169 crores and foreign exchange cost of Rs. 107 crores are expected to be completed during the early years of the Third Five-Year Plan. These include the following :—

Foundry/Forge Project; Heavy Machinery Project; Mining Machinery Project; Remaining part of expansion of Mysore Iron & Steel Works steel-melting shop and finishing mill, etc.; Thermal power plant and Fertiliser Factory at Neyveli; Fertiliser Factory, Rourkela; Optical glass project; First phase of the Heavy Electrical Project; Raw film project (NIDC); Inter-mediate for dyestuffs and drugs (NIDC); Assam Oil Refinery; Alloy & Tool Steel Plant.

On account of the shortage of foreign exchange and larger commitments of rupee expenditure for several other projects, the following schemes are likely to be deferred or substantially slowed down :—

Carbonised briquettes under the Lignite Project; Bank Note Project; Marine Diesel Engine Project under Hindustan Shipyard; Hindustan Shipyard—Dry Dock; Newsprint from Bagasse (NIDC); Synthetic Rubber (NIDC); Structural, plate and vessel shop (NIDC); Heavy Machine Tools Project (NIDC); Tungsten Carbide (NIDC); Salem Aluminium Plant; other projects of State Governments.

Together they involve investment of about Rs. 64 crores and foreign exchange expenditure of about Rs. 40 crores.

From the foregoing review, it will be seen that the completion of a number of industrial projects in the public sector is likely to be delayed and the benefits from investments on these projects may not materialise before the early years of the Third Plan.

On account of this, there will be shortfalls in the targets for certain industries, e.g., fertilizers, heavy castings and forgings.

More than any other factor, the foreign exchange difficulties have been responsible for the slowing down of some of these projects.

Negotiations for obtaining machinery and equipment on deferred payment or for securing suitable credit facilities from abroad have inevitably led to delays in embarking on projects which could otherwise have been implemented more expeditiously.

PRIVATE SECTOR

The Second Five Year Plan envisaged a total investment of Rs. 685 crores in industries in the private sector. Of this, Rs. 535 crores were to be new investment and Rs. 150 crores were to be for replacements.

The total foreign exchange expenditure was reckoned to be about Rs. 320 crores, of which Rs. 250 crores were for new investment.

After the formulation of the Plan, targets in certain industries were revised upwards, notably for rayon, electrical equipment and in the textile industry.

Cost of construction and import prices of capital goods also increased.

Consequently, the total investment required to fulfil programmes approved for the private sector is estimated to have increased to about Rs. 840 crores in the place of Rs. 685 crores and the foreign exchange cost also went up by about Rs. 120 crores.

The studies made so far indicate that in the first year of the Plan, the overall investment was between Rs. 135 and Rs. 140 crores and will probably be of about the same order during the second year.

There was no difficulty in finding the resources for this investment in 1956-57 as market conditions were favourable in 1955 and 1956 and a considerable increase in raisings from the market was achieved. Further, the Industrial Finance Corporation increased substantially the volume

of loans disbursed (Rs. 10.4 crores in 1956-57 as against Rs. 2.2 crores in 1955-56) and substantial foreign capital loans flowed in for the steel expansion programmes and the Caltex Refinery. It is, however, open to question whether in face of the measures being taken by Government to mobilise resources for expenditure in the public sector, the private sector will be able to raise funds so readily in future.

Apart from the overall provision of funds, there is the difficulty of foreign exchange. Considerable foreign exchange commitments were made by the private sector before the first year of the Plan had expired, but with the strict rationing of foreign exchange which had to be introduced since early 1957, the release of foreign exchange for new investment by the private sector has now been reduced to a mere trickle and is likely to continue at a low level.

Another factor which is likely to retard progress is the shortage of power that will probably develop in certain regions owing to the slowing down of power projects on account of foreign exchange difficulties.

In all these circumstances, the industrial programmes of the private sector may not be carried out in full.

Here and there, private enterprise may be able to cover its foreign exchange needs by securing direct inflow of foreign capital.

Further in the case of certain industries in the private sector, e.g., the automobile, heavy structural, machine tools, cement, chemical and cotton and jute textile industries, some assistance will be available from the loans recently negotiated in the U.S.A.

INDIVIDUAL INDUSTRIES

In the following paragraphs the levels of capacity which seem likely to be achieved in different groups of industries are briefly set out. The bulk of the foreign exchange required for achieving these levels has already been arranged and only some relatively small additional amounts would be required most of which in one way or another seems likely to be forthcoming.

Metallurgical Industries.—The position in regard to iron and steel, aluminium and ferro-manganese is set out in the following table :—

Industry	Unit	Installed capacity		Capacity likely in 1960-61	Further foreign exchange needed (Rs. crores)	Further foreign exchange needed (over & above fig. in col. 6) for achieving Plan targets
		Plan target	Capacity (at end of 1957)			
1	2	3	4	5	6	7
Iron & Steel (saleable steel)	Mill tons	2.3	1.3	2.3	Nil	Nil
Aluminium	Tons.	30,000	7,500	20,000	1.50**	6.5
Ferro-Manganese	Tons.	1,70,000	12,000	1,14,000	1.25	1.25 to 1.5

** Likely to be provided by Aluminium Ltd., Canada.

The anticipated shortfall of 10,000 tons in aluminium can be made up only if the NIDC scheme or some other similar scheme is proceeded with for which no plans have yet been finalised.

As regards ferro-manganese, the domestic requirements are estimated to be 60,000 tons so that with a capacity of about 114,000 tons

there would be approximately 54,000 tons available for export.

The question whether the short-fall in capacity as compared with the target should be made up will have to be considered in the light of possibilities of exporting more than 50,000 tons of this material.

Heavy Chemical, Fertiliser and Allied Industries.—The position relating to 11 industries falling in this group is set out in the following table :—

Industry	Unit	Installed capacity		Capacity likely in 1960-61	Further foreign exchange needed (Rs. crores)	Further foreign exchange needed (over & above fig. in col. 6) for achieving Plan targets (Rs. crores)
		Plan target	Present capacity (at end of 1957)			
1	2	3	4	5	6	7
1. Superphosphate (in terms of P_2O_5) ..	'000 tons	120.0	50	80 (plus 3,700 tons of Ammonium phosphate)	0.4	2.5 to 3.0
2. Sulphuric Acid ..	"	500	252	420	0.3	0.5
3. Soda Ash ..	"	253	108	320	1.0	Nil
4. Caustic Soda ..	"	150	45	124	Neg	1.25
5. Industrial explosives	"	5	Nil	5	Neg	Nil
6. Petroleum refining	Million tons crude	4.3	4.3	4.3	Neg.	Nil
7. Plastics, synthetic moulding powders ..	tons.	12,810	3,730	13,200	0.15	Nil
8. Cement @ ..	Mill. tons.	16.0*	6.63	9.3	1.8	33.0
9. Refractories ..	'000 tons	1,000 (1,250)†	498	820	0.5	2.0
10. Rubber Manufacture (automobile tyres)	'000 Nos.	1,450	1,062	1,774	Neg.	Nil
11. Dyestuffs & Intermediates — Finished dyes ..	Mill. tons	27.0	11.7	12.0	Neg.	1.0

* The figures given against this include capacities of the cement factories of the U.P. Government and of the Mysore Iron & Steel Works.

* Inclusive of the capacity under the public sector, the target approved by Cabinet is 16.0 million tons under the Second Plan. For its achievement, imports of machinery were estimated at Rs. 40 crores.

† Revised figure.

The Plan targets should be achieved in the case of industrial explosives, petroleum refining, and should be exceeded in the case of soda ash, plastics and rubber manufactures.

A target of 120,000 tons of P_2O_5 is given in the Plan for all types of phosphatic fertilisers.

The balance over and above the 83,000 tons of superphosphate was intended to be obtained in the form of alternative phosphatic fertilisers like diacid phosphate which provides an outlet for the surplus chlorine from caustic soda plants.

Not much progress seems likely in this field partly because there is at present no surplus chlorine available. But priority must continue to be given to the production of phosphatic fertilisers which do away with the need of imported sulphur as a raw material.

The manufacture of a single superphosphate makes heavy demands on foreign exchange for the import both of sulphur and of rock phosphate.

Among miscellaneous chemicals for which programmes of development were formulated under the Plan, the targets of capacity are expected to be achieved in the case of calcium carbide and potassium chlorate.

The facilities installed for the manufacture of sodium hydrosulphite are expected to fall below the target.

The shortfall in capacity in the case of the cement industry will be fairly large according to the data given in the table, but it is possible that with assistance from the U.S. Economic Development Fund a capacity of about 11 million tons could be achieved by taking up some fresh schemes.

Also, the recent increase in price, shortage of steel and slackening of constructional activity due to monetary difficulties have cumulatively had the effect of slowing down the off-take of cement, and production of the order of 10-11 million tons may be more or less sufficient for the country's immediate requirements.

In case of refractories, the capacity expected to be achieved seems likely to fall short of the revised capacity target by 430,000 tons.

Progress on some projects has been held up in this vital sector on account of delays in the acquisition of leases for raw materials and sanctions for this purpose from some State Governments.

Mechanical Engineering Industries.—The levels of development expected to be achieved under 11 industries in this group are set out in the table below :—

Industry	Unit	Installed capacity		Capacity likely in 1960-61	Further Foreign exchange needed for achieving capacity under (5) (Rs. crores)	Further foreign exchange needed (over and above fig. in Col. 6) for achieving targets (Rs. crores)
		Plan target	Capacity (at end of 1957)			
1	2	3	4	5	6	7
1. Cotton textile machinery ..	Ra. Crores	17.00	7.5	10.0	1.5	2.0
2. Jute textile machinery ..	Ra. Crores	2.5	0.4	1.0	0.10	..
3. Cement machinery ..	Ra. Crores	2.0	0.5	0.75	0.25	0.75
4. Automobiles ..	Nos.	57,000	36,000	60,000 (about 40 per cent indigenous content)	Neg.	12.00 (about 80 per cent indigenous content of vehicles)
5. Sugar machinery ..	Ra. Crores	2.5	0.4	2.5	1.0	Neg.
6. Paper machinery ..	Ra. Crores	4.0	Nil	Nil	Nil	2.0
7. Locomotives ..	Nos.	100	67	8 per month by 1968	0.5	Nil
8. Wagons	Nos.	25,000	N.A.	25,000	0.6	4.0
9. Structural fabrication ..	'000 tons	500	143	250	2.8	..
10. Bicycles	'000 Nos.	806	627	1,350	0.3	Neg.
11. Diesel Engines (50 HP & above)	'000 H.P.	20 to 30	Nil	26	Nil	Neg.

Most of the programmes for the manufacture of machinery are likely to fall behind schedule and, in the case of cement machinery, the plans of production formulated by A.C.C. in collaboration with certain U.K. firms have received a set-back and may not be undertaken at all during the current plan period.

The capacity for structural fabrication is also likely to fall substantially short of the target, the shortage being particularly marked in respect of medium and heavy structurals.

It was envisaged that the industrial machinery and other engineering projects under the Second Plan would obtain their requirements of heavy castings and forgings from the central foundry and forge shops set up by NIDC.

The foundry/forge expected to be established by NIDC will, however, be integrated with the

heavy machinery plant proposed to be built with U.S.S.R. assistance.

It is now hoped that the needs of the machinery industries in the private sector will be met to some extent by the expansion of existing foundries.

The automobile and ancillary industries will require about Rs. 12 crores of foreign exchange for the import of equipment for the implementation of their phased manufacturing programme over and above the import licences of Rs. 5 crores for capital goods which have already been issued. It is hoped that some of the requirements for the import of components will be met from U.S. Aid.

Electrical Engineering Industries.— In several of the industries falling under this group the original plan targets were revised in 1956-57. Attention is drawn to the revised targets mentioned in brackets in the table below :—

Industry	Unit	Installed Capacity		Capacity likely to be achieved in '60-61	Further foreign exchange needed (over and above figure in Col. 6) for achieving capacity under (5)	Further foreign exchange needed (over and above figure in Col. 6) for achieving targets under col 3
		Plan target (revised figures in brackets)	Capacity (at end of 1957)			
1	2	3	4	5	6	7
Transformers	'000 KVA	1,500 (2,200)	934	1,465	0.10	1.0
Motors	'000 HP	600 (1,200)	339	736	0.10	1.5
Cables & Wires						
ACSR	Ton	21,570 (30,000)	13,370	23,600	0.13	1.5
VIR & Plastic coated ..	Mill. yds.	334 (500 to 600)	157	242	0.20	
Paper Insulated Power	Miles	784 (1,500 to 1,800)	Nil	1,104	Neg.	
Radio receivers ..	'000 Nos	213 (300)	213	300	Neg.	Neg.

It will be noted that in almost all cases the targets originally envisaged will be reached or substantially exceeded on the basis of import licences for capital goods already approved.

It is necessary to bear another consideration in mind in taking a view on further developments in this field. The scarce foreign exchange might

justifiably be diverted to the installation of facilities for producing electrical steel sheets, electrolytic grade aluminium and electrolytic copper so that a larger measure of self-sufficiency would be achieved by these industries at the levels of capacity to be reached by 1960-61.

Consumer Goods Industries.

Industry	Unit	Installed Capacity		Capacity likely to be achieved in '60-61	Further foreign exchange needed for achieving capacity under Col. 5 (Rs. crores)	Further foreign exchange needed (over and above figure in Col. 6) for achieving targets under Col. 5 (Rs. crores)
		Plan target (revised figures in brackets)	Capacity (at end of 1957)			
1	2	3	4	5	6	7
1. Sugar	'000 tons	2,500	2,010	2,250	Neg.	10.0
2. Cotton Textiles						
(i) Spindlage ..	Mill. Nos.	13.621 (14.150)	12.6	14.15	15.00	..
(ii) Loomage ..	'000 Nos.	208 (221)	..	221		
3. Paper and Paper-board	'000 tons	450	252	410	1.0	5.0
4. Glass	'000 tons	335	295	343	0.2	..
5. Rayon						
(i) Filament ..	Mill. lbs.	68.0 (100.0)	34.0	76.8	1.6	10.0
(ii) Staple fibre ..	'000 tons	33.0	32.0	40.0	Neg.	
(iii) Chemical Pulp ..	'000 tons	30.0	Nil	30.0		
6. Paints and varnishes	'000 tons	65.0	65.0	65.0
7. Vanaspathi ..	'000 tons	445	No increase	400
8. Vegetable Oil solvent extraction ..	'000 tons	64	17	58	0.5	0.10

The targets for the cotton textile industry were revised after the publication of the Plan when the decision was taken by Government to license a further 2.1 million spindles and 18,000 automatic looms. The new investment required in this field was thereby raised to Rs. 60 crores as against Rs. 30 crores set out in the Plan. Licences have been issued for all this additional spindleage.

The capacity likely to be achieved in the sugar industry by 1960-61 on the basis of schemes in progress is estimated at 2.25 million tons. The further foreign exchange required for achieving this capacity is negligible.

The paper industry could achieve a capacity of 410,000 tons with the sanction of about Rs. 1.0 crore of additional foreign exchange. This capacity falls short of the target of 450,000 tons, but it may be sufficient to achieve the production target of 350,000 tons.

The rayon industry including nylon is likely to expand its capacity to about 77.0 million lbs., which is in excess of the original target. This overall capacity includes about 4.0 million lbs. of rayon type cord filament and 0.48 million lbs. of nylon yarn, part of which is expected to cater to the needs of the fishing industry for modern nets.

Foreign exchange has also been released for plant and machinery for the establishment of a 30,000 ton per year dissolving pulp plant which will reduce partially the dependence of the rayon and staple fibre industry on an imported raw material.

The modernisation programmes of the cotton and jute textile industries are an important feature of the industrial plan of the private sector.

Stress was also laid in the Plan on the large arrears of replacement to be made good in the sugar industry which were estimated at about Rs. 50 crores.

Apart from these and the steel industry, where investments on modernisation were included in the new investment programmes, the funds required for replacements in other sectors of industry were not considered to be very large.

It is estimated that about Rs. 35 crores worth of licences for import of machinery for the modernisation programmes of the cotton and jute textile industry will have been sanctioned by the close of the second year of the Plan. The foreign exchange sanctioned for similar programmes of the sugar industry does not appear to be very large. If the original estimate of the overall foreign exchange requirements of the replacement programmes is correct, a balance of about Rs. 35 crores more might still be required.

It is difficult to say to what extent this would be forthcoming as it is largely dependent, especially in the case of the cotton and jute textile industries, on the extent to which the U.S.A. aid and Japanese credit can be utilised for this purpose.

SUMMING UP

It may be useful to attempt to summarise the main conclusions which emerge from the foregoing data regarding the private sector :

It is estimated that with a further release of foreign exchange of about Rs. 32 crores in all, the capacity targets would be achieved. It seems probable that with small releases of foreign exchange over the next two years coupled with credits that may be available from U.S.A. and Japan for some of these industries the bulk of Rs. 32 crores will be found. A further sum of about Rs. 100 crores of foreign exchange will be required to achieve the Plan targets, and at present there is no clear prospect of additional foreign exchange of this order becoming available.

The achievements of the capacity targets would mean:

- (1) There will be a substantial shortfall as against the original targets of capacity in the case of aluminium, ferro-manganese and caustic soda.
- (2) The original target of capacity for heavy chemicals (some miscellaneous chemicals and caustic soda excluded) will be substantially achieved but there will be appreciable shortfalls in the case of cement and dyestuffs and relatively smaller shortfalls under refractories.
- (3) In the field of engineering industries, there will be shortfalls in respect of structural fabrication and in respect of all types of machinery, except sugar machinery, but the targets for locomotives, wagons and bicycles will be achieved.

In the case of automobiles, the manufacturing programme will considerably lag behind the schedule in the achievement of the target of 80 per cent self-sufficiency.

(4) The original targets of capacity in the field of electrical engineering industries will be achieved and even exceeded in certain lines, but some shortfalls in respect of VIR and plastic cables is indicated.

(5) Targets of capacity for consumer goods industries will be achieved except in the case of paper and newspaper, rayon filament and sugar. The original target for the rayon industry will, however, be exceeded and in the case of sugar the production target should be achieved.

On an overall view, it can be very roughly said that about 70-75 per cent of the original targets of capacity would be achieved.

The modernisation and replacement programmes will not be carried out in full unless further foreign exchange of the order of Rs. 35 crores is made available. It cannot at present be said whether this will be forthcoming and whether the private sector will be able to put up the required resources particularly if there is a curtailment of the quantum of assistance which it was proposed should be provided by the

NIDC for the rehabilitation of the cotton and jute textile industries.

The total investment required for the achievement of the capacities shown in Column 5 of the foregoing statements would amount to about Rs. 440-450 crores.

If the rest of the manufacturing industries in the organised sector are also taken into consideration, the overall investment which seems likely to be achieved in the light of schemes in progress and substantially covered by import licences would be higher perhaps by about Rs. 30-40 crores. This would bring the total of new investment to about Rs. 475 crores of which the foreign exchange element would be of the order of Rs. 285 crores. Including about Rs. 100 crores expected to be invested in the modernisation and replacement programmes, based on expected supplies of domestic machinery for this purpose and the import licences so far granted, the overall investment in the organised industrial sector will add up to about Rs. 575 crores as compared to Rs. 685 crores envisaged in the Plan.

It is considered not improbable that investment on this scale will actually be achieved.

INDUSTRIAL PROJECTS IN THE PUBLIC SECTOR

Item	Revised Plan Provision	Revised Foreign Exchange	Progress of Expenditure			Total for 3 years 1956-59

MINERAL RESOURCES

The main projects in the Second Five-Year Plan for the development of mineral resources are the coal production programme, coal washeries, oil exploration and surveys and investigations by the Geological Survey of India and Indian Bureau of Mines. The Plan provided Rs. 72.5 crores for these and related programmes.

The total foreign exchange expenditure on account of the mineral development programmes is of the order of Rs. 39.6 crores.

Coal production in 1955-56 amounted to 38 million tons and it was proposed to raise it by 22 million tons to 60 million tons. The public sector was to contribute 12 million tons of this additional production and the private sector 10 million tons. The programme in both these sectors is included in the core of the plan.

The programme of the public sector was roughly estimated to involve an outlay of Rs. 60 crores including Rs. 12 crores for housing, against which the Plan initially provided Rs. 40 crores.

The first two years of the Plan were taken up largely in work of a preparatory character, such

as detailed prospecting of selected areas, preparation of project reports, acquisition of unworked areas of old coal leases, placing orders for equipment, etc.

A total expenditure of about Rs. 12 crores is expected to be incurred in the first three years of the Plan.

During 1956-57, coal production increased by about 1.84 million tons, of which the existing State Collieries contributed 0.2 million tons. The target of additional production for 1957-58 was about 3.2 million tons. During the first eleven months of 1957-58, the average monthly production is equivalent to an annual production of 43.3 million tons—representing an increase of about 3 million tons over the level of production in 1956-57.

On the basis of present approved programmes the Planning Commission estimates that the public sector will contribute about 8.5 million tons of additional production in the last year of the Plan. The private sector seems likely to achieve its target of 10 million tons and is likely to exceed it as recently it has been agreed that as a cushion against possible shortfalls

elsewhere this sector should be permitted to raise an extra 1.4 million tons in the Central India Coalfields.

Over the Plan period as a whole in terms of the existing programmes, it appears that there may be a shortfall of 3 to 4 million tons in coal production against the target of 60 million tons.

With a view to conserving metallurgical coal, the Plan provided for the setting up of four coal washeries. The coal washing plant at Kargali is expected to be completed and brought into commission by about May 1968 and the remaining washeries are expected to be functioning before the end of the Plan period.

Oil exploration has been in progress in different areas since the beginning of the Second Plan. Over the period 1956-59 about Rs. 7 crores are expected to be spent.

Work has also been in progress in the West Bengal basin under the Indo-Banque Agreement.

A decision has recently been taken to form a Rupee Company in partnership with the Burmah Oil Company for exploitation of the Mahoratiya oil field and for construction and operation of a pipe line.

For processing this crude oil, two refineries are proposed to be set up in the public sector. The construction of the pipe line and the establishment of the refineries is to be taken up in two stages. In the first stage, a pipe line will be laid from Nahorkatiya to Gauhati where a refinery with a capacity of about 0.75 million tons is to be established and during the second stage, the pipe line will be extended to Barauni where a refinery with a capacity of about 1.5 to 2.0 million tons will be set up.

The Rupee Company (Government's share thereof) and the refinery at Gauhati are expected to involve an outlay of Rs. 24 crores during the current plan period.

Fairly good progress has been made in the programme for coal prospecting while the progress in the programmes of the expansion of the Geological Survey of India and the Indian Bureau of Mines has been somewhat slow with the result that surveys and investigations have not proceeded as rapidly as was expected.

On present indications, the outlay on the development of mineral resources during the Second Plan is expected to be about Rs. 85 crores.

RAILWAYS

The total provision for railways in the Second Plan is Rs. 1,125 crores including Rs. 225 crores on account of depreciation. The foreign exchange element of the programme is estimated at Rs. 425 crores.

Though it was estimated that the additional freight traffic by the last year of the Second Plan might amount to about 61 million tons, bringing the total traffic to be carried to 181 million tons, the Plan provides for moving only 42 million tons of additional freight traffic.

The Plan also provides for an increase of 3 per cent per annum in passenger traffic. It was not expected that this provision would help to relieve overcrowding.

The programmes drawn up within the provision of Rs. 1,125 crores are now estimated to cost Rs. 100 crores more than this sum owing to a rise in prices. It is not, however, possible to raise the existing provision of Rs. 1,125 crores and so, some of the projects in the Railway Plan may have to be postponed on this account and also

because of foreign exchange difficulties. Some of the projects which are envisaged for postponement are as follows:— Electrification schemes connected with Tambaram-Villupuram section and the Saldah Division in the Calcutta area; Metro Gauge Coach Factory; Integral Coach Factory furnishing unit; New Line between Guna and Ujjain.

The Railway Board have also agreed to put forward proposals for saving Rs. 48 crores in foreign exchange.

The target in respect of passenger traffic, viz. provision for an increase of 3 per cent per annum is also likely to be fulfilled. However, the percentage increase in passenger traffic in 1956-57 over 1955-56 was as much as 6.7. If such a trend continues the problem of overcrowding will get worse.

The total Plan provision for railways, the estimated outlay during the first 3 years and the estimate of expenditure in the last two years of the Plan are shown below:—

(Rs. Crores)

Item	Plan provision	Expenditure 1956-57	Expenditure 1957-58 (R.E.)	Budget provision 1958-59	Estimated Expenditure 1956-59	Estimate 1959-61	Total for 1956-61
Railways..	900.00*	134.00	130.00	215.00	539.00	357.50	896.50

* Excludes Rs. 225 crores to be available from the Railway Depreciation Fund. The Plan provision of Rs. 900 crores includes Rs. 3.5 crores for Vizag Port but the expenditure figures do not include anything on account of Vizag. The administrative control of the Vizag Port was transferred from the Ministry of Railways to the Ministry of Transport on Oct. 1, 1956.

SHIPPING

A provision of Rs. 45 crores was made for shipping in the Second Plan including Rs. 3 crores to meet the orders placed during the First Plan period. The entire amount has already been committed and the tonnage likely to be acquired as a result of these commitments is only about 1,80,000 GRT against a Plan target of 3,00,000 GRT, including 20,000 GRT for

replacement of obsolete ships.

To reach the target an additional sum of about Rs. 45 crores would be required.

Recently it has been agreed to set up a Shipping Development Fund for financing the acquisition of additional tonnage in the remaining Plan period. This fund will be made of (a) Rs. 7 crores which are expected to be available from the repayments of loans (including interest)

already advanced to the Shipping Companies; and (b) annual contributions from General Revenues. It is not certain, however, that the contributions will be sufficient to enable the target laid down in the Plan to be reached.

The following table shows the Plan provision for Shipping, the estimated outlay in the first 3 years of the Plan period and the likely expenditure in the last two years of the Plan:—

(Rs. crores)

Item	Plan provision	Expenditure 1956-57	Expenditure 1957-58 (R.E.)	Budget provision 1958-59	Estimated Expenditure 1956-59	Estimate 1959-61	Total for 1956-61
Shipping ..	45.00*	8.97	9.43	9.85	28.28	26.00	54.28

* Excludes provision for Sailing Vessels Industry, Marine and Naval Engineering Colleges and Andaman Shipping.

PORTS

A provision of Rs. 43.5 crores was made in the Second Plan for the development of the major ports of Calcutta, Bombay, Madras, Vizag, Cochin and Kandla, but the total cost of the port programmes approved for inclusion in the Plan was Rs. 70.9 crores as it was expected that some additional funds would be available from the ports' own resources.

The ports' own contributions are now estimated at about Rs. 18 crores, but the estimated cost of the ports' programme has been revised upwards and is reckoned at about Rs. 100 crores.

Thus, there is a considerable gap between the resources available and the financial outlay required for the programmes envisaged.

The foreign exchange element in the programmes costing Rs. 100 crores is of the order of Rs. 35 crores. The financing of the programmes is linked with expected loan assistance from the World Bank. Some assistance for the Vizag port may also become available from the U.S. President's Asian Development Fund.

Even with this assistance, however, it will not be possible to carry out the original programmes in full. It will not be possible to reach final decisions till the World Bank's intentions are known.

Some of the long term projects which may have to be retarded are the Minimum Scheme at Bombay, the Fulta Hooghly River Training

Works and the new Marshalling Yard at Calcutta, the Wit Dock Scheme at Madras and the equipment of new berths at Kandla.

The Plan envisaged raising the handling capacity of the ports from about 25 million tons to 33 million tons. It is considered, that, despite the probable postponement of some long term projects the programmes already undertaken and those which are likely to be taken up will enable the tonnage capacity envisaged to be achieved.

The following table shows the Plan provision for ports, the estimated outlay in the first 3 years and funds which it is estimated, may be possible to make available in the last two years.

(Rs. crores)

Item	Plan provision	Expenditure 1956-57	Expenditure 1957-58	Budget provision 1958-59	Estimated Expenditure 1956-59	Estimate 1959-61	Total for 1956-61
Major Ports ..	40.00* (18.00)†	8.01	8.29	9.00	25.30	18.20	43.50 (18.00)‡

† World Bank loans will be forthcoming for Madras, Bombay and Calcutta Ports.

* Excludes the provision of Rs. 3.5 crores for Vizag Port which was originally included in the Railway Plan.

‡ An amount of about Rs. 18 crores is expected to be available for the ports' programme in the Second Plan from the Ports' own resources.

ROADS

There is a provision of Rs. 246 crores for road development in the Second Plan in addition to Rs. 25 crores to be drawn from the Central Road Fund.

Of this sum, Rs. 94.7 crores have been provided in the Plan of the Ministry of Transport for the Central road programme (including Union Territories) and Rs. 151.4 crores in the State Plans.

The Plan provides for the construction of about 20,000 miles of surfaced roads, besides construction of major bridges, missing links, improvements, etc.

The expenditure during 1956-57 on the entire road programme was Rs. 42.71 crores and the revised estimate for 1957-58 is Rs. 44.32 crores. The budget provision for 1958-59 is Rs. 42.23 crores. Thus the total estimated expenditure in the first 3 years of the Plan works out to Rs. 129.26 crores, leaving a balance of Rs. 116.86 crores for the subsequent two years.

It seems improbable, however, that in the last two years it will be possible to make budget allotments equal to this amount. Furthermore, shortage of steel is likely to retard the construction of bridges.

Some shortfall in the total programme is, therefore, to be expected.

The following table gives the Plan provision for Central and State road programmes, the estimated outlay in the first 3 years and the estimated expenditure in the last two years.—

(Rs. crores)

Item	Plan provision	Expenditure 1956-57	Expenditure 1957-58	Budget provision 1958-59	Estimated Expenditure 1956-59	Estimate 1959-61	Total for 1956-61
1. Central programme (excluding Union territories)	82.00	14.23	13.15	12.07	40.05	29.00	69.05
2. State Plans (including Pondicherry and Union territories)	164.12	28.48	31.17	29.56	87.21 *	63.00	150.21
Total	246.12	42.71	44.32	42.23	127.26	92.00	219.26

* Includes anticipated outlay of Rs. 27.56 crores for 1958-59.

COMMUNICATIONS

There is a provision of Rs. 110 crores for the development of Communications in the Second Plan. The foreign exchange content of the programme is estimated at about Rs. 51 crores as detailed below:—

(Rs. crores)

	Total Cost	F.E. content
Posts and Telegraphs Deptt	63.00	17.89
Indian Telephone Industries	0.50	0.70*
Overseas Communications Service	2.00	1.10
India Meteorological Department	1.50	0.84
Civil Aviation Department	12.50	5.68
Indian Airlines Corporation	16.00	7.75
Air India International	14.50	16.82†
	110.00	59.78

* This is against the estimated expenditure of Rs. 21½ lakhs a part of which has to be met from the Industries' own resources.

† This includes a certain amount to be met from the Corporation's own resources.

So far as the Department of Posts & Telegraphs is concerned, the main schemes are those relating to the Local Telephone Service (Rs. 29 crores)

and Trunk Cables and Carrier Cables (Rs. 8.5 crores).

These two schemes involve a considerable amount of foreign exchange.

As regards the Local Telephone Service, it was expected that 1,80,000 new telephones would be installed during the Second Plan period. However in view of the relatively low priority that is being attached to this scheme, its progress will be retarded owing to foreign exchange difficulties.

So far as the scheme relating to trunk cables and carrier cables is concerned, the foreign exchange requirement is estimated at Rs. 5.20 crores. This amount, however does not fully take into account the requirements of the Posts and Telegraphs Department in respect of the railway electrification schemes. In view of the high priority attached to the railway electrification scheme, foreign exchange for that portion of the trunk cables scheme which is interlinked with railway electrification will have to be provided.

As regards Overseas Communications Service and the India Meteorological Department, their programmes will be retarded owing to foreign exchange difficulties.

In the case of the Civil Aviation Department a provision of Rs. 12.5 crores was made in the Plan, but subsequently a scheme for the improvement of the runway at Santa Cruz, Bombay, in order to accommodate the Boeing 707 Jet

Aircraft was approved at an estimated cost of Rs. 4 crores.

While some of the schemes relating to Civil Aviation may have to be staggered due to lack of foreign exchange, the entire provision made for the programme may well be expended owing to the additional requirements of the runway scheme.

The programme of the two Air Corporations may be expected to go through in full. Air India International have already secured some foreign loan assistance for purchase of aircraft which was the major item of their programme. In the case of I.A.C. also full commitments have already been entered into for purchase of aircraft.

BROADCASTING

The total provision in the Plan is Rs. 9 crores and the foreign exchange content of the programme is Rs. 3.52 crores.

The total expenditure in the first 3 years of the Plan is likely to be Rs. 3.92 crores.

On account of foreign exchange difficulties, the programme will have to be staggered and certain schemes, e.g., the installation of new transmitters and studios and of television facilities may have to be postponed.

The following table gives the Plan provision, the estimated outlay during the first 3 years and the estimated expenditure during the last two years of the Plan in respect of Communications and Broadcastings:—

(Rs. crores)

Item	Plan provision	Expenditure 1956-57	Expenditure 1957-58	Budget provision 1958-59	Estimated Expenditure 1956-59	Estimate 1959-61	Total for 1956-61
1. Communications	110.00	18.50	10.14	21.77	60.41	37.00	97.5
2. Broadcasting	9.00	1.45	1.17	1.80	3.92	2.50	6.5

SOCIAL SERVICES

Under the Second Five-Year Plan, the resources to be provided by the Central and State Governments amounted to Rs. 945 crores of

10.7 per cent of the total outlay under the Plan. Of this amount, Rs. 450 crores were shown against State Plans and Rs. 395 crores at the Centre. Except for Rehabilitation, which is financed as a wholly Central responsibility, a

large proportion of the allotment at the Centre under Education, Health, Housing, etc. is intended to be spent in the States and through State Governments on schemes sponsored by the Central Government.

Since the commencement of the Second Five-Year Plan, it has been realised that within a total outlay of Rs. 4,800 crores it would be necessary to undertake a measure of reallocation between different sectors, so as to provide minimum additional funds needed for the development of large and medium industries and mineral resources. The additions have to be

found by corresponding adjustments under certain other heads. In making these adjustments, the aim has been to keep reductions in allocations in the States and in respect of social services to the smallest magnitudes feasible. The statement below sets out the original Plan allocations and those now proposed for different heads in the social services group :—

(Rs. crores)

Head	(Original)			(Revised)		
	Total	Centre	States	Total	Centre	States
Education	307	95	212	285	75	210
Health	274	90	184	255	75	180
Housing	120	47	73	100	27	73
Welfare of Backward classes	91	32	59	83	24	59
Rehabilitation	90	90	..	90	90	..
Social Welfare, Labour and Labour Welfare and Educated unemployment schemes ..	63	42	21	50	30	20

The total allocation for social services proposed above will now constitute 18 per cent of the Plan outlay in place of the original 19·7 per cent.

In the States, however, the allocations proposed for social services will be maintained at the same level as in the original Plan, namely, 24·5 per cent of the total States' allocation.

If commitments under the Plan are limited to a total outlay of Rs. 4,500 crores. It is hoped that the outlay on social services will not be allowed to fall below 18 per cent of the total Plan outlay and below about 25 per cent of the outlay in the States.

EDUCATION

The outlay on Education has risen from about Rs. 23 crores in 1956-57 to about Rs. 37 crores in 1957-58; about Rs. 59 crores have been provided in 1958-59.

The actual outlay by the end of the third year is expected to be Rs. 109 crores against an initial Plan allocation of Rs. 307 crores. The outlay at the Centre may amount to Rs. 27 crores and in the States to Rs. 82 crores.

When the Second Plan was drawn up, it was expected that the number of additional pupils for whom school facilities would become available would be about 7·7 million in the age-group 6-11, 1·3 million in the age-group 11-14, and nearly 8 lakhs in the age-group 14-17.

It is anticipated that by the end of the third year of the Plan, the additions achieved in these groups might be of the order respectively of 6 millions, 800,000 and 700,000.

The following statement shows the progress anticipated in school education during the first three years of the Plan :—

Item	Unit	5-Year Plan target	Progress 1956-57	Anticipated progress (1957-58)	Provisional target (1958-59)	Total for three years 1956-59
I. School facilities for different age-groups						
6-11	lakhs	77·28	20·00	21·25	22·50	63·75
11-14	..	12·93	2·70	3·00	3·35	9·05
14-17	..	7·67	2·60	2·60	2·60	7·80
II. Institutions						
Primary schools	Total	52,762	22,200	23,600	25,000	70,800
Junior Basic	No.	27,440	2,650	4,700	6,700	14,050
Middle schools	3,455	1,350	1,500	1,675	4,525
Senior Basic	5,026	220	666	800	1,695
High/Higher Secondary schools	1,525	1,440	1,440	1,440	4,320
Multipurpose	837	117	133	150	400

For technical education, the allotment of Rs. 48 crores under the Plan was raised subsequently to about Rs. 57 crores, the increase being secured within the Plan ceilings for education.

Outlay over the first three years is likely to be about Rs. 22 crores.

The proposals of the Engineering Personnel Committee contemplated a total addition of

2,794 seats for degree courses and of 8,221 seats for diploma courses. These increases were to be achieved through the expansion of existing institutions and the setting up of 18 new colleges and 62 new diploma institutions.

The targets fixed for the plan period and the progress anticipated during the first three years of the Plan are given below.

	Plan targets		1956-57 Progress	1957-58 Progress	1958-61 Provisional targets
	Original	Revised (Est.)			
Engineering Colleges					
Number	8	16	8	2	6
Additional intake ..	1,010	5,488	840	2,646	2,002
Polytechnics					
Number	23	55	11	12	32
Additional intake ..	2,600	11,796	1,330	5,670	4,806

The expansion of elementary education, especially in rural areas, can proceed more rapidly than was envisaged in the Plan if a sufficient supply of teachers is made available. Against the target of 234,000 primary teachers, the likely increase over the first three years is a little less than 200,000.

It is believed that the proportion of trained teachers which stood at about 61 per cent in 1955-56 declined by about 1 per cent during the first two years of the Plan.

The increase in the number of primary teachers was due specially to the schemes for the appointment of 80,000 additional teachers which was

introduced in 1954-55 and 1955-56 partly with a view to increasing educational facilities and partly as a measure of relief for educated unemployed persons.

To meet the growing demand for education and also to provide further relief to educated unemployed persons, it is proposed to introduce with effect from 1958-59 a new scheme for the appointment of 60,000 additional primary school teachers. Of these, 15,000 are to be appointed in 1958-59, 20,000 in 1959-60 and 25,000 in 1960-61.

As stated earlier, against the original allotment of Rs. 307 crores for Education it is proposed now to provide Rs. 285 crores.

It is proposed that within a total of Rs. 4,500 crores, commitments on Educational schemes over the Plan period might be limited to Rs. 275 crores.

HEALTH

Against a Plan allocation of Rs. 274 crores, the total outlay on health programmes over the first three years is likely to be about Rs. 108 crores of which Rs. 68 crores will be in the States and about Rs. 40 crores at the Centre.

At the Centre, the important provisions include malaria control, urban water supply and sanitation, medical education and family planning.

In the States, the principal items are hospitals and dispensaries, urban and rural water supply and sanitation, control of diseases and training programmes.

During the First Plan, in urban areas, 223 water supply schemes and 61 drainage schemes were sanctioned. In rural areas, 134 schemes were approved. Together, these water supply schemes entailed a total exceeding Rs. 80 crores. Consequently, the bulk of the expenditure was carried over into the Second Plan and almost all the schemes now in progress are those which were begun or approved two or three years ago.

The total outlay on urban water supply and sanitation during the first three years, amounts to Rs. 25 crores and on rural water supply to about Rs. 12 crores. A review of the urban water supply and sanitation programme now envisaged for the next three years is necessary. Without such a review being undertaken, it is not possible to consider any new schemes, however essential they might be.

For the malaria control programme under the Second Plan, the outlay during 1956-58 was about Rs. 12.5 crores.

A decision has recently been taken to change over from a programme for control to a programme for eradication of malaria. This change-over became possible on account of additional resources being made available from a special fund under the Indo-U.S. Technical Co-operation programme.

The total sum now needed over the plan period for meeting the cost of the control programme for the first two years and of the eradication programme for three years is about Rs. 55 crores. Of the additional amount, about one-half is covered by external assistance. The programme has been incorporated in the State Plans for 1958-59.

The Second Plan provided for the establishment of about 3,000 primary health units, of which 1,120 were to be set up in community development blocks and the rest in national extension blocks.

About 900 primary health centres have been established during the first two years of the Plan.

Since the commencement of the Plan, proposals for setting up 9 new medical colleges and expanding 14 existing medical colleges have been approved.

Admissions in 1954-59 are expected to be of the order of 4,000 as compared to 3,500 before the commencement of the Plan.

It was proposed to set up about 2,500 family planning centres during the current Plan. At the end of 1957-58 about 535 centres have been set up and the plans for 1958-59 provide for the establishment of 400 more centres.

The revised allocation for health programmes is Rs. 255 crores and within a total of Rs. 4,500 crores commitments may be limited to Rs. 245 crores.

HOUSING

The Second Five-Year Plan made an allocation of Rs. 120 crores for Housing. The outlays proposed and the physical targets under the main schemes were as follows:—

(Rs. crores)		
Description	Original Plan cost target	
Subsidised Industrial Housing Scheme ..	45	1,28,000
Low Income Group Housing Scheme ..	40	68,000
Plantation Labour Housing Scheme ..	2	11,000
Slum Clearance and Sweepers' Housing Scheme ..	20	1,10,000
Village Housing Projects Scheme ..	10	1,83,000
Middle Income Group Housing Scheme ..	3	

The total outlay over the first three years is about Rs. 40 crores.

Under the subsidised industrial housing scheme, the programme for the three years 1956-59 involves the construction of 42,600 units, under the low income-group housing scheme of 32,300 units and under the slum clearance and sweepers' housing scheme of about 22,000 units.

The village housing projects scheme is being introduced effectively only from 1958-59.

As explained earlier, the revised allocation for housing will be Rs. 100 crores or Rs. 20 crores less than the original allocation. Within a total of Rs. 4,500 crores, commitments on housing are expected to be limited to about Rs. 84 crores. This may include about Rs. 64 crores in the States and Rs. 20 crores at the Centre, the amount being distributed as follows:—

(Rs. crores)		
Scheme	Centre	States
Subsidised Industrial Housing Scheme ..	2.5	24.5
Rural Housing Scheme ..	6.0	0.2
Slum Clearance Scheme ..	11.5	4.0
Plantation Labour Housing Scheme	0.6
Low Income Group Housing Scheme	35.0

Outlays at the levels indicated above would imply that the various housing programmes would proceed relatively slowly during the remaining years of the Plan.

OTHER SOCIAL SERVICES

For programmes for the welfare of backward classes, the Plan allotted Rs. 91 crores, of which Rs. 59 crores were provided in the States and Rs. 32 crores at the Centre. The outlay during the period 1956-59 is expected to be about Rs. 35 crores.

The revised allocation is Rs. 83 crores, the allocation for the States being maintained at Rs. 59 crores.

Within a Plan of the total outlay of Rs. 4,500 crores, commitments for the welfare of backward classes are expected to be of the order of Rs. 72 crores, of which Rs. 53 crores may be in the States.

For social welfare, labour and labour welfare and educated unemployment schemes, the outlay over the first three years comes to about Rs. 15 crores. It is proposed to reduce the allocation for this group of social services for the five-year period from Rs. 63 crores to Rs. 50 crores. Taking all factors into consideration, it is expected that the outlay would be limited to about Rs. 44 crores.

Special mention should be made of the decision recently taken to raise the target for the plan period for the training of craftsmen from 30,000 to 50,000.

For the rehabilitation of displaced persons, the Plan allocated Rs. 90 crores. Since the programme now includes expenditure on the Bandhakanya scheme for the rehabilitation of displaced persons from East Pakistan in Madhya Pradesh and Orissa and for the resettlement of the local tribal population in the areas which are reclaimed, the allocation is being maintained and outlays are also expected to be of this order.

YIELD FROM TAXATION

The following table shows the yield from additional measures of taxation adopted by the States together with the five-year targets accepted when the Plan was formulated.

(Rs. crores)			
	Yield from measures adopted in the first three years		Targets as set out in the Plan Report
	1956-57 to 1958-59	Five-year yield	
General sales tax ..	39.6	83.2	112.0
Tax on Motor spirit & Diesel oil ..	2.9	7.0	
Land Revenue ..	4.0	9.6	37.0
Irrigation rates ..	0.8	2.2	
Betterment levy ..	3.3	7.5	16.0*
Agricultural Income Tax ..	3.4	8.4	12.0
Electricity rates and duties ..	5.3	13.1	6.0
Tax on Motor vehicles (including tax on passengers and goods) ..	1.2	3.0	10.0
Stamp duties and registration etc. ..	1.8	3.6	4.0
State excise duties ..	17.0	35.3	17.0**
Others ..	79.3	172.9	226.0

* Exclusive of yield of Rs. 31 crores to be made available to the Centre for repayment of loans.

** Mainly represents local property taxes.

STATE INVESTMENTS

Below we give figures of investments in connection with the Second Plan for certain States. Figures for other States have been given where available under each State.

(Rs. in lakhs)

States	Five Year Plan Provision	Provision for 1957-58	Provision for 1958-59
Andhra Pradesh	17,536.73	3,499.54	3,001.62
Assam	5,793.69	1,154.18	1,071.17
Jammu & Kashmir	5,067.74	639.03	N.A.
Madhya Pradesh	18,812.21*	3,542.65	3,458.94
Mysore	14,513.00*	2,868.58	2,570.48
Orissa	9,909.91	1,949.08	1,615.17
Himachal Pradesh	1,472.53	283.22	319.85*
Tripura	846.55	129.82	235.41

STATE INVESTMENTS—Contd.

THE OBJECTIVES OF SECOND FIVE-YEAR PLAN

THE major particulars about the Second Plan as originally set out are given below.

The Plan covers the period 1956-61.

The principal task of the Second Five-Year Plan is to secure an increase in national income by about 25 per cent over the five years, to enlarge employment opportunities at a rate sufficient to absorb the increase in labour force consequent on the increase in population and to take major strides forward in the direction of industrialisation so as to prepare the ground for more rapid advance in the plan periods to come.

The Second Plan is in one sense a continuation of the developmental effort commenced in the First Plan; but there is inevitably a shift in priorities with a larger accent on industrialisation, especially the development of heavy industry and the necessary ancillaries like transport.

GROWTH IN INCOME AND INVESTMENT, 1951-76

(At 1952-53 prices)

	1st Plan (1951-56)	2nd Plan (1956-61)	3rd Plan (1961-66)	4th Plan (1966-71)	5th Plan (1971-76)
1. National income at the end of the period (Rs. crores)	10,800	13,480	17,260	21,680	27,270
2. Total net investment (Rs. crores)	3,100	6,200	9,900	14,800	20,700
3. Investment as percentage of national income at the end of the period	7.3	10.7	13.7	16.0	17.0
4. Population at the end of the period (in millions)	384	408	434	465	500
5. Incremental capital output ratio	1.89:1	2.3:1	2.62:1	3.38:1	3.70:1
6. Per capita income at the end of the period (in Rs.)	281	331	396	466	545

PROGRESS OF SECOND PLAN (1955-56 TO 1957-58)

The progress of the Second Plan during the first three years was published just before this book was due to go to press. We give below the summary that was available from the Planning Commission.*

Judged by the development outlay actually incurred during the first three years, the progress of the Plan in eight of the 14 States is satisfactory, according to a review of the State Plans officially published on 22nd July, 1958.

Provided the necessary funds are forthcoming the Plan targets are expected to be largely achieved in the eight States of Andhra, Assam, Madras, Orissa, the Punjab, Rajasthan, Uttar Pradesh and West Bengal.

About 50 per cent. of the sanctioned outlay for the Second Plan is expected to be actually spent in these States by the end of the 1958-59 financial year.

The States falling below this level of utilisation include Bihar, Bombay, Kerala, Madhya Pradesh, Mysore and Jammu and Kashmir.

The position with regard to Kerala is interesting, especially in the context of the State's reported demand substantially to enlarge the Plan beyond the revised outlay of Rs. 87 crores. The Planning Commission's review notes that the rate of expenditure in Kerala has been low in the first three years of the Plan and it is most unlikely that the Plan will be fulfilled in financial terms. The State's contribution to resources from the balance on revenue account at the prevailing rates of taxation is also likely to fall much below expectations. The obvious inference is that there has been an increase in non-plan expenditure.

Madhya Pradesh stands at the bottom of the list, utilisation in the first three years being 39.9 per cent. of the total sanctioned outlay. But apart from other difficulties, reorganisation of the State slowed down development work considerably in the first year of the Plan.

After the reorganisation, the total outlay on the Second Five-Year Plan of Bombay State is Rs. 350.22 crores. As regards the expenditure so far, about Rs. 175 crores, i.e., 50 per cent. of the Plan outlay would have been incurred during the first three years of the Second Plan period. Central assistance for this period works out to Rs. 74.2 crores.

The State has agreed to produce 15.14 lakh tons of additional food grains during the Second Plan period. Of this target 1.57 lakh tons of additional food grains were produced in 1956-57, while the anticipated achievement in 1957-58 is placed at 1.26 lakh tons.

As against the created irrigation potential of 64,000 acres, the actual area irrigated is 2,000 acres in 1957-58. The Plan target under minor irrigation was put at 10.3 lakh acres. Of this 32,000 and 88,000 acres were brought under irrigation in 1956-57 and 1957-58 respectively.

The outlay on the Second Five-Year Plan of the reorganised State of Kerala is Rs. 87 crores. The expenditure under the State Plan for the first three years would be about Rs. 40 crores. Central assistance for this period comes to Rs. 17.5 crores.

For the five-year period, the revised target of additional food production for Kerala has been fixed at 2.76 lakh tons. Of this 0.25 lakh tons were produced in the first year while the anticipated figure for 1957-58 is 0.09 lakh tons.

The total additional area brought under actual irrigation under major and medium irrigation schemes during 1956-57 was 45,000 acres. Under minor irrigation schemes, the five-year target was to bring 2.9 lakh acres of additional area under irrigation. The achievement in 1956-57 is 20,000 acres and the anticipated achievement in 1957-58 is 24,000 acres. Under the electricity schemes, the Plan target for additional installed capacity is 67,000 kw.

STATE-WISE PROGRESS

The following is a summary of the State-wise progress:

Andhra Pradesh: The outlay on the Second Five-Year Plan amounts to Rs. 174.77 crores. The total expenditure for the first three years will not exceed Rs. 89.57 crores. Central assistance for the period works out to Rs. 55.1 crores. The Second Five-Year Plan target for additional food production is 14.86 lakh tons. The additional food production potential achieved during 1956-57 is 1.48 lakh tons and the anticipated achievement for 1957-58 is 2.17 lakh tons. Out of the Plan target area of 4.87 lakh acres to be brought under medium and major irrigation, the likely achievement for 1957-58 is 39,000 acres.

Assam: The outlay is Rs. 57.94 crores. The expenditure in the first three years will come to Rs. 31.48 crores. Central assistance for the same period will amount to Rs. 16.3 crores. As against the target of 3.78 lakh tons of additional food production for the Second Plan period, in 1956-57, 0.34 lakh tons was produced, while it is anticipated that 0.87 lakh tons will be produced during 1957-58.

Bihar: The outlay is Rs. 190.22 crores. The total expenditure in the first three years would be about Rs. 83 crores. Central assistance to the State in the above period amounts to Rs. 43.4 crores. The target of additional food production for the Second Plan period was fixed at 15.0 lakh tons. Of this, 0.84 lakh tons were produced during 1956-57, while the achievement anticipated for 1957-58 is 2.85 lakh tons. The irrigation potential created during the first three years is 4.2 lakh acres and the area actually irrigated up to 1957-58 is 3.1 lakh acres, through major and medium irrigation schemes excluding tube-wells.

Bombay: The total outlay is Rs. 350.22 crores. Rupees 175 crores expenditure would have been incurred during the first three years of the Second Plan period. Central assistance for this period works out to Rs. 74.2 crores. As against 15.14 lakh tons of additional food grain target, 1.57 lakh tons of additional food grains were produced in 1956-57, while the anticipated achievement in 1957-58 is placed at 1.28 lakh tons. As against the created irrigation potential of 64,000 acres, the actual area irrigated is 2,000 acres in 1957-58.

Kerala: The total outlay is Rs. 87 crores. The expenditure for the first three years would be about Rs. 40 crores. Central assistance for this period comes to Rs. 17.5 crores. For the five-year period, the revised target of additional food production for Kerala has been fixed at 2.76 lakh tons. Of this 0.25 lakh tons were produced in the first year while the anticipated figure for 1957-58 is 0.09 lakh tons. The total additional area brought under actual irrigation under major and medium irrigation schemes during 1956-57 was 45,000 acres.

Madhya Pradesh: The outlay is Rs. 190.89 crores. The expenditure on the State Plan in 1956-59 would be Rs. 76.16 crores. Central assistance during the first two years would amount to Rs. 31.76 crores. The target of additional food production was fixed at 14.61 lakh tons for the reorganised State. Achievement in this sector was 0.61 lakh tons in 1956-57 and 1.69 lakh tons in 1957-58.

Madras: The outlay on the Second Plan is Rs. 152.26 crores. The expenditure in the first three years would work out to Rs. 80.65 crores. Central assistance comes to Rs. 45.2 crores. The revised target of additional food production for the State was fixed at 13.7 lakh tons. The achievement in the first two years is 2.32 lakh tons in 1956-57 and 3.66 lakh tons (anticipated) in 1957-58. The Second Plan target for additional irrigation is 2.68 lakh acres. Under minor irrigation schemes, the achievement is

estimated at 25,000 acres for 1956-57 and 40,000 acres for 1957-58, against the five-year target of 5.05 lakh acres.

Mysore: The outlay is Rs. 145.13 crores. The expenditure during the first three years would be about Rs. 55 crores and Central assistance would be about Rs. 35.6 crores. The target of additional food production was fixed at 5.91 lakh tons. Of this, 0.58 lakh tons of additional food grains were produced in 1956-57, while the anticipated figure for 1957-58 is 0.91 lakh tons.

Orissa: The outlay is Rs. 99.97 crores. The total expenditure in the first three years would amount to about Rs. 51.53 crores and Central assistance during the first two years came to Rs. 26.6 crores. The target of additional food production for the Second Plan accepted by the State is 7.52 lakh tons. The achievement in this sector was 0.58 lakh tons during 1956-57 and 0.65 lakh tons during 1957-58 (anticipated).

Punjab: The outlay is Rs. 162.68 crores. The expenditure in the first three years would be about Rs. 92 crores. The amount of Central assistance received by the State during the first two years was about Rs. 35.8 crores. The revised target of additional food production for the State is 14.4 lakh tons. Of this 0.31 lakh tons of additional food grains were produced in 1956-57 while the anticipated figure for 1957-58 is 1.53 lakh tons. Against a five-year target of 4.85 lakh acres to be irrigated under minor irrigation works, the achievement in 1956-57 is 0.04 lakh acres and anticipated achievement in 1957-58 is 1.19 lakh acres. The additional area under irrigation by Bhakra and other projects comes to about 4.4 lakh acres.

Rajasthan: The total outlay is Rs. 105.27 crores. The expenditure in the first three years would be Rs. 52.19 crores. And Central assistance comes to about Rs. 28 crores. The revised target for food production was fixed at 8.07 lakh tons. The total of additional food grains produced in 1956-57 was 0.48 lakh tons while 0.79 lakh tons is the anticipated figure for 1957-58.

Uttar Pradesh: The outlay is Rs. 253.10 crores. The total expenditure during the first three years would be about Rs. 133 crores. The amount of Central assistance in 1956-57 and 1957-58 was Rs. 21.31 crores and Rs. 24.54 crores respectively. The target of additional food production for the State has been fixed at 24 lakh tons. Of this, a total of 1.85 lakh tons was achieved in 1956-57 while the anticipated figure for 1957-58 is 3.50 lakh tons. The additional area brought under irrigation through minor irrigation schemes in 1956-57 and 1957-58 is 2.6 lakh acres and 3.84 lakh acres respectively. Under major and medium irrigation schemes the additional area irrigated is 2.46 lakh acres in 1956-57 and 3.68 lakh acres in 1957-58.

West Bengal: The outlay is Rs. 157.67 crores. The total expenditure in the first three years would amount to Rs. 83.86 crores. Central assistance for the first two years would come to about Rs. 28.35 crores. The target of additional food production for the State was fixed at 9.32 lakh tons. The State produced 0.84 lakh tons of additional food grains in 1956-57 and the anticipated figure for 1957-58 is 1.27 lakh tons.

Jammu and Kashmir: The total outlay is Rs. 33.92 crores. The expenditure in the first three years would be Rs. 14.79 crores. Central assistance during this period comes to rupees 12 crores. The revised target of additional food production for the State was fixed at 2.06 lakh tons. Of this target, 0.23 lakh tons of additional food grains were produced in 1956-57 while the anticipated figure for 1957-58 is 0.03 lakh tons. The achievement under minor irrigation scheme is estimated at 5,000 acres for 1956-57 and 1,000 acres for 1957-58, against the five-year target of 1.25 lakh acres.

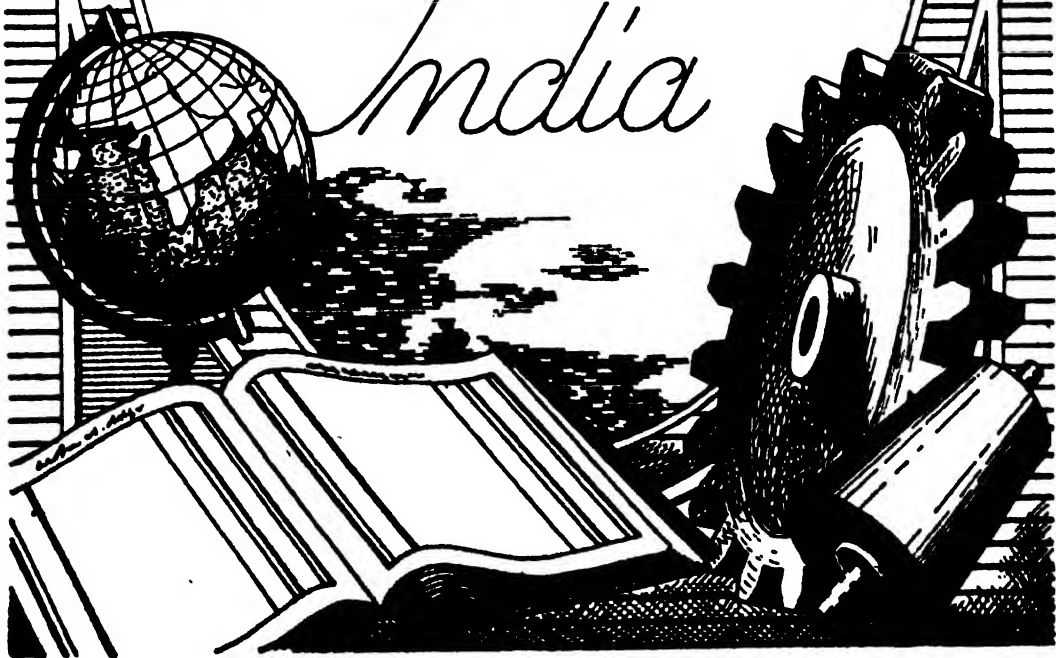

* There is a slight discrepancy in the figures from the Planning Commission and those from the States in a previous table in this article.

FAMOUS HOUSES

AND INSTITUTIONS

serving

India

J. B. ADVANI & CO. PRIVATE LTD.

ESTABLISHED 1908

HEAD OFFICE : BOMBAY

IN 1908, three intimate friends, Kanwalsing Pohumal, Vasanmal Kishenchand and Jotsing Harising, formed themselves into a Company called J. B. Advani & Company with a view to specializing in the import of Paper and Printing Materials. This Concern was the first of its kind in Sind. The pioneers, who envisaged a great future for this line of business, opened an office in Karachi. In a very short time their confidence was justified and the venture became a huge success. The markets within reach having been tapped to the fullest extent, a Branch was opened in Bombay in 1921. In spite of the very keen competition that usually prevails in Bombay, which is the premier and largest paper market in India, the Company very soon became one of the leading firms in the line with its business growing in volume from year to year.

In 1925, the original owners of the Company decided to convert their firm into a Private Limited Company—J. B. Advani & Co. Ltd.—with a capital of Rs. 6,00,000.

In 1925, the management began to explore the Punjab market more energetically with a view to developing the business handled by the Head Office at Karachi and a Branch was accordingly opened in Lahore. This was followed by the opening of a Branch in Madras in 1927, which has made steady progress year by year. Three years later, another Branch was opened, this time in Calcutta. Branches have since been opened in Delhi, Jullundur and Cochin.

The Directors of this Company started a new concern under the name and style of J. B. Advani & Co. (Mysore) Private Ltd. at Bangalore.

After the partition of India, the Directors of this company started another concern in Pakistan under the name and style of J. B. Advani & Co. (Pakistan) Ltd., with Head Office Karachi and a branch at Lahore.

With its network of branches in all the important centres in India, J. B. Advani & Co. Private Ltd. today reaches every notable consuming centre in India.

The Company has a Paid-up Capital of Rs. 30,00,000. Besides, it has the substantial backing of its Directors and their relatives, and the Working Capital is actually in the vicinity of Rs. 4,00,00,000. The Company, with its branches, is one of the largest importers of paper in India with a turnover of Rs. 1,25,00,000 per annum. It deals in all grades of paper, printing machinery and materials * and is open to take up representation of Indian and foreign Mills. The Company has now taken in hand export business of Indian products.

In partnership with Messrs. Lorilleux & Bolton Ltd., London, famous manufacturers of Printing Inks, some of the Directors have started a Printing Ink factory at BHANDUP (Central Rly.) near Bombay. The factory has started production from September 1951. With large number of Mills going into full production at the factory, they can meet the entire requirements of Printing Inks of various types required in India. The concern is known as J. B. A. PRINTING INKS PRIVATE LIMITED.

Another enterprise with which they are associated is the one for the manufacture of Welding Electrodes, probably the first major attempt in this field of industry in India. In partnership with the Oerlikon Machine Tool Works (Messrs. Buehrle & Co.), Zurich, Switzerland, the world famous manufacturers of Welding Electrodes, a new company has been floated under the name of J. B. ADVANI-OERLIKON ELECTRODES PRIVATE LTD. with 80 per cent of the share capital subscribed by J. B. Advani & Co. Private Ltd. With an up-to-date factory and most modern production line, this factory, situated at BHANDUP (Central Rly.), Greater Bombay, is producing now some of the best Welding Electrodes in the world. They have amongst their patrons, Government, Railways, Shipyards, and Great Steel fabricators of India.

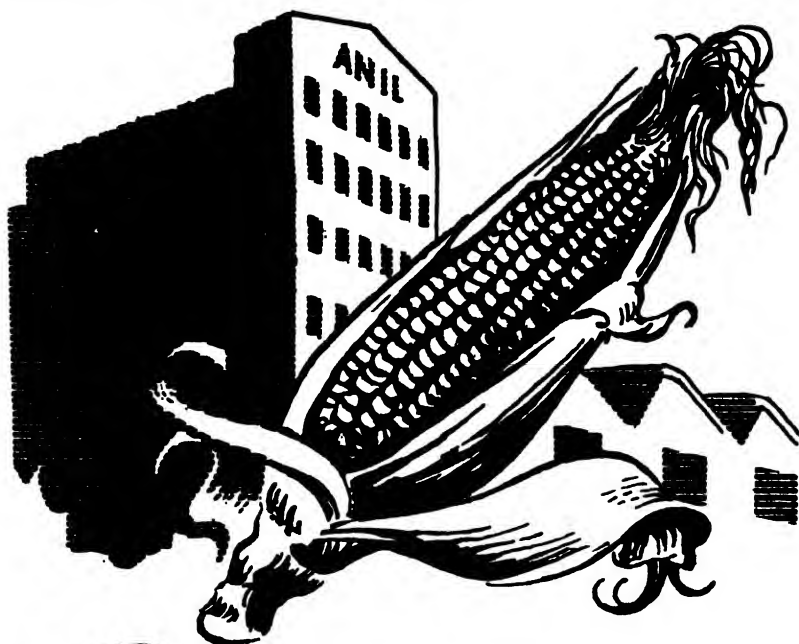

A third enterprise with which they are connected is the one for the manufacture of Drinking Straws and Waterproof Kraft Paper. They have up-to-date machinery for the manufacture of these products in India on a very large scale. The leading Aerated Water manufacturers in India are patronising the Drinking Straws and the leading Textile Mills all over India are using the Waterproof Kraft manufactured in Bhandup. A new company has been floated under the name of IDEAL WRAPPERS PRIVATE LTD. and the factory is situated at Bhandup (Central Rly.), Greater Bombay.

ANIL is the ROMANCE OF YOUNG PRESERVANCE—Built initially in 1941 on the remnants of war salvaged German Plant and warlorn India's indigenous machinery—its Plant ranks today as the biggest single unit in Asia; and has already evoked edifying compliments from eminent authorities:

Say Shri Shanmukham Chetty, President—Tariff Board and Shri C. C. Desai, Member—Tariff Board:

"We were so glad to be taken round the Anil Starch Works, which rank as the best starch works in India, and which are represented to be among the best anywhere in the world. We are impressed not only by the orderly manner in which the whole factory is thought-out and planned but also by the attention that is paid to control and Research . . ."

Says Shri Manubhai Shah, Minister for Heavy Industries, Government of India:

"Anil's Glucose factory is the cleanest chemical factory I have so far seen in the country."

All this excellence is behind every product of ANILS

ANIL

STARCH PRODUCTS LTD.

AHMEDABAD

W. H. BRADY &

THE foundations of this famous House were laid in 1895 in Bruce Lane, Bombay, when the late Mr. W. H. Brady in partnership with the late Mr. J. F. Bradbury commenced business as Machinery Agents and Importers, and Advisers on all technical matters relating to the Cotton Textile Industry.

The period was one in which Cotton Mills were on the increase and as Mr. Brady and Mr. Bradbury were two of the best known Mill Managers of the time, their practical experience and expert knowledge of mill management and machinery helped considerably towards the firm's progress.

Within a decade, Bradbury Brady & Co. (as the firm was then styled) had extended its activities far beyond its initial business of machinery importers, for in 1900 the Empire Dye Works was started and in 1901 it took up the agency of the Colaba Land & Mill Company. This was rapidly followed by the agencies of the New City of Bombay Mills, the New Great Eastern Mills, the Sun Mill (now Dhanraj Mills) and the Bradbury Mills.

In 1912 however, a change was made when Mr. Bradbury (in Partnership with Mr. Knowles) restricted his business to the agencies of these Mills under the style of Bradbury & Co., while Mr. Brady started an independent business as a Machinery Agent (with Mr. Kay, Mr. Lakin and Mr. Johnson as junior partners) under the style of W. H. Brady & Co.

In 1913, the latter firm was converted into a private limited liability company under the name and style of W. H. Brady & Co., Ltd., with its Head Office in Bombay. Three years later, on the death of Mr. Bradbury, it took over the agencies of the Empire Dye Works, the New City of Bombay Manufacturing Co., Ltd., the New Great Eastern Spinning and Weaving Co., Ltd., and the Colaba Land & Mill Co., Ltd.

On the retirement of Mr. Brady in 1922, Sir Joseph Kay became Managing Director of the firm and its progress under his management has been considerable. In 1928 the capital was increased and the Company commenced to operate on the joint stock principle without any restrictions on its shares. Today, the operations of the concern cover an extremely wide field, for in addition to its long established textile associations, it has extended its activities over other classes of industry such as Sugar, Engineering, Printing, Insurance, etc.

Associated with the Managing Director is a body of wholtime Technical Advisers, namely, Mr. J. Symon, Mr. F. Edwards, and Mr. E. F. Morrey, while from time to time, branches have been established in other parts of India until the Company now has offices in Calcutta, Madras, Kanpur, Ahmedabad, Coimbatore, Delhi and Manchester (England).

TEXTILES.—The Company has a very large Textile Machinery Import Department which carries comprehensive stocks of the manufactures of a number of British and American firms. These firms are recognised everywhere as makers of the highest repute and amongst them may be mentioned—The British Northrop Loom Co., Ltd., Lang Bridge Ltd., Wm. Tatham Ltd. (who have a world-wide reputation for Carding and Spinning machinery for cotton waste and wool), Universal Winding Company (Patentees of the famous Leeson Winding Machines), H. Brinton Co., Hugh Kershaw & Sons Ltd., Cocker Machine & Foundry Co., Cook & Co. (Manchester) Ltd., Samuel O'Neill & Sons Ltd., Small & Parkes Ltd., F. E. Rudman & Co., Ltd., Tragasol Products, Ltd., etc., etc.

COMPANY, LIMITED

The Textile Department is also keenly alive to all changes which constantly take place in the manufacture of Cotton and Silk goods. It is always ready to advise on these changes, suggest up-to-date systems, and to supply machinery in conformity with them.

Being closely associated for more than sixty years with the Cotton Textile Trade in India, the Company has undertaken from time to time, many large contracts and in several cases has executed orders for complete Cotton and Woollen Mills to the entire satisfaction of the purchasers.

In addition to the vast textile machinery business the Company is also directly connected with the Textile Trade in its capacity of Managing Agents for the New City of Bombay Mfg. Co., Ltd., the Empire Dyeing & Mfg. Co., Ltd., and the New Great Eastern Spg. & Wvg. Co., Ltd.

ENGINEERING.—The Company has a very large general Engineering Department. It carries comprehensive stocks of the manufactures of a number of British Firms, amongst whom may be mentioned Herbert Morris Ltd., The Renold Chains Ltd., Hopkinsons Ltd., Geo. Kent Ltd., The Andrew Machine Construction Co., Ltd., G. & J. Weir Ltd., Davidson & Co., Ltd., Norris Henty & Gardners Ltd., Dicks Asbestos & Insulating Co., Ltd., Ashworth & Parker Ltd., Hick Hargreaves & Co., Ltd., Thos. Broadbent & Sons Ltd., Hoffmann Sprinkler Co., Ltd., etc., etc.

In keeping with the development of the Engineering Industry in India, a company under the name of The Brady Engineering Co., Ltd., was formed in 1946 with the object of manufacturing wholly or partially, under licence from their various Principals, such goods as have been imported in the past but which could be readily manufactured in this country.

SUGAR.—In their General Department Messrs. W. H. Brady control the management of The Belapur Co., Ltd. This pioneer Company is not only one of the largest of its kind, but has recently erected a new factory which is the most up-to-date in India and is capable of crushing 1,000 tons of cane per day.

It manufactures pure Indian sugar by modern methods from cane which is grown entirely on its own estate.

PRINTING.—Messrs. W. H. Brady control the well-known Caxton Press (G. Claridge & Co., Ltd.) which undertakes all kinds of Printing, Lithography, Die-Stamping, Bookbinding, etc.

INSURANCE.—Insurance is another important line of business with which the Company has been connected for a considerable number of years. The Company acts as Agents of first class British and Indian Insurance Companies, and are always in a position to give advice on, and transact practically all classes of Insurance business with the sole exception of life.

OTHER INTERESTS.—The Company handles several important agencies for goods which are consumed on a very large scale in India, and has built up an extensive connection for its imports of such proprietary articles as Nicholson Files, Nettlefold Screws, Signode Steel Strapping, etc.

CONCLUSION.—In a brief resume of the Company's operations it is impossible to enumerate a complete list of firms for whom they act as representatives, but Messrs. W. H. Brady are well-known to be a live and progressive House, staffed with experts in each branch, and possessing close connections with the Textile Trade, Engineering, the Sugar Industry, Insurance, and manifold other interests.

CHYAVANA PRASAM

STORAGE AIRCONDITIONING

Here's the airconditioning that's a must
for large office buildings. The Storage
Airconditioning Plant is cheaper to buy...
cheaper to run. You benefit both ways,
so why not find out what it's all about?

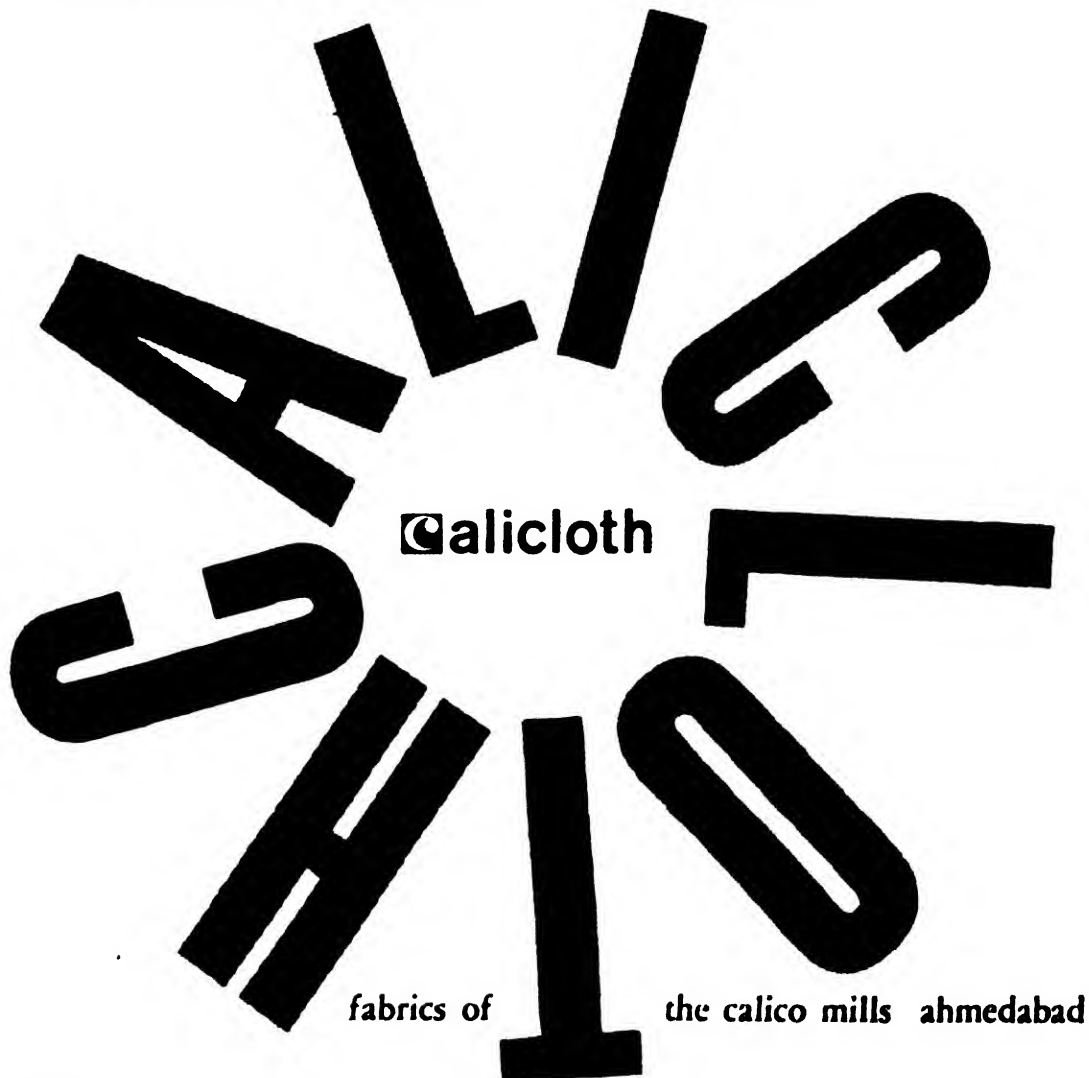

Ask your supplier to give you details.

The Calico Mills, Ahmedabad, has been a centre of the textile trade for many centuries. Brocades and dyed calicoes were manufactured during the days of the East India Company. Following the wave of industrialisation that passed from Europe to the East in the late 19th century, the Calico Mills were started in Ahmedabad in 1880. Beginning as a modest venture in spinning and weaving, the Calico Mills were pioneers in installing, after the first World War, fine count spinning and weaving in this country, with mercerisation of yarn and cloth. Until then, all textiles in fine counts were imported.

Calico Mills were also one of the first to introduce the manufacture of round hole Mosquito Netting. Today they specialise in various processes such as continuous peroxide bleaching, roller, silk screen and flock printing.

Apart from its famous Organdie Sarees and dress material, for which it has won many awards, Calico manufactures sewing thread, anti-crease chintz, voiles, poplins, shirtings and blankets. Its research laboratory and design section are among the best. Recently, Calico Mills have introduced a new wash-wear fabric called MINIRON, which satisfies the most rigid specifications. Such developments would not have been possible without a well-equipped plant and qualified specialists and technicians. Calico Mills have sponsored the Calico Museum of Textiles, which is housed in the premises of the Mills. Ancient Indian textiles of rare value, spanning many centuries of craftsmanship, are permanently on view. The Museum also sponsors the Journal of Indian Textile History, the only periodical of its kind in the field of Indian textiles.

CIPLA

INDIA'S NATIONAL PHARMACEUTICAL CONCERN

The Chemical, Industrial & Pharmaceutical Laboratories, Ltd., briefly known as CIPLA, is one of the foremost pharmaceutical manufacturing concerns in India. It is India's national concern where scientists and workers from every corner of the country—Bengal, Bihar, Madras, Maharashtra, Gujrat, Punjab and Uttar Pradesh, belonging to every race and creed are working with zeal and have helped to make CIPLA a truly national scientific organization

Under the guidance of highly qualified staff, technical personnel and with constant research, analytical control and strict supervision of manufacturing processes, CIPLA is producing

The dress of the people...

The pretty Rajasthani women are unsophisticated performers and their art has its roots in the myth and symbolism of India's ancient rural traditions. Their whirling skirts express the gay abandon of their elegant dance movements.

Costumes, whether they are for folk dances or for dainty wear, vary all over the world. Climatic conditions, natural materials available, religious demands and individual ingenuity are some of the factors that determine the dress of a people.

Many varied costumes are worn in India but different costumes need different qualities of cloth. The Mafatlal Group of Mills manufactures a wide range of cloth for everyday use in all parts of the country.

MAFATLAL HOUSE, BACK BAY RECLAMATION, BOMBAY I.

THE MYSORE INDUSTRIAL & TESTING LABORATORY, LTD.,

MALLESWARAM, BANGALORE 3.

(Successors to Mysore Government Industrial & Testing Laboratory).

Authorised Capital	Rs. 30,00,000.
Issued & Subscribed Capital	Rs. 15,00,000.
Called and Paid-up Capital	Rs. 9,37,500.
Share Capital contributed by the Government of Mysore	Rs. 3,75,000.

Chairman : The Director of Medical Services to the Government of Mysore (Ex-officio Government Director.)

Managing Director : Shri K R Madhava Rao, B.A., II.B. (Government Director).

Secretary : N. Venkatanagappa, M.A., Dip-in-Com.

General Manager : S. G. Sastry (Jr.), B.A., B.Sc.

In pursuance of their policy to transfer Industrial Concerns started by them to private enterprise, after they had been established on a sound basis, the Government of Mysore sponsored the establishment of THE MYSORE INDUSTRIAL & TESTING LABORATORY, LTD., for the purpose of handing over as a running concern, the Government Industrial & Testing Laboratory—a Concern started by them in 1931 for the manufacture of Pharmaceutical Preparations.

In so doing the Government initiated a new policy of working this Industrial Concern of theirs jointly with the public. The Government of Mysore continue to be interested in the Concern as part owners in that 40 per cent of the shares are held by them. The Government have also the right of nominating three of their representatives as Directors on the Board of Management. One of these Government Directors is also appointed by them as Chairman of the Company. The Director of Medical Services in Mysore and the Director of Public Health in Mysore are *ex-officio* representatives of the Government on the Board of Management.

The Laboratory is well equipped for the work it is intended to do, with up-to-date machinery, chemical plants designed for highly specialised work, and a fully equipped Chemical Control Laboratory. Highly qualified chemists and trained skilled workers are in charge of all manufacturing operations.

The Laboratory has made rapid progress within the past few years and expanded the lines of manufacture such as galenicals, medicinal specialities (like Vitoferin, Gripe Syrup, Sedatin, Iteol-3, etc.), fine chemicals (like Citrates, Acetates, Amyl Alcohol, Amyl Nitrate, Methanol-G.R., etc.), glandular extract (like Reticulin brand Liver Extract) and injectables. THE PLANT FOR MANUFACTURE OF MALT EXTRACT ON A LARGE SCALE HAS GONE INTO PRODUCTION RECENTLY.

The Company enjoys the exclusive privilege of supplying its products to State Hospitals, Medical Stores and other Departments of the Government of Mysore.

The I.T.L. Brand Pharmaceutical preparations are popular with the medical profession all over South India.

With the facilities made available by the Government of Mysore to expand its activities, the Laboratory has been endeavouring to maintain high standards and render greater service in the cause of National Public Health.

Our

MEDICINAL SPECIALITIES:

1. GLUCONATE-D TABLETS— Calcium Gluconate with Vitamin D for Calcium Deficiency.

2. GRIPE SYRUP-I.T.L.— For digestive disorders of children.

3. ITEOL-3.—A Non-poisonous, Non-staining, and Non-corrosive Germicide for Medical, Surgical, and Household use.

4. LINCTUS CODEINE CO.—A combination of Codeine Phosph., Citric Acid, Glycerine and Tolu. Recommended for alleviating unproductive cough in all pulmonary affections.

5. RETICULIN-I. T. L.— Liver Extract for oral and parenteral use.

6. SEDATIN-I.T.L.—(Elixir Hydrastis compound) A reliable utero-ovarian sedative and analgesic.

7. SOMNITOL—A sure remedy for headache, migraine, neuralgia, dysmenorrhoea and all other conditions associated with pains.

8. VITAMIN-B COMPLEX— (Syrup & Tablets) A combination of essential Vitamins of the B Complex group in physiological proportions—most suitable for quick relief of the deficiency symptoms.

9. VITOFERRIN-I.T.L.— A modern recuperative tonic with Vitamins, Minerals of Infants and Invalids.

10. VITOMALT—(Extract of Malt with Vitamins) Helps children to grow up sturdy and strong and facilitates rapid recovery from illness and provides expectant and nursing mothers with an energising and recuperative tonic food.

ERRATA

P. 56 : Col. 2, line 49, instead of 'Anand Dt.' read 'Kaira Dt.'

Budgets : Detailed State budgets are given in a tabular form on p. 1,261. These figures wherever they are at variance with the earlier figures given under each State must be taken as superseding them.

Legislatures : The strength of the Bombay Council was later raised to 108 from 72 provided in the Reorganization Act which is the figure given on p. 41.

The Kashmir Assembly has a strength of 100 by statute — 25 are for the area now under foreign occupation.

The strength of the Mysore Council was raised to 63 from 52, which is the figure given on p. 41.

The strength of the Punjab Council was raised to 51 from 40 provided in the Reorganization Act which is the figure given on p. 41.

P. 100 : The figure for Andhra forest revenue : 39,13, not 89,13.

P. 136 : Bhadra Project : 61,250 million c.ft. not 61,250 c.ft. Electric power capacity 40,400 kW, not 41,040.

P. 256 : Second column, seventh line : delete 'at the end of 1957'.

P. 308 : Madras Port Trust : Personnel on p. 1,053 is later than on p. 308.

P. 300 : Mr. M. V. Rajwade has been appointed Chief Commissioner, Andamans.

P. 525 : For "Craigie, Blunt & Caroe", etc., etc., read "Mulla & Mulla and Craigie, Blunt & Caroe", Jehangir Wadia Bldg., 51, Mahatma Gandhi Road, Bombay 1. Tel. Address : "LEGES".

P. 554 : Under Marubeni-lida Co., Ltd. read the address of the Bombay branch as '1st Floor, Jiji House, Ravelin Street, Bombay 1. Cable Address : "Marubeni", Bombay. Tel. 261263, 262614.'

P. 1115 : Mr. R. V. Dhulekar has been elected Chairman, U.P. Legislative Council.

Khemchand Rajkumar's group of industries

Steel Rolling

Five Steel Rolling Mills in West Bengal producing bars, rods, angles, channels, and special sections. The group has plans to install three new Rolling Mills in the near future.

Tinplate Production

Khemchand Rajkumar's new tinplate plant has just gone into production at Paharpur near Calcutta. With a rated capacity of 24,000 tons per year, this new factory will help to bridge the gap between India's production of tinplate and her demand.

Barrel Reconditioning

Barrel Reconditioning plants renovate about 800/1000 barrels a day. These are the only plants of their kind in India.

Railway Supplies

Khemchand Rajkumar maintain regular supplies to the Indian Railways of steel sections, plates, sheets, bars, track material and tested bars rolled in their own mills.

Imports

Khemchand Rajkumar have 58 years of experience in the importation of steel products of all types, and have good contacts and facilities all over the world.

Exports

With three large hydraulic presses for baling, Khemchand Rajkumar are one of the largest exporters of steel scrap.
